

Prepare Your Business For Potential Power Outages

While we work to keep power on every day, an outage can occur at any time. Being prepared helps you and your employees stay safe.

Assess Your Energy Efficiency

- To request an energy assessment for your facility and evaluate your program options, contact us:
 - For Business Customer Service, call **1-800-468-4743**.
 - For Agricultural Customer Service, call **1-877-311-3276**.
 - Or, reach out to your PG&E Account Manager.
- Create an energy efficiency plan.
- Keep your energy assessment records and contact information up to date. Ensure you can receive details on how to save energy and money.

Consider Backup Generation

- Determine the right generator for your business needs. Explore backup power options at [pge.com/backuppowers](https://www.pge.com/backuppowers).
- Find out if you qualify for a free Backup Power Transfer Meter at [pge.com/transfermeter](https://www.pge.com/transfermeter).
- Ensure backup generators are ready to safely operate. Follow safety instructions and state and local air quality requirements.
- Keep backup generators and fuel in a safe location. Avoid running a generator in the rain or in an enclosed space. Do not store fuel indoors.

On-site Power Considerations

- Learn about self-generation.
- Find out if your business could benefit from battery storage.
- Apply for a financial rebate through our Self-Generation Incentive Program (SGIP). Learn more about how your business can benefit at [pge.com/sgip](https://www.pge.com/sgip).

Keep your business safe and running during a power outage

- Save important documents with a cloud backup or other recovery programs.
- Have backup batteries for devices like your cell phone or credit card reader.
- Consider a mobile hotspot to stay connected when internet goes out.
- Ensure you can receive outage alerts. Update your contact information at pge.com/myalerts.
- Create and practice an emergency plan. Resources and planning tools are available at safetyactioncenter.com.

Learn More

For more information about how to prepare and stay safe, visit pge.com/wildfiresafety.

For translation support in 240+ languages, or to receive communications in Braille or large print, call **1-800-743-5000**.

PG&E is not responsible for providing backup power before or during a Public Safety Power Shutoff, but we want to provide as much support as possible for you and your business.
