7 tips to help you prepare and stay safe during severe weather

- 1** Build or restock your **emergency supply kit** with food, water, first aid, flashlights, batteries and cash.
- 2** **Plan for medications** that require refrigeration.
- 3** **Freeze water-filled plastic bags** and place them in the fridge to help preserve food.
- 4** Have important **contact information** handy.
- 5** Keep cell phones and backup power supplies **charged**.
- 6** **Unplug or turn off all appliances** during a power outage. This helps to avoid overloading circuits when power returns.
- 7** **Stay away from downed powerlines**. Call **911**, then notify PG&E at **1-800-743-5000**.

We are here to help you prepare and stay safe this winter. To learn more, visit [pge.com/beprepared](https://www.pge.com/beprepared).
