

Helping you understand Net Energy Metering with Paired Storage Bill

Net Energy Metering paired storage customers receive two separate monthly bills:

1. An **Energy Statement** provides a summary of current charges to be **paid monthly**.
2. A **Detail of Bill** provides specifics of monthly and cumulative energy charges. Your Cumulative Energy Charges are **paid on the True-Up month** listed within this bill. Energy Charges reconciles:
 - Energy provided from the grid when you need more than your system is producing
 - Credits for the energy sent to the grid when your system produces more than is needed

	ENERGY STATEMENT www.pge.com/MyEnergy	1 Account No: 0123456789 Statement Date: 09/30/2021 Due Date: 10/21/2021
2 Service For: JANE SAMPLETON 000 VALLEY ROAD ANYTOWN, CA	4 Your Account Summary Amount Due on Previous Statement \$41.31 Payment(s) Received Since Last Statement -41.31 Previous Unpaid Balance \$0.00	
3 Questions about your bill? Monday-Friday 7 a.m.-9 p.m. Saturday 8 a.m.-6 p.m. Phone: 1-800-743-5000 www.pge.com/MyEnergy	A Current Electric Charges \$10.12 B Current Gas Charges 40.00	
Ways To Pay www.pge.com/waystopay	Total Amount Due by 10/21/2021 \$50.12	

Bill Basics

- 1 At-A-Glance Account Data:** Your account number and due date are at the top of every page. It's good to have this information handy if you need to call us about your energy use.
- 2 Service For:** Indicates where your charges were incurred. Some customers receive PG&E service at multiple locations, such as a home and rental property.
- 3 Questions About Your Bill?:** If you have any questions, feel free to contact us using the information found here.

Summary of Monthly Charges

- 4 Your Account Summary:** Provides an overview of charges incurred this month, payments received, and your total amount due. As a Net Energy Metering (NEM) customer, you will pay only gas charges and minimum electric charges each month until your Annual True-Up.

Monthly Bill covers:

- A** Current electric charges are the minimum charges all PG&E customers pay to stay connected to the grid. Actual Energy charges (energy used from the grid minus excess energy exported throughout the year) are paid at your annual True-Up.
- B** Gas charges (if you receive gas service)

Note: This content is copied from the regular NEM Bill explainer. The difference between the two is that NEMPS customers' energy statement has much less content.

PAGE 1

This Detail of Bill summarizes your monthly billing and Net Energy Metering charges/credits. Any charges due are reflected on your monthly PG&E bill ("Energy Statement") which is provided separately and can also be accessed in your PG&E account online.

Energy charges for this account are due annually. **Your annual True-up will be Dec 2021.**

Following the True-up, generation credits and usage history are reset to zero and energy credits do not carry forward to your next True-up billing cycle.

3 BILLING SUMMARY

Minimum Charges	\$10.12
Total Current Month's Electric Charges Due	\$10.12*

*This amount is the minimum you must pay this month and is reflected on your regular monthly PG&E bill ("Energy Statement").

4 SUMMARY OF CURRENT MONTH'S ENERGY CHARGES/CREDITS

Current Month Energy Charge or Credit (-) A	\$-138.81
Cumulative Energy Charges or Credits (-) B	\$-249.94
<small>*Current Month Non-Bypassable Charges</small>	\$0.34
Cumulative Non-Bypassable Charges	\$30.55

*The State Mandated Non-Bypassable Charge (NBC) is calculated based on your energy usage and is relevant to determine the True-Up amount. This amount is included within the Energy Charges however, cannot be offset by credits from exports. This charge includes the following fees: Public Purpose Programs, Nuclear Decommissioning, Wildfire Fund Charge and Competition Transition Charge.

CUMULATIVE ENERGY CHARGES FOR YOUR ELECTRICITY USAGE WILL BE DUE AT THE END OF YOUR ANNUAL TRUE-UP PERIOD

Key Takeaway:
Paying your Annual Energy Charges

Your True-Up month stated in #2 is when you will need to pay the **cumulative energy charges stated in #4B**. This amount reconciles the energy imported from the grid with excess energy sent to the grid throughout the year.

- 1 Account Details:** Provides quick reference for your electric rate schedule, Net Energy Metering program, service and account identification numbers. It's good to have this information handy if you call us about your energy use.
- 2 True-Up Date:** Indicates the month and year when your annual total energy charges and credits will be reconciled and billed.
- 3 Billing Summary:** Shows the amount due each month. The minimum charges for delivery of electricity over the grid that are paid by all residential customers. This is the same amount you will see on the Energy Statement that is paid only once per month.

- 4 Energy Charges/Credits:** Summary of Current Month's Energy Charges/Credits: Shows a snapshot of your monthly and year-to-date energy charges and credits.
 - A Current Monthly Energy Charge or Credit (-):** For the current billing month, shows the total of your monthly energy charges on imported electricity, net of credits you received for sending energy back to the grid. If the number is negative, you received more credits than charges for the month.
 - B Cumulative Energy Charges or Credits (-):** Shows how you are tracking toward your annual True-up bill. Check this number every month to ensure the amount due at True-up isn't a surprise. Minimum charges already paid throughout the year will be deducted from this balance if the amount due is greater than total minimum charges.
