Subject: Disposition approving supplemental advice letter requesting approval of the Joint Community Based Organization (CBO) Reporting Template of SoCalGas, SDG&E, SCE, and PG&E Pursuant to Decision 21-06-036 Ordering Paragraph 8

Dear Orbitz, Anderson, Menon, Kaushik and Gansecki, and Dietz:

Pursuant to CPUC Decision (D.) 21-06-036, Ordering Paragraph (OP) 8, Southern California Gas Company (SoCalGas), San Diego Gas & Electric Company (SDG&E), Southern California Edison (SCE), and Pacific Gas and Electric Company (PG&E) – jointly, the investor-owned utilities (IOUs) – filed a Supplemental Advice Letter (AL) seeking approval for a reporting template that displays the IOUs' community based organizations (CBO) networks. Energy Division approves the joint utility Supplemental Advice Letter 5857-B et al., effective November 5, 2021.

1. Background

On August 30, 2021 IOUs jointly filed AL 5857 seeking approval for a reporting template that displays the IOUs' CBO networks, as directed in D.21-06-036.

D.21-06-036, OP 8 states that IOUs:

> Within 60 days of the issuance of this decision…shall jointly file via Tier 2 Advice Letter a reporting template that displays their current Community Based Organizations (CBO) networks, their structures for compensating CBOs, and that reveals each CBO's links and benefit delivered to disadvantaged communities, Environmental and Social Justice

Communities, Small Business customers, tribes, access and functional needs communities, and other hard-to-reach populations.[1]

The decision also states that IOUs and ED will work together to develop the map to "display the geographic reach of each CBO, and identify the functions that each CBO currently performs, and the communities to whom they offer service" and that "Energy utilities should jointly develop a template of the map displaying their current CBO networks. Either on the map or in a companion report there should be listings of the functions each CBO performs, the communities with which they engage, and the compensation structure, if any."[2]

On September 20, 2021 the Center for Accessible Technology (C4AT) filed protest. On September 25, 2021 SoCalGas filed response to C4AT's protest on behalf of the IOUs.

The CPUC Energy Division (ED) consulted with Commission staff in other divisions and, while we refer to ED hereafter, the findings in this disposition reflect those of the broader Commission staff consulted. ED asked IOUs to file a supplemental AL that addresses additional recommendations regarding a CBO map template, the timing of populating CBO information in Excel form, and information concerning the IOU's CBO relationships. On October 4, 2021 IOUs filed Supplemental AL 5857-A et al., replacing AL 5857 in its entirety. On October 18, 2021 C4AT and The Utility Reform Network (TURN) filed joint protest of the supplemental AL, and California Community Choice Association (CalCCA) filed comments in support of the Commission approving the supplemental AL. On October 25, 2021, SoCalGas filed response to protest comments on behalf of the IOUs.

ED asked IOUs to file a second supplemental AL with three modifications: (a) removing a request to track incremental costs of CBO reporting and mapping in the COVID-19 Pandemic Protection Memorandum Accounts (CPPMA),[3] (b) advancing the deadline for delivering the full CBO datasets to ED from December 30 to December 10, 2021, and (c) including IOU's CBO datasets as attachments to the AL. On December 10, 2021 IOUs filed Supplemental AL 5857-B, which replaces AL 5857-A in full effectively removing the request to track costs to CPPMA and advancing deadline for delivery of the full CBO dataset to December 10.

2. Advice Letter 5857: C4AT Protest and Reply Comments

C4AT's protest included three main topics directed at joint utilities advice letter:

- (2.1) No timeline provided to complete template.
- (2.2) Template did not provide sufficient information to conduct analysis to identify gaps and improve compensation structure, including a mapping template.
- (2.3) Letter from Association of California Community and Energy Services (ACCES) was not made publicly available.

[1] D.21-06-036, Decision Addressing Energy Utility Customer Bill Debt Via Automatic Enrollment in Long Term Payment Plans, June 24, 2021, Ordering Paragraph 8.
[2] Ibid, p. 42.
[3] ED does not have authority to direct the use of memorandum accounts. IOUs will instead file a motion for an account to track relevant expenses.

2.1. Timeline

In its protest, C4AT requested the AL should include a timeline for providing substantive information and allow interested stakeholders access to information about CBO relationships.[4]

In response, IOUs agreed to provide a timeline in the supplemental advice letter filing.[5]

Discussion
Energy Division agreed that IOUs should provide a timeline for providing the populated data template and requested IOUs provide in a supplemental advice letter. In AL 5857-B, IOUs provide a timeline for partially completing the CBO template by October 15 and completing the full template and remaining data fields by December 10, 2021. Additionally, IOUs will submit an updated version of the final dataset by December 30, 2021, providing additional time to reach out directly to their CBO partnerships to gather and verify information.[6]

2.2. Insufficient information

C4AT's protest highlights several areas where they see insufficient information provided in the template:[7]

- No mapping template provided.[8]
- The information about regions served does not allow for any visualization of where there may be gaps in service.
- The template fields do not allow for full detail in the areas of services and work performed by CBOs, and compensation agreements.
- Data fields are not specific or descriptive enough, including compensation fields and measuring activity level.

C4AT states concern that data fields will not provide adequate information to understand compensation and work performed by CBOs through the template. For example, definitions for high, medium, and low activity status do not provide enough granularity to explain if there are in-language material in a particular community or if culturally competent assistance is available. Additionally, there are no fields to note duration of a relationship, such as if work is seasonal or aligned with disbursal of payments, or fields to identify where information and service gaps remain and support identifying barriers to engaging hard-to-reach customers.[9]

Ultimately, C4AT argues that informational categories presented in the template will not provide enough information to provide a full understanding of the reach of IOUs' CBO networks or how CBOs are compensated.

In response, IOUs stated their intention to continue refining the CBO reporting template and to create a map of CBOs working with Energy Division and in consultation with the LIOB. IOUs

[4] See *C4AT Protest to Joint Community Based Organization (CBO) Reporting Template* (C4AT Protest), September 20, 2021, p. 2.
[5] See *Reply to Protest of SoCalGas Advice No. (AL) 5857, et al* (IOU Reply to Protest - September), September 27, 2021, p. 3.
[6] AL 5857-B, p. 8.
[7] C4AT Protest, p. 2-3.
[8] Ibid, p. 5.
[9] Ibid, p. 4.

also noted C4AT's mutual support to engage stakeholders on this topic during a workshop "to ensure that the appropriate level of detail of the description of work being done by each CBO is included."[10]

Discussion
Energy Division agrees that IOUs did not comply with decision requirements by excluding information about how this data template will be used to map CBO networks, and requested IOUs provide a description in a supplemental advice letter. IOUs provide a description for developing the mapping deliverable in AL 5857-B.

ED rejects C4AT's claim that the Excel data fields are insufficient to address mapping and analysis needs. Geographic fields such as zip codes and counties provide the ability to map and visualize CBO networks across the state and can be used to help identify gaps in service. ED also rejects C4AT's claim that the compensation fields are inadequate, which details the frequency, funding method, and sources of CBO payments for current programs.

2.3. ACCES Letter

C4AT noted that the letter with recommendations from Association of California Community and Energy Services (ACCES) referenced in the advice letter was not distributed through the service list for the proceeding and should be made public prior to the workshop.

Discussion
Energy Division sent the letter from ACCES to Service List R.21-02-014 on September 28, 2021 at the request of C4AT. ED asked ACCES to provide input on the reporting template so the IOUs' advice letter filing could be reflective of and incorporate community input. The letter provides recommendations, including establishing collaborative case management agreements with CBOs to help low-income customers better manage their energy bills and obtain assistance with arrears accumulated during COVID-19. Recommendations from ACCES are being addressed through R.21-02-014, including a stakeholder workshop as originally proposed by IOUs in their supplemental AL[11] (see Section 3 for additional detail).

3. Supplemental Advice Letter 5857-B: C4AT/TURN and CalCCA Protest and Reply Comments[12]

C4AT and TURN filed joint protest, noting that some aspects of C4AT's previous protest were addressed through the IOUs' supplemental advice letter filing, but information about each CBO is not included. AL 5857-B included a summary of CBO relationships in the Attachments but did not include information on compensation structures for each CBO or complete the Excel template or map.[13] C4AT and TURN expressed support of the stakeholder workshop and requested that IOUs

[10] IOU Reply to Protest – September, p. 3.
[11] AL 5857-B, p. 4: "The IOUs recommend that the Commission include discussion of ACCES's recommendations – along with IOU best practices for working with other CBOs – in an upcoming stakeholder workshop in this proceeding where the CBOs, IOUs and other stakeholders can come together to discuss any gaps or opportunities presented in the template" and "various compensation models".
[12] While protest was filed for AL 5857-A, Section 3 refers to AL 5857-B because it replaced the first supplemental in full.
[13] See *C4AT and TURN Protest to Supplemental Advice Letter* (C4AT/TURN Protest), October 18, 2021, p. 2 and 4-5.

"provide substantially more information about their current funding for CBOs than they have issue to date, in order to allow useful discussion."[14]

CalCCA filed comments expressing support of holding a stakeholder process to discuss gaps, opportunities, compensation, and cost recovery for CBO networks that help customers navigate relief programs.[15]

In response, IOUs noted they were in compliance with the decision and that additional information about current CBO relationships and compensation were provided in the Appendix of AL 5857-B. IOUs noted that additional information and discussion is more appropriate for the November 9 workshop to discuss ideas for how IOUs can work with CBOs to connect customers to relief programs, identify ways IOUs can support hard-to-reach communities to manage and pay their bills, and identify challenges, opportunities, and compensation structures for CBO servicers. IOUs also noted that they will provide a partially populated CBO template by November 1, in advance of the workshop for stakeholders' access.[16]

Discussion

The decision requires IOUs to provide a CBO reporting and mapping template through this advice letter,[17] while the populated template with information on each CBO relationship is provided by the agreed upon deadlines between IOUs and ED. On October 15, 2021 IOUs provided partially completed templates to ED and completed templates on December 10, 2021 as stated in AL 5857-B.

While explicitly supported by protesting parties, but ancillary to disposition of the advice letter, the Assigned Commissioner's Ruling on Strategies to Enhance Community Based Organization Support for Customers to Access COVID-19 Relief noticed a workshop for November 9, 2021 hosted by ED. The workshop discussed ideas for how IOUs can work with CBOs to connect customers to relief programs and identified ways IOUs can support hard-to-reach communities to manage and pay their bills.[18] As suggested by IOUs in the supplemental advice letter, the workshop included stakeholder discussion around gaps and opportunities in the template and CBO compensation models.[19] In alignment with C4AT and TURN's protest, IOUs served a draft public version of the populated CBO template through the proceeding service list on November 1, 2021 in advance of the workshop, since some information provided in the CBO template may be considered confidential.[20]

ED approves AL 5857-B et al. as it is compliant with D.21-06-036, effective November 5, 2021.

Please direct any questions regarding Energy Division's findings in this non-standard disposition to Mia Hart (mia.hart@cpuc.ca.gov).

Public Utilities Commission of the State of California

Subject: Supplement - Joint Community Based Organization (CBO) Reporting Template of SoCalGas, SDG&E, SCE, and PG&E Pursuant to Decision (D.) 21-06-036 Ordering Paragraph (OP) 8

Purpose

In accordance with D.21-06-036, OP 8, Southern California Gas Company (SoCalGas), San Diego Gas & Electric Company (SDG&E), Southern California Edison Company (SCE), and Pacific Gas and Electric Company (PG&E) – jointly, the investor-owned utilities (IOUs) – hereby submit to the California Public Utilities Commission (Commission or CPUC) this Supplemental Advice Letter (AL) proposing a reporting template that displays the IOUs' community based organizations (CBO) networks, as shown in Attachment A.[1]

This supplemental AL replaces AL 5857-A, et al. in its entirety at the request of the CPUC Energy Division (ED) and Energy Division (Commission staff), to address their recommendations relative to a CBO map template, the timing of populating CBO information in Excel form, and information concerning the IOU's CBO relationships.[2]

---

[1] D.21-06-036 at OP 8.
[2] September 16, 2021 CPUC Executive Division E-Mail requesting a meeting and requesting a Supplemental AL be submitted. On September 30, 2021, Energy Division directed the IOUs via

Background

On March 4, 2020, Governor Newsom declared a State of Emergency related to the COVID-19 pandemic and followed up on March 19, 2020, with an executive order for Californians to shelter in place except to meet essential needs.[3] In response, on April 16, 2020, the Commission adopted Resolution (Res.) M-4842, Emergency Authorization and Order Directing Utilities to Implement Emergency Customer Protections to Support California Customers During the COVID-19 Pandemic.[4] Res. M-4842 ordered the utilities to submit Tier 2 ALs describing all reasonable and necessary actions to implement the Emergency Customer Protections and set the end date for the Emergency Customer Protections as April 16, 2021.[5]

On February 11, 2021, the CPUC approved Res. M-4849, which extended the Emergency Customer Protections to June 30, 2021, and ordered the creation of transition plans to facilitate the smooth transition for customers when the Emergency Customer Protections are lifted.[6]

On February 17, 2021, the Commission established an Order Instituting Rulemaking (OIR) to Address Energy Utility Customer Bill Debt Accumulated During the COVID-19 Pandemic, to consider the necessity of establishing special relief mechanism(s) for customers who could not pay their energy bills in full during the COVID-19 pandemic to provide them an opportunity to become current on their energy bills.[7]

On June 24, 2021, the Commission approved D.21-06-036, *Decision Addressing Energy Utility Customer Bill Debt Via Automatic Enrollment In Long Term Payment Plans,* which among other items, extended the disconnection moratorium for nonpayment until September 30, 2021, for Residential and Small Business Customers.[8] D.21-06-036 orders the IOUs to begin documenting their partnerships with CBOs and jointly develop a template displaying their current CBO networks, to help the hard-to-reach (HTR) customers navigate important relief programs. D.21-06-036 also orders the IOUs to submit their template to the ED via a Tier 2 AL submittal within 60 days of the issuance of this decision.[9]

---

email to submit a supplemental AL in order to address additional information requested by CPUC Executive Division and Commissioner Martha Guzman Aceves; a subsequent e-mail from CPUC ED on November 23, 2021, at 12:00 a.m. revised this request.

On August 30, 2021, the IOUs submitted a Joint Tier 2 AL to provide their proposed template outlining information to be gathered regarding the IOUs' current CBO networks in compliance with D.21-06-036.[10]

On September 20, 2021, The Center for Accessible Technology (CforAT) filed a protest to the Joint IOUs AL that requested that a timeline be included for interested stakeholders to access the information when the template is populated. CforAT argues that D.21-06-036 can be reasonably interpreted to allow interested stakeholders to access the information.

On September 27, 2021, the Joint IOUs replied to CforAT with a suggested timeline for populating the CBO template and recommended a stakeholder workshop to engage interested parties in the process.

On September 30, 2021, ED requested via e-mail[11] that the IOUs supplement their AL to (1) confirm the timeframe on populating CBO information in Excel form as well as the suggested frequency of updating this information, (2) address the CPUC's desire for a CBO mapping template, and (3) additionally provide a detailed summary of each IOU's current CBO relationships who are supporting IOUs' COVID arrearage relief efforts, how they are leveraged, compensation arrangements and which programs fund the CBOs. These summaries are provided by each of the IOUs as Attachments B-E in this supplemental AL.

On November 23, 2021, ED requested via e-mail[12] that the IOUs submit a second supplemental AL to remove language which has already been discussed in D.21-06-036 and to update the timeline presented to deliver CBO data for the CPUC developed database and mapping. Submission of the first CBO dataset is revised to December 10, 2021, to accommodate the time required for ED to create the CBO maps by an end of year timeline. Additionally, the IOUs' respective CBO Network Templates are provided herein as Attachments F-I.

Overview of the Joint IOU CBO Network Reporting Template

CBOs are present across the IOUs' service territory and have expertise in local culture and needs, securing benefits, services, and support. The Joint IOU CBO reporting template is a collaborative effort designed to strategically leverage the IOUs' partnerships with CBOs. The template incorporates the IOUs' current CBO networks, structures for compensating CBOs, CBO links, and benefits delivered to disadvantaged and vulnerable communities (DVCs), Environmental and Social Justice Communities, small business customers, tribes, access and functional needs communities, and other HTR populations. In addition, the CBO reporting template includes the number of people the CBOs serve each month and outlines the different cities reached. The template also annotates what Customer Assistance Program information has been

[10] D.21-06-036, OP 8 at 51-52.
[11] E-mail sent by CPUC ED on September 30, 2021, at 3:45 p.m.
[12] E-mail sent by CPUC ED on November 23, 2021, at 12:00 a.m.

disseminated to the public. The Joint IOU CBO network template is presented in Attachment A of this supplemental AL.[13]

Association of California Community and Energy Services (ACCES)

On July 23, 2021, ACCES provided recommendations for the development of the Joint IOU CBO network template. The IOUs reviewed ACCES's recommendations, which center on establishing collaborative case management agreements with CBOs to help low-income customers better manage their energy bills and obtain assistance with arrears accumulated during the COVID-19 pandemic.[14]

The IOUs appreciate ACCES's recommendations and acknowledge that the IOUs can increase collaboration with CBOs. The IOUs recognize that CBOs are key partners in helping customers become aware of, understand, and enroll in the growing number of assistance programs, such as the Arrearage Management Plan (AMP). The IOUs also understand that there are additional opportunities to compensate CBOs for their continued support of customers impacted by the COVID-19 pandemic, such as the ongoing coaching that ACCES recommends to help customers remain enrolled in debt relief programs.[15] The IOUs are open to exploring compensation for CBOs who provide outreach and education to help customers navigate the plethora of programs that exist to provide arrearage relief. For example, this could include exploring adding interested CBOs to participate in the Community Help and Awareness of Natural Gas and Electric Services (CHANGES) program operated by the Commission, which is offered by some CBOs to connect Limited English Proficient (LEP) customers who need help managing the energy issues they are facing.

Outside of statewide programs such as the California Alternate Rates for Energy (CARE) and Family Electric Rate Assistance (FERA) Capitation program, which provide funding to CBOs to enroll eligible customers into CARE or FERA, the IOUs employ varying compensation models for CBOs. The IOUs recommend that the Commission include discussion of ACCES's recommendations – along with IOU best practices for working with other CBOs – in an upcoming stakeholder workshop in this proceeding where the CBOs, IOUs and other stakeholders can come together to discuss any gaps or opportunities presented in the template. Workshop discussion can also help examine the various compensation models for CBOs that the IOUs currently utilize, lay the groundwork for a more holistic approach to compensate CBO's that work in each IOU's service area, and consider appropriate options for cost recovery. The workshop would also support the Commission's aim as articulated in the July 29, 2021, Assigned Commissioner's and Administrative Law Judge's Ruling Amending Scope to understand "if any, what outstanding barriers, gaps, improvements in documentation and

---

[13] On August 11, 2021, the CPUC Executive Division sent an email providing comments to the IOU's CBO reporting template. The Executive Division's recommendations have been incorporated into the template.
[14] July 26, 2021, CPUC Executive Division E-mail with July 23, 2021, ACCES Proposal on the IOUs/CBOs partnership reporting template.
[15] ACCES Proposal at 2.

partnerships remain with CBOs in order to make sure that the hardest-to-reach customers navigate important relief programs."[16]

The IOUs propose adding an item to the stakeholder workshop agenda for collaborative discussion among all interested parties of ways to improve collaboration between CBOs and IOUs, including the ACCES' recommendations.[17]

CBO Information in Excel Form

Commission staff directed that the IOUs complete the CBO network template by October 15, 2021.[18] The Joint IOUs understand Commission staff's eagerness for a completed CBO network template, and have committed to populating the template with the CBO information currently available to each IOU by October 15, 2021. Due to the ambitious timeline, the IOUs will not be able to immediately complete some of the information requested in the Excel template, as it is not readily available and the IOUs will be required to request it from individual CBOs. Information not currently available to the IOUs will be delivered as the CBOs respond to the IOUs' request for the data. This includes, but is not limited to, geographical coverage such as zip code information, and organizational information such as the number of people served monthly by each CBO. As such, the completion of the CBO template will be an iterative process. The IOUs propose the Excel template data be updated annually in February as new relationships and the renewal of existing relationships occur in January of each year for most IOUs.

CBO Map Proposal

The Joint IOUs recognize the value in visually displaying the constellation of CBO relationships to understand penetration and any gaps that may exist for the purposes of community-based assistance to customers in need of arrearage relief. The Joint IOUs recommend a statewide mapping structure that allows a geographically-focused approach to understanding CBO penetration. Consistent with the Commission's determination in D.21-06-036, ED is to create a statewide map of CBOs in each IOU's service area.[19] To produce a statewide map, the Joint IOUs recommend that the CPUC create a comprehensive database that includes certain inputs from each IOU's CBO network reporting template.[20] The database would be used to create an interactive web map, like the interactive maps the CPUC creates to display the affordability ratio[21] as part of R.18-07-006. In addition to showing the general penetration and distribution of CBOs throughout the IOUs' territories and statewide, the interactive map could include

---

[16] R.21-02-014, Assigned Commissioner's and Administrative Law Judge's Ruling Amending Scope, at 8, July 29, 2021.
[17] *Id.* at ACCES Proposal.
[18] E-mail from CPUC Executive Division on October 4, 2021 at 4:24 p.m.
[19] D.21-06-036 at 42.
[20] The Joint IOUs consider CPUC staff as the most appropriate organization to oversee the creation and management of a statewide database, similar to the statewide databases in other Rulemakings (e.g., R.13-11-005), see the California Energy Data and Reporting System (CEDARS).
[21] https://www.cpuc.ca.gov/industries-and-topics/electrical-energy/affordability/affordability-ratio.

a display of the counties the CBO serves, services offered, and audience/constituency base. The web map could also overlay Disadvantage Communities (DACs), DVCs, and Environmental Social Justice (ESJ) communities to help inform CBO penetration in these important areas to support customers with COVID-related arrearages. Figure 1 shows the CPUC's Affordability Ratio interactive map, included as a template for a CBO Network interactive map. The Joint IOU CBO Network template includes the relevant data for the ED to create the web map D.21-06-036 envisions.[22]

As ED develops a web map,[23] the IOUs recommend clarifying a few details. For instance, it would be helpful to better define the preferred hierarchy of map criteria. Determining criteria hierarchy will clarify the starting layer users will interact with first (e.g., when a user first clicks on the web map, the first layer isolates zip codes, which then produces a list of organizations who provide services in that selected zip code) to retrieve information from the web map.

At this time, the CBO Network reporting template and proposed maps support IOU activities designed specifically to help residential customers in need of COVID-related arrearage relief.[24] The Joint IOUs recognize the potential value in expanding the reach of the CBO Network Reporting template to support other ratepayer-funded program activities such as the IOUs' portfolio of demand-side management programs, among others. That said, the Joint IOUs are cautious about commingling program funding,[25] and recommend that the CPUC consider this issue before expanding the CBO Network Reporting template and any corresponding maps beyond the original scope as delineated in D.21-06-036. The Joint IOUs recommend that Commission staff determine the universe of proceedings and programs that they would like to see included in the CBO Network, and notice the corresponding service lists (e.g., electric vehicles, Energy Savings Assistance (ESA) and CARE/FERA, etc.) with an invitation to a workshop where parties can discuss options to expand the scope of CBO Network database and mapping, and explore the appropriate procedural steps to do so.

<u>Other Items Discussed During the Development of Attachment A</u>

- Creation of a database on a platform which can be accessed and updated by IOUs and Commission staff (including CBOs):
    - Currently, the IOUs have developed a data template that captures criteria necessary to inform a map that will visualize the various geospatial functions of CBOs throughout California. However, in order for ED to develop a web map, as described in the examples above, a database will likely be necessary. To ensure data quality, the IOUs recommend that the ED host a database, as was done in the Affordability Rulemaking for a similar purpose, that will feed the proposed web map, and that the IOUs setup a process to collect, combine, and clean their CBO data, on an agreed upon cadence, and deliver that data to the ED in a format that is compatible with the database designed for the intended web map. Having Commission staff oversee a statewide CBO database offers advantages including the ability for CBOs to access and submit their information, allowing for crowdsourcing of new CBOs who might otherwise be previously unknown. This approach supports building a robust network of CBOs that the IOUs can tap to support its customers. The IOUs will target a date of December 10, 2021, as requested by the ED,[26] in delivering the first set of data for the CPUC developed database and mapping.[27] Subsequently, the IOUs will continue to update CBO information with heavy reliance on CBO input and responses. IOUs will emphasize the request to verify current CBO information and community reach by direct

[26] E-mail from CPUC ED on October 5, 2021, at 4:24 p.m.
[27] D.21-06-036 at 42.

communication to CBOs through phone and email. Understanding that CBOs play an essential role in helping customers and communities obtain critical services and support throughout the COVID-19 pandemic, the IOUs understand that data inquiries to verify CBO information may become a second priority for CBOs during the holiday season due to the additional events that CBOs provide to communities, such as food drives and holiday toy drives for children. IOUs will continue to gather and refine CBO information and will provide additional CBO data by December 30, 2021.

In the interest of time, the CBO data that will be submitted to ED on October 15 conforms to the structure ED and the IOUs have incrementally developed. However, the structure of the data will likely need to change in order to fit the needs of a web map. This likely includes the need to remove multiple pieces of information contained within individual cells (e.g., multiple zip codes in one single cell) and placing that information in individual rows.

- Missing drop down menus (capability to capture all that apply) in data template:
  - IOUs are currently developing the template for conveying raw data to ED, which is independent of the functionality that will exist in the web map such as the ability of map users to select specific criteria via user-applied filters.

- Missing census tract data criteria:
  - The IOUs appreciate the need to develop a web map that achieves a level of detail as granular as data at the census tract level. However, the IOUs do not believe that this level of data is uniformly tracked by CBOs and attempting to include it would likely increase opportunities for data errors. The IOUs recommend limiting the geographic resolution to zip codes at this time.

Protest

Pursuant to General Order (GO) 96-B, General Rule 7.5.1, SoCalGas requests that the Commission maintain the original protest and comment periods designated in AL 5857-A and not reopen the protest period for this supplemental AL.

Effective Date

SoCalGas asserts this AL is subject to ED disposition and should be classified as Tier 2 (effective after staff approval) pursuant to GO 96-B and the directive contained in OP 8 of D.21-06-036. Therefore, SoCalGas respectfully requests that this AL become effective for service on November 5, 2021, the same requested effective date in AL 5857-A.

Notice

A copy of this AL is being sent to SoCalGas' GO 96-B service list and the Commission's service lists in A.14-11-007, A.15-02-001, A.19-09-014, A.19-11-003, A.20-03-014, R.12-06-013, R.15-03-010, R.18-03-011, R.18-07-005, R.18-07-006, and R.21-02-014. Address change requests to the GO 96-B service list should be directed via e-mail to Tariffs@socalgas.com or call 213-244-2837. For changes to all other service lists, please contact the Commission's Process Office at 415-703-2021 or via e-mail at Process_Office@cpuc.ca.gov.

Pacific Gas and Electric Company
Summary

Pacific Gas and Electric Company®

ATTACHMENT B

Summary: Community-based Organization (CBO) engagement to help customers navigate COVID-19 arrearage relief programs and the phase out of emergency COVID-19 consumer protections in PG&E's service territory

Throughout 2021, PG&E worked extensively with community-based organizations (CBOs) to help inform customers and communities about the financial assistance programs available to help manage arrearages as well as the phase out of COVID-19 emergency protections. While PG&E simultaneously undertook a comprehensive customer communications effort including social media, radio ads, website updates and direct mailings (e.g., letters), PG&E understands that CBOs can also be very effective messengers of this critical information, particularly for the hardest-to-reach and most impacted customers.

PG&E's CBO partnerships in Q1-Q3 2021 to educate and alleviate customer concerns during the Pandemic and help them access financial assistance programs included the following efforts:

1. New paid contracts totaling $92,000 for 21 CBOs to provide outreach and education specifically on the COVID protections transition and financial assistance. CBOs supported information distribution in 16 different languages.
2. Provided comprehensive training, education, and information to CBOs interacting with PG&E across a multitude of programs, many of these CBOs voluntarily distributed the information to their constituents.
3. Established broad stakeholder engagement and an ongoing CBO feedback loop.
4. Developed additional new and innovative ways for CBOs to be paid and provide marketing, education, and outreach (ME&O) services and program input in 2022 and 2023 through two new CBO Requests for Proposals (RFPs).

In the following sections, PG&E provides top-line metrics and illustrative examples for these CBO efforts:

1. Created new paid arrangements totaling $92,000 for 21 CBOs to provide outreach and education specifically on the COVID protections transition including support for customers in arrears

Between April and June 2021, PG&E secured paid arrangements totaling $92,000 with 21 Community-based Organizations (CBOs) across our service territory for ME&O efforts specific to the phase out of COVID-19 emergency protections and to ensure our customers had the support they need to navigate COVID-19-related debt relief programs, as listed in Table 1, below. Because we needed to fast-track CBO support, we leveraged our current CBO network considering the CBO's expertise and geographic coverage.

Table 1: Summary of Community-based Organizations (CBOs) paid specifically for COVID ME&O efforts:[1]

CBO Payment Arrangement Type	Number of CBOs	Types of CBOs (primary focus)[2]
Purchase Order	8	Disability/Independent Living Center; Minority/In-language; Educational; Environmental, energy, climate; Senior; Low income; disadvantaged; Social services
Outreach Grant	13	Disability/Independent Living Center; Minority/In-language; Educational; Environmental, energy, climate; Faith based, Senior; Low income; disadvantaged; Social services; Emergency; Labor
Totals	**21**	

Funding: The funding for this effort is through CPUC-approved programs. PG&E may also leverage the CPPMA, as needed.

Project Scope: CBOs were asked to develop and implement an ME&O plan, in collaboration with PG&E, and submit monthly reports to PG&E summarizing the reach and scope of their activities. PG&E provided mailed materials, including printed translations of fact sheets, and PG&E "swag/gifts" such as first aid kits, and children's emergency planner coloring books, that were reported by multiple CBOs to be very helpful engaging families with children.

- CBOs working on this effort also were trained to offer information about bill savings programs and complementary resources (i.e., Arrearage Management Plan (AMP), Payment Plans, Low Income Home Energy Assistance Program (LIHEAP), etc.) that may be available for targeted households.
- CBOs were provided direct access to a PG&E Liaison to answer any questions or clarify any program details encountered during outreach efforts.

Impact:

- In **July 2021 alone, over 100,000 unique customer contacts/touch points were made by these CBOs,** including newsletter recipients, in-person flyers distributed, phone calls fielded, in-office visits, social media audience reached, etc.

[1] The specific names of the CBOs and associated payment amounts will be provided and filed confidentially by PG&E as part of its populated CBO Template, in a Joint IOU filing on 10/15/21 pursuant to Decision (D.) 21-06-036 Ordering Paragraph (OP) 8.

[2] PG&E provided the organization characterizations in response to the California Public Utilities Commission's (CPUC) Business and Community Outreach (BCO) staff's data request to PG&E on May 19, 2021. PG&E acknowledges there is overlap in the services and activities of the CBOs, and the classifications in the above table are its best estimates.

- These 21 CBOs distributed information to some of our hardest-to-reach customers including seniors, low-income, non-English speakers, families with children, individuals with disabilities, and residents of rural communities, including agricultural workers.
    - **CBOs distributed informational materials in 16 different languages**, and also used American Sign Language.
- A sample of the in-person events (limited due to COVID-19 protocols) included: Farmers' Markets, neighborhood events, a United Way Conference, a luncheon for 700 seniors in the city of Madera, inclusion of information in 1,500 energy efficiency boxes mailed to Stockton residents, and including information in a CBO's TV show targeting Asian families in the Bay Area.

We continue to leverage our CBO network to provide ongoing customer support, which we understand is critical to ensuring customers understand COVID-19 payment plans and are successful with these plans. Further, CBOs continue to play an important role in helping our customers navigate the array of arrearage relief programs in California.

2. Leveraging PG&E's Comprehensive Network of ~1600 CBOs: Provided comprehensive training, education, and information to CBOs interacting with PG&E across a multitude of programs; many of these CBOs voluntarily distributed the information to their constituents.

In addition to the 21 paid CBOs detailed in Section 1 above, PG&E took advantage of many opportunities to inform its broad network of ~1600 CBOs about the impacts of COVID-19 on customers, and bill savings programs and opportunities. In Table 2, below, PG&E highlights how it shared information to a subset of ~400 CBOs[3] who are specifically supporting specific program areas, providing training, materials, and updates pursuant to the phase out of COVID-19 emergency protections and financial assistance and arrearage relief programs. Many of these CBOs voluntarily distributed materials and information to constituents, as also noted in Table 2, below.

Table 2: Additional ~400 CBO program partners informed and highlights of engagement:

CBO Partner Group Description	Description of activities	Highlights
40 CARE Community Outreach Contractors (COCs)	• PG&E provided multiple webinar trainings and materials, including newsletters and email updates	• CARE COCs incorporated messaging into outreach and some into newsletters and social media
20 LIHEAP Agencies	• PG&E provided multiple webinar trainings and materials, including newsletters and email updates	• CARE COCs incorporated messaging into outreach and some into newsletters and 1:1 office visits

[3] The specific names of the CBOs will be provided and filed by PG&E as part of its populated CBO Template, in a Joint IOU filing on 10/15/21 pursuant to Decision (D.) 21-06-036 Ordering Paragraph (OP) 8.

~285 PSPS Informational and Resource Partners	• PG&E provided webinars, including joint IOU webinar for In-home Support Services • Multiple wildfire safety webinars for AFN CBOs that included information on COVID-19 protections financial assistance	• 10 Food banks distributed flyers in food boxes, over 30,000 in a month
25 TOU/Rate Awareness CBOs	• PG&E partnered with multicultural CBOs to conduct multiple in-language customer-focused webinars and media interviews	• 44 in-language media interviews reached nearly 3.5M customers • 34 in-language webinars reached over 30,000 customers
10 ESA program CBOs and 20+ Contractors	• PG&E provided training and materials, including newsletters and email updates	• ESA CBOs left Customer Protections flyers at 10,000-homes per month

PG&E is appreciative of all the CBO efforts to help reach impacted community members with critical and timely information about the phase out of COVID-19 emergency protections, financial assistance and arrearage relief programs and services that may be available. PG&E continues its engagement with these CBOs so that they can help our customers understand the arrearage relief programs available to them (e.g., COVID-19 payment plans).

3. Established broad stakeholder engagement and ongoing CBO feedback loop: CBO Focus Groups feedback informed PG&E's communication strategy

In Q1 2021, PG&E hosted multiple (remote) focus groups for CBOs and LIHEAP agencies across the service territory, that were also attended by Department of Community Services and Development (CSD) and CPUC representatives. PG&E's intent with these focus groups was to inform a broad group of stakeholder organizations about the phase out of COVID-19 protections and seek input on strategies and methods to best reach low-income customers and families facing arrearages with this critical information.

PG&E also provided education and opportunities for broad input on its strategy for messaging about the COVID-19 protections during its stakeholder advisory groups. These forums included multiple meetings of the People with Disabilities and Aging Advisory Council (PWDAAC) and the Low-income and Communities of Color Advisory Group.

From its community engagement, PG&E heard reports of customer and community confusion, and fear, over not understanding what would happen when, for example, the disconnection moratorium expired. This confusion was compounded by the changing dates of the expirations, as well as new programs to support struggling households coming online, such as AMP, ARAP, and other state resources.

A consistent recommendation we heard from our stakeholder engagement efforts was to engage CBOs in the ME&O efforts. PG&E responded to this recommendation by incorporating the paid CBO agreements and broad CBO education and engagement described in Sections 1 and 2, above, as well as in its new CBO strategies detailed in Section 4, below. PG&E plans to continue this broad CBO engagement and provide additional opportunities for continued input, such as by surveying currently participating CBOs on their experience with COVID debt relief outreach, hosting focus groups, and other meetings with relevant stakeholders.

4. Developed additional new and innovative ways for CBOs to be paid and provide marketing, education, and outreach (ME&O) services and program input in 2022 and 2023 through two new CBO Requests for Proposals (RFPs)

Looking forward to 2022, PG&E had developed initiatives to deepen its CBOs' customer outreach services across the service territory to assist in reaching customers and providing household education and outreach. PG&E has also created novel and innovative ways for CBOs to be central to the design and implementation elements of many customer and emerging technology programs and projects.

Massive Expansion of Paid CBO Partnerships Coming in 2022

To accomplish these objectives of deepening CBO partnerships and including CBOs as advisors in program and project development, PG&E has recently announced two contracting opportunity announcements for CBOs services in 2022 and 2023.[4] Through this formal solicitation channel, PG&E endeavors to announce the offerings as widely as possible and provide opportunities for both new and existing CBO partners to participate in the design and implementation of multiple programs.

1. First is the creation of a new Community Perspectives Advisory Council. PG&E's intent is to increase the diversity of CBO perspectives that we are consulting with in our programs, and while the topics for the Council are wide ranging, they are focused on customer and emerging technology programs and projects. A primary topic for the Council will be a deep dive into arrearage management programs, bill support resources, and affordability considerations for customers facing utility debt or struggling to make utility payments.

   Funding Sources: PG&E will offer a stipend to participating CBOs intended to cover their costs to participate. This is funded through multiple program areas, as up to 10 program areas plan to contribute to expenses for the Council.

   - **Total available funding:** Up to $80,000 over 2 years, (depending on # of CBOs selected)

   Timing: PG&E expects to commence the Council in Q1 2022.

[4] RFP 118185, Community Perspectives Advisory Council. PG&E Bid Opportunity (pge.com);
RFP 127674, Marketing, Education, and Outreach services for multiple programs. PG&E Bid Opportunity (pge.com)

2. The second is a CBO request for proposal (RFP) for Marketing, Education, and Outreach (ME&O) services for 4 different program areas. CBOs can apply for at least 1, and up to all 4 parts:
    a. Income-qualified program suite (CARE/FERA/ESA programs, and complementary offerings for income-qualified programs including Arrearage Management Plan (AMP), Payment Plans, Percentage of Income Payment Plan (PIPP, as available), LIHEAP, and other bill savings programs
    b. Electric Vehicles (EVs) – multiple planned and existing EV programs
    c. Workforce Education & Training
    d. Microgrids initiatives

    PG&E hopes through this effort to tap into the expertise and local knowledge CBOs have, and work together to serve hard-to-reach households and communities, including rural, tribal, indigenous, language-isolated, geographically isolated, disadvantaged communities (DACs), other environmental and social justice communities, and populations facing barriers to access in PG&E's service territory.

    Funding Sources: The funding for this RFP is through CPUC-approved or CPUC-approval pending programs and is intended to bolster the capacity capabilities of CBOs to participate in ME&O activities for a wide variety of customer programs.
    - **Total available funding:** Up to $2.6M over 2 years, (depending on #s of CBO proposals funded)

    Timing: PG&E expects to execute contracts with selected CBOs in Q1 2022.

To address any potential gap in CBO activities between the current CBO contracts and agreements, and those contemplated by the two RFPs to commence in Q1 2022, PG&E is planning to extend some of its current CBO agreements and offer additional CBO outreach grants through Q1 2022.

PG&E looks forward to engaging with stakeholders as it continues to evolve its approach to CBO engagement and integrates CBOs into program design and implementation for a multitude of programs and projects, particularly those targeting priority communities and income-qualified households.

ATTACHMENT C

Advice No. 5857-B, et al.

Southern California Edison Company
Summary

SOUTHERN CALIFORNIA EDISON

Attachment C
Southern California Edison's CBO Partnerships

SCE has relationships with more than 1,600 community and faith-based organizations, collectively called CBOs, within its service territory; many of which focus on underserved customer segments including seniors, those with low income, the disabled, those with limited English-speaking abilities, and those who live in rural communities. [1]

These 1,600+ CBOs are categorized into three tiers based on their interest in engaging with SCE and the frequency with which they are willing to share our messaging and communications with their constituents.

Tier 3: Tier 3 consists of approximately 1,400 CBOs that SCE communicates with through quarterly newsletters. The objective of the quarterly newsletter is to provide these CBOs with resources and messages to share with their constituents. The content of the newsletter is in support of things such as Time-of-Use (TOU) Rates, Income Qualified Programs (IQP), and Wildfire and Emergency Preparedness. At the beginning of the pandemic, SCE also started included in its messaging information and resources about utility programs and changes related toCOVID-19, knowing that this was at top of mind for customers and their biggest concern.

Tier 2: Tier 2 consists of approximately 200 CBOs. These CBOs have expressed interest in more frequent communications and dialogue than those in Tier 3.

Tier 1: To create even more productive alliances with CBOs, SCE launched a pay-for-performance model in 2019 and contracted 30 CBOs for ongoing incentivized partnerships. These are the Tier 1 CBOs. These CBOs were selected through a Request for Proposal (RFP). The RFP was designed to select a total of 30 CBOs that have a strong reach within diverse communities and that demonstrated a strong ability to partner with SCE to help increase awareness and educate constituents about things such as TOU Rates and IQP.

In the Summer of 2020, this model was duplicated to further engage our CBO partners to help educate constituents around wildfires and how to be prepared in the event of a disaster or a public safety power shutoff (PSPS) activation within their communities. To date, SCE has contracted with 50 CBOs that support wildfire mitigation. CBOs began these outreach and engagement efforts in November 2020.

Together, the CBOs and SCE share information about programs that can help customers reduce their bills, including programs such as California Alternate Rates for Energy Program (CARE), Family Electric Rate Assistance Program (FERA), and the Medical Baseline Allowance program.

---

[1] Names and payment information of organizations contracted to support SCE with services described in this document will be provided and filed by SCE in the associated CBO Data Template in a Joint IOU filing on October 15, 2021 pursuant to Decision (D.) 21-06-036 Ordering Paragraph 8.

Tier 1 CBOs regularly exchange and share communications on programs and services through social media, newsletters, e-mail, blog posts, and direct stake holder engagement efforts, such as digital webinars. These communication activities are part of the metrics in which CBOs are required to report on each month, and are used to evaluate CBO performance, program effectiveness, and identify areas of improvement.

In addition to the messaging in support of programs discussed above, SCE also provides Tier 1 CBOs with continuous updates on the different resources available for customers impacted by COVID-19. SCE representatives provide this information when attending any CBO-facilitated webinar or Facebook / Instagram "live" event, which is generally how CBOs have been engaging with their constituents because of limited in-person engagement activity during the COVID-19 pandemic. Understanding that many of SCE's customers will still face COVID-related financial hardships in the future, SCE plans to continue to provide CBOs with similar information going forward. For Tier 1 CBOs to be effective in their outreach efforts, SCE provides them with the following:

- Onboarding training to provide a background and resources available for wildfire mitigation efforts or other relevant items.
- Monthly check-ins to review engagement efforts and address any challenges the CBOs may be facing.
- Quarterly webinars for all CBOs to attend, receive a refresh on programs, and share additional initiatives or resources to support their outreach efforts.
- CBOs receive monthly messaging and resources as needed. CBOs share this information through their communication channels.
- CBOs provide SCE with a list of community events, and SCE posts the information on SCE.com to promote these opportunities with constituents.
- CBOs have access to various digital program PDFs (in-language). In addition, if a CBO attends or hosts an in-person event, SCE provides CBOs with printed materials and giveaways.

In addition to the tiered relationships described above, SCE also collaborates with CBOs in several different ways to help reach customers and provide them with important program information:

- SCE partners with United Way of Greater Los Angeles (UWGLA) to administer SCE's Energy Assistance Fund to provide bill assistance grants. UWGLA oversees a network of 80+ CBOs located around SCE territory where income qualified customers can apply for grants. These CBOs engage in the intake process and inform applicants of current consumer protections offered by SCE. From March 2020 to June 2021, the CBOs offered and processed COVID impacted customers supplemental bill assistance grants.
- SCE encourages community-based organizations to partner with SCE via the CARE/FERA Capitation Fee program to assist with hardest-to-reach customer populations with

enrollment in the CARE and FERA Program. The program reimburses organizations helping income-qualified customers gain assistance through the CARE or FERA program. The program provides a capitation fee of $30 for each successful enrollment. The Capitation Fee program partners receive the CBO newsletter and inform customers of current consumer protections offered by SCE.

- SCE works with 13 CBOs, also known as Local Service Providers (LSPs), throughout the service area including, but not limited to, Long Beach Community Action Partnership, Inyo Mono Advocates for Community Action, Pacific Asian Consortium in Employment, and Maravilla Foundation to provide residential customers assistance with the Low Income Home Energy Assistance Program (LIHEAP). LIHEAP, a statewide assistance program administered by the California Department of Community Services and Development (CSD), provides low-income customers with financial assistance to meet their energy needs. SCE recently launched a new LIHEAP portal that allows the LSPs to assist customers in receiving funds from CSD. As part of the launch, SCE conducted two training sessions that were attended by several LSPs who learned how to use the new portal and who provided insight on how to assist our mutual customers in need. SCE has continued to meet with LSPs as needed to continue to provide guidance on additional assistance programs available to our customers.
- SCE is working extensively with CBOs to reach different segments of potential income-qualified customers and customers in need. These CBOs may specialize in serving different segments of the population, such as refugees, veterans, or religious affiliations, or focus on certain issues such as homeless prevention/homelessness and family-centered outreach and assistance. SCE has also partnered with public assistance agencies to encourage participation in SCE's programs and services. Digital marketing materials are provided to CBOs and public assistance agencies. Physical hard copy fliers are provided when requested. CBOs also have the opportunity to work with SCE's business resource group, Asian Pacific Islander Edison Employee Resource Group (ASCEND), when the CBO's activities align with SCE & ASCEND's corporate strategy and initiatives. ASCEND provides a platform for CBOs to present to ASCEND members. ASCEND members may provide personal donations, community service, mentorship, and other assistance to the CBO. SCE will also help different CBOs collaborate with each other when CBOs activities may benefit by cross promotional alignment.
- Since 2017, SCE has invested over two million dollars through its corporate philanthropy program to develop the emPOWER universal provider pilot program which conducts outreach to California's hardest-to-reach communities to educate and enroll residents in all available income-qualified and other beneficial green programs. In order to make that possible, SCE funded the creation of a multi-lingual software platform that makes it easy for CBO partners to screen residents for all available programs without needing to be program experts. This platform is paired with training materials and a program reference guide that assists CBOs in educating residents and enrolling them in programs. In

addition to funding, SCE has also provided detailed program eligibility and benefits information as well as training on its many programs in order to develop the program.

SoCalGas' Community and Faith Based Organization Relationships

As of the submittal of this supplemental advice letter, dated October 6, 2021, SoCalGas maintains relationships with 40 community and faith-based organizations, commonly referred to as CBOs/FBOs or Community partners. These organizations represent various areas throughout the SoCalGas service territory and were partnered with as noted in the most recent Low-Income Decision (D.21-06-015) to promote and build awareness to the communities they serve advocating for SoCalGas' Customer Assistance Programs (i.e., CARE, ESA, Medical Baseline, Gas Assistance Fund) as well as other relevant, non-utility programs such as CA Lifeline, affordable broadband, and rental assistance). These organizations represent the hard-to-reach and/or low-income communities such as seniors, customers with disabilities, customers with limited English proficiency, extreme poverty, and tribal communities.

These organizations are currently paid monthly based on a Memorandum of Understanding Agreement (MOU). The MOU defines general terms and conditions, scope of work for COB, organization overview, goals, and objectives, compensation schedule, and reporting. The MOU is developed and agreed upon between the organization and SoCalGas Customer Assistance Programs Outreach team based on the targeted communities served. Invoices are submitted by organizations monthly based on the agreed compensation stipend amount listed on the MOU. In addition, organizations provide monthly reporting of activities to track and provide documentation of the outreach the organization provides on behalf of SoCalGas. These reports are included as part of SoCalGas' Low Income Monthly Reports that is filed with the California Public Utilities Commission (CPUC).

The SoCalGas Customer Assistance Programs Outreach team communicates with this group of organizations at least once monthly. The team works with the organizations to ensure they have adequate SoCalGas Program materials available for customer distribution. If the organizations require staff training for new employees, the SoCalGas Customer Assistance Programs Outreach team provide required training and any Program updates. During the COVID-19 pandemic, SoCalGas Customer Assistance Programs Outreach team provide active communications with the organizations on company and program updates such as branch payment closures, program moratoriums, and additional assistance programs available for customers.

To ensure CBOs are effective and efficient in their outreach efforts, SoCalGas Customer Assistance Programs Outreach Team provides them with the following:

- Onboarding training to provide background on Customer Assistance Programs
- Communication strategy and check-ins at least once a month to address any questions, concerns, material needs, event support, etc.
- Dedicated Point of Contact from Customer Assistance Outreach Team
- Annual meeting with all partners to discuss program updates and new year agreements
- Social media tool kit
- All materials and giveaways for distribution to community
- Sample monthly report for organizations to report and track activities

- SoCalGas Customer Assistance Programs Outreach Team shares newsletters and other pertinent information from other groups such as Community Relations and Public Affairs – (e.g., COVID-19 pandemic updates)

In addition to the 40 organizations, SoCalGas works with Molina Healthcare as part of an unpaid partnership to disseminate Customer Assistance Program information via channels such as community partner panels and Patient Advocate meetings. Like Molina Healthcare, SoCalGas works with LA Care in partnership with Southern California Edison. Family Resource Centers were identified as an opportunity to have customers learn about Customer Assistance Programs. Due to the COVID-19 pandemic, centers were closed but as they slowly reopen, SoCalGas and SCE are working to train Resource Center staff to familiarize them with the programs to assist with building awareness and increase enrollment to the patients.

Additional resources used to build awareness and assist in the enrollment of programs are SoCalGas' CARE capitation agencies. We have listed them below with an asterisk to distinguish them.

Current listing of Community and Faith Based Organizations
211 LA County
Blindness Support Services (BSS)
Catholic Charities of Orange County
Cesar Chavez Foundation/ Radio Campesina
Disabilities Community Resource Center (DCRC)
El Concilio
El Nido
Families Forward
Fiesta Educativa

San Diego Gas & Electric Company
Summary

ATTACHMENT E
SDG&E's Community Based Organization Network and Relationships

In response to the growing need to engage and educate customers on company programs and initiatives, the Energy Solutions Partner (ESP) Network was established nearly 10 years ago. The ESP Network, which at the time consisted of 25 community-based organizations (CBOs) total, was strategically divided to include five partners per region within SDG&E's service territory. These partners were leveraged to educate customers on new rate options available to both business and residential customers. Since then, the ESP Network has grown extensively. SDG&E has proactively added CBOs to support new company initiatives and programs, reach a wider range of customer demographics and continue to effectively engage with customers and the community.

To date, SDG&E works closely with a network of approximately 200 CBOs to connect customers with programs and solutions related to Customer Assistance, SDG&E's COVID-19 response, Energy Efficiency and Conservation, Public Safety Power Shutoff resiliency, and wildfire preparedness. These organizations represent the diversity of SDG&E's customers within its service territory. The majority of these CBOs are small, grassroots agencies serving customers with access and functional needs, including those that are multicultural, multilingual, low income, senior, and LEP audiences. These partners help educate and enroll customers in bill assistance programs utilizing a variety of tactics, including messaging through email and social media channels (Facebook, Twitter, and Instagram), sharing information on their websites, providing booth space at events, and participating in and hosting program-focused presentations.

All CBOs within the ESP Network are compensated financially on an annual basis through an agreed upon Memorandum of Understanding (MOU) that is executed in Q1 of each year. This MOU outlines key SDG&E initiatives and establishes expectations around CBO engagements and contributions to outreach activities. Currently, partners within the ESP Network are funded from the Customer Assistance (CARE, ESA, FERA), Energy Efficiency, Demand Response and Wildfire Mitigation programs. The breakdown of funding is dependent upon the CBOs demographic and reach. For example, a CBO located in the High-Fire Threat District who reaches low-income customers would be funded from the Wildfire and Customer Assistance program budgets.

In 2021, SDG&E has heavily focused its outreach on reaching and providing support to customers who have been impacted by COVID-19. With new bill payment assistance programs, such as the Arrearage Management Plan (AMP) and the Emergency Rental Assistance Program (ERAP), SDG&E has strategically identified CBOs that reach key demographics in this space to promote these programs and provide enrollment support. To date, SDG&E has partnered with ~50 CBOs, within its ESP Network, to host events and presentations, focused on providing Customer Assistance and COVID-19 relief program information, resulting in over 200 activities. SDG&E has also utilized key partners in its ESP Network to amplify COVID-19 relief program social media messages, totaling more than 750 posts. A few of the key partners that have supported these efforts include: Heartland Coalition, Chula Vista Community Collaborative, Community Resource Center, San Diego Futures Foundation, Horn of Africa, CREER Comunidad Y Familia, Elder Help of San Diego, and the Metropolitan Area Advisory Committee (MAAC).

In addition to leveraging its ESP network and performing a direct ERAP call campaign, SDG&E has partnered with the San Diego and Imperial Counties Labor Council and the San Diego Housing Commission, to host four ERAP enrollment events, focused on providing direct enrollment support to customers experiencing COVID-19 related hardship. In total, these events have helped more than 400 individuals and families receive assistance in completing program applications, including CARE, AMP and ERAP.

Advice No. 5857-B, et al.

PG&E's CBO Network Template

Acronym Glossary
AMP: Arrearage Management Plan
CAP: Customer Assistance Programs
CARE: California Alternate Rates for Energy (Program)
CBO: Community Based Organization
DAC: Disadvantaged Communities
EE: Energy Efficiency
ESA: Energy Savings Assistance (Program)
ESJ: Environmental Justice and Social Justice (Communities)
EV: Electric Vehicle
LIC: Low Income Communities
LIC: Low Income Communities
LIHEAP: Low Income Home Energy Assistance (Program)
MBL:Medical Baseline
MEO: Marketing, Education & Outreach
PS: Payment Structure
RFP: Request for Proposal

**Activity Status Legend
High: Defined as CBOs that have an active MOU with IOUs. They are consistently engaging with the community to spread CAP awareness and providing updates to the IOUs on a frequent basis.
Medium: Defined as CBOs that have an active MOU with IOUs. CAP outreach may only be on an event by event basis or less frequent engagement with the community on a monthly basis.
Low: Defined as CBOs that do not have an active MOU with IOUs. They may request to share CAP information to the public on an infrequent basis

Footnotes
***Interpreted as MOUs**
PG&E does not use MOUs for CBOs, we have contracts, agreements, etc. for payment and will use MOU = yes to refer to such a contract or agreement, typically with associated payment or data sharing NDA.
See "Explanatory Document to Accompany PG&E's Populated CBO Template" submitted October 15 2021 for complete explanations

Community Based Organization Outreach Tracking Log for COVID customer protections and arrerage support - PG&E
(Submittal 1: October 15 2021)

	Organization Name	Counties Served	Customer Generation Programs	Audience Reach
1	Tri-County Independent Living	Humboldt	AMP, CARE, ESA, LIHEAP, COVID-19, MBL, Rate Plans	Access and Functional Needs (individuals with disabilities or medical conditions);Disadvantaged Communities (as identified by the CalEnviroScreen) ;Environmental and Social Justice Action communities (includes DACs, low-income communities, tribal lands);Low-income communities ;Hard-to-reach (English not first language, non-digital);Rural communities ;Senior population ;

Please refer to the pdf document below that provides more detail on PG&E's CBO Template submttal 1 (October 15 2021)

Accompanying Explanation to CBO Template

10/15/2021

Explanatory Document to Accompany PG&E's Populated CBO Template

Purpose: Provide details on PG&E's efforts to populate the CBO Template submitted October 15, 2021 and delineate its plans to further populate the Template in the coming months.

Background: The CBO Template was filed as part of the Joint IOU Advice Letter 5857, et al on August 30, 2021, and Supplemental to the aforementioned Advice Letter on October 6, 2021. For several months in Q3 2021, beginning after D.21-06-036 was issued, PG&E worked in tandem with SCE, SDG&E, and SoCal Gas, alongside staff in the CPUC's Executive Branch and Energy Division, to outline the types of information about CBOs supporting COVID relief outreach efforts that need to be collected and reported. The end product contemplated was the Energy Division's creation of a map[1] that would highlight geographic areas of CBO coverage, and any potential gaps areas, with the IOU's CBO networks supporting COVID debt relief outreach.

Based on our original understanding of due date, PG&E was working towards a Q1 2022 completion of the populated CBO Template. On October 4, 2021, PG&E learned that the deadline for populating the CBO Template would be October 15, 2021. As such, PG&E has completed the template with existing data on-hand available to PG&E to populate the CBO Template as of the October 15 deadline. Additionally, we were able to supplement our existing data with information directly from CBOs, as well as through publicly available sources. However, as of October 15, 2021, we have not been able to completely populate the CBO Template. In the following exposition, we delineate the information we have and what we are missing as of the date of our CBO Template submission, describe our approach to populating the template between October 4, 2021 and October 15, 2021 and highlight our plans to further and fully populate the information after October 15, 2021. PG&E welcomes further discussion with the Executive Branch and/or Energy Division as we work to complete the CBO Template.

CBOs included: As described in the Supplemental Advice Letter, Attachment B, PG&E's *Summary: Community-based Organization (CBO) engagement to help customers navigate COVID-19 arrearage relief programs and the phase out of emergency COVID-19 consumer protections in PG&E's service territory,* PG&E considered opportunities to engage its ~1600 CBOs in its network into education and outreach related to COVID debt relief. PG&E pinpointed ~400 of those CBOs to receive comprehensive training, education, and PG&E materials and content to distribute about the phase out of COVID emergency protections, and bill savings programs available to support families struggling to stay current on their utility and rent payments.

PG&E includes those 400 CBOs[2] in its CBO Template and highlights their primary program area in a new column E added to the CBO Template, "PG&E Program."

[1] D.21-06-036 at 42.

[2] Because some CBOs partner in multiple ways with PG&E, they are included in multiple line-item entries. PG&E clarifies that the work of these CBOs for COVID debt relief outreach is not funded by charitable giving.

Table 1: COVID CBO Role Summary and Activity Status for CBO Template

CBO Partner Group Description (new Column E: "PG&E Program"	Primary Role for COVID emergency protections/debt relief outreach	"Activity Status" (Column P)
21 Paid COVID Outreach	• PG&E executed paid agreements with CBOs specifically to conduct outreach (in person, digital, mail) related to COVID and arrearages	• High – All active participants who distributed information via multiple channels for multiple months
~40 CARE Community Outreach Contractors (COCs)	• PG&E provided multiple webinar trainings and materials, including newsletters and email updates; CARE COCs incorporated materials into their outreach	• High – Majority active participants who shared information • Medium – Less active but still attended and participated
~20 LIHEAP Agencies	• PG&E provided multiple webinar trainings and materials, including newsletters and email updates; CARE COCs incorporated materials into their outreach	• High – All Active participants who shared information
~285 PSPS Informational and Resource Partners	• PG&E provided webinars; leveraged PSPS CBOs to spread information such as in Food Bank's distribution boxes	• High – Active participants, such as Food Banks who included COVID flyers in distributions • Medium – Attended webinar, agreed to share information • Low – Attended webinar, received information
~20 TOU/Rate Awareness CBOs	• Partnered with multicultural CBOs to conduct multiple in-language customer-focused webinars and media interviews	• High – All active participants, who shared information
~10 ESA program CBOs and 20+ Contractors	• PG&E provided training and materials, including newsletters and email updates; ESA contractors left materials at homes	• High – All active participants, who shared information

<u>Information that PG&E had complete access to includes:</u>

Column L/M = MOU yes or no

As noted in the footnotes of the CBO Template, PG&E does not typically utilize the "Memorandum of Understanding (MOU)" designation for CBO relationships, we instead have contracts, or agreements.

- PG&E selected MOU = Yes (checkmark) for any written contract or agreement that we have in place with a CBO. These are typically paid contracts (purchase orders) and also include data sharing agreements.

- PG&E selected MOU = No (blank) when we have only a verbal agreement in place for a particular activity.

Columns Q-S, Payment Types and Terms

PG&E completed this information for all CBOs on the CBO Template.

Customer Generation Programs – Column Y

PG&E completed this information for all CBOs on the CBO Template.

Information that PG&E does not have access to includes:

Geographic Area:

Counties Served – Column T-

PG&E has this data for nearly all of the CBOs but is missing ~5 CBOs' information. PG&E included this in its CBO form to obtain additional information.

Cities Served – Column U

PG&E does not collect this requested information, rather, it collects information at the County level. PG&E surveyed numerous CBOs earlier this year (when soliciting interest for COVID-19 outreach), and all CBO respondents noted that if they say they serve a County, then they serve all the Cites in that County.

PG&E created a survey form for CBOs to provide information that we did not have (See, *Approach to Obtaining additional CBO Information,* below). However, PG&E only included a County checklist for CBOs to check the counties they serve, and not a City checklist. We did so because PG&E has 48 counties in its service territory, but ~850 cities, and PG&E believed it would be an undue burden for CBOs to be asked to complete a checklist with ~850 items on a survey under a shortened timeline, particularly considering the feedback it has already received from CBOs on this item.

Zip Codes – Column V

The status for Zip Codes is the same as for Cities in Column U. PG&E does not collect this information. PG&E has ~3,600 zip codes in its service territory and is unclear on a process that would work for CBOs to report which of those ~3,600 zip codes they work in. In many cases, CBOs conducting general outreach will not have this information. This could pose an undue burden to collect this information prospectively from CBOs with very small staffing resources. PG&E will strive to collect zip code data to support mapping to the extent possible and in consideration of CBO information and resources.

 # people served monthly – Column W

PG&E does not collect this information and included it as a question in its CBO form to solicit more information.

Services Provided by the CBO – Column X

PG&E does not collect this information and included it as a question in its CBO form to solicit more information. While PG&E could provide data based on its knowledge of CBO activities, it believes that the CBOs should have the opportunity to name their services, from their perspective, to authenticate the information on the CBO Template.

Audience Reach – Column Z -

PG&E does not collect this information and included it as a question in its CBO form to solicit more information. While PG&E could provide data based on its knowledge of CBO audiences, it believes that the CBOs should have the opportunity to name their audiences, from their perspective, to authenticate the information on the CBO Template.

Approach to Obtaining additional CBO Information

PG&E created a survey form to solicit from its CBOs information not currently available to us that the CBOs may provide to include in and fully populate the CBO Template. The questions for CBOs on the form were:

1. Services the Organization provides
2. Audiences your Organization typically targets or reaches
3. Counties in PG&E's service territory your Organization serves
4. Best estimate for number of people your Organization serves monthly

Starting October 7, PG&E reached out to some of the CBO groups on the CBO Template with a request to complete the survey. These CBO groups included: Paid COVID outreach, CARE COCs, LIHEAP, ESA, and TOU/rate awareness CBOs. As of October 13, 2021, PG&E has received ~50 responses from CBOs, which are entered into the CBO Template.

PG&E did not request this information via the survey form from its ~285 PSPS CBOs. This is intentional given the current PSPS events in its service territory and the urgent need to leverage its CBO network in maximizing their support for critical needs for customers during the events. Due to the expected continuation of extreme wind and weather, making PSPS events a possibility from now through the EOY, at the least, PG&E plans to request this information, and any other information needed for this exercise, in the ~January 2022 timeframe from its PSPS CBOs. Upon the completion of that process in the ~January 2022 timeframe, PG&E anticipates updating the CBO Template in Q1 2022 with any further information that the CBOs may be able to provide.

PG&E looks forward to coordinating with the other IOUs and Commission staff to determine how and when to add information to the CBO Template as it is reported by the CBOs, in the coming months. Prospectively, PG&E will seek to collect this information for all contracts initiated with CBOs at the contracting or contract renewal phase.
