The following questions relate to your 2022 WMP Update submission. Please note that the geographical regions are mutually exclusive (i.e., “Other HFTD” excludes areas that are in either Tier 2 or Tier 3).

QUESTION 02

Provide an Excel table listing (as rows) all corrective notifications on electric transmission circuits that were open as of February 1, 2022 and located in HFTD areas. The table should include the same information requested in Question 1.

ANSWER 02

Please see the attachment “*WMP-Discovery2022_DR_CalAdvocates_009-Q02Atch01.xlsx*” for all corrective notifications on electric transmission circuits that were open as of February 1, 2022 and located in HFTD areas. Circuit ID information (item (c) in your request) and information on notification changes from reinspection (items (l) through (n) in your request) are not available in our automated data tables for Transmission corrective notifications. The circuit name is included in the Functional Location of the notification. Geographic information (items (f) and (g) in your request) is unavailable in our automated data tables for some notifications. Given the size of the data set, this information can be provided for selected notifications upon request.
