SAID #: _____
 Premises #: _____
 CDx/Acct#: _____

This is an agreement between Pacific Gas and Electric Company (PG&E), a California corporation, and _____ (Customer), a(n) _____ . This agreement will be herein referred to as "Agreement".

Customer has requested PG&E to provide Retail Station Power at Customer's premises at _____, County of _____ California, under one of the billing options designated below:

| Storage Resource Name/Location | Resource Type: NAS, Flow Battery, Flywheel, Pumped storage etc. | Capacity (KW) | Make and Model e.g. Tesla, ABB, Siemens, Samsung etc. |
|--------------------------------|--|------------------|--|
| | | | |
| | | | |
| | | | |

Capitalized terms in this agreement that are not defined in this agreement are otherwise defined in PG&E's other applicable tariff schedules

Option 1 – Station Power Load Reference – Station Power Load Reference value will be established by measuring its Retail Station Power loads at Idle Charging State, prior to issuance of the Permission To Operate (PTO) letter by PG&E. ¹ This reference point will be set initially via field tests and will at each anniversary adjust based on the maximum demand values obtained in the prior 12 months.

The initial Station Power Load Reference Value _____ kW

The initial Crossover Threshold Value _____ kW

Option 2 – Separate Retail Station Power Meter – Retail Station Power is separately metered, the bill will be determined from actual usage data obtained from either the Retail Station Power grid-tie meter or the station power sub-meter.

The initial Station Power Load Reference Value _____ kW

¹ Per PG&E Rule 21, all energy resources, including storage facilities are not permitted to operate in parallel with the PG&E grid until after all Rule 21 requirements are met including Customer's receipt of a Permission to Operate letter from PG&E.

SPECIAL AGREEMENT FOR RETAIL STORAGE STATION SERVICE FOR IN FRONT OF THE METER APPLICATIONS

- Option 3 – Estimation Of Metered Data** – PG&E and Customer shall agree on the derivation methodology and included as specified in this Special Agreement for Retail Storage Station Service For In Front Of The Meter Storage Applications. Such derivation may include reliance upon third-party metering. Metering and other reasonable basis must be agreeable to both PG&E and Customer.

The initial Station Power Load Reference Value _____ kW

SCHEDULING COORDINATOR DESIGNATION:

Storage station service customers must elect a scheduling coordinator prior to the issuance of the PTO.

Scheduling Coordinator Name _____

Address _____

Phone Number _____

Terms and Conditions

1. Customer has requested PG&E to stand ready at all times to deliver or supply and deliver electric energy to Customer's premises on an as-needed basis. Such retail storage station service shall be provided to Customer in accordance with and subject to PG&E's applicable rates and rules as established from time to time by, and on file with, the California Public Utilities Commission.
2. This agreement is not intended to cover wholesale service.
3. PG&E shall be granted, without cost to it, all necessary rights-of-way and easements, satisfactory to PG&E, in both location and form of document, to establish such service.
4. All necessary service facilities to accommodate Customer's retail storage station service load shall be furnished by PG&E and Customer as specified in electric line extension and service rules or the otherwise appropriate extension agreements. Any necessary extensions and reinforcements of PG&E's distribution and transmission facilities that are furnished by PG&E at Customer's expense in accordance with either a separate line extension or special facilities agreement, in accordance with the applicable tariffs.
5. All facilities furnished by PG&E to provide retail storage station service at all times shall be and remain the property of PG&E notwithstanding that they may be affixed to Customer's property. PG&E may remove such facilities upon termination of the Agreement.
6. During the term of this Agreement, Customer grants to PG&E the right to operate, maintain, replace, and repair PG&E's facilities on Customer's premises necessary to provide retail storage station service hereunder and all rights necessary for access to and from such facilities at all reasonable times.
7. All retail storage station service provided shall be _____ phase, 60 hertz, alternating current at an electromotive force of approximately _____ volts. Allowable variations in this frequency and voltage are specified in PG&E's electric Rule 2. The delivery point for the retail storage station service shall be

considered the point where conductors owned, or under license by Customer, contact PG&E's conductors, or as otherwise designated by applicable rules.

- 8. The initial reserved capacity for storage charging service shall be _____ kW (Reservation Capacity) and shall be billed monthly at the rate described in the "Rates" section of Schedule S or Schedule SB. However, the Station Power Load Reference Value shall be the Reservation Capacity.
- 9. The initial term of this Agreement shall be for a period of one (1) year from the date the station service under this Agreement is first made available to Customer as such date is established in PG&E's records and shall continue thereafter from year to year. Customer may terminate this Agreement at the expiration of the initial or any subsequent one-year term, or PG&E may terminate this Agreement in accordance with its tariffs, provided that written notice of such termination is given to the other party at least thirty (30) days prior to such termination date.
- 10. Customer may, with PG&E's written consent, assign this Agreement to a subsequent owner of the premises if the assignee will, in writing; agree to perform the obligations of the Agreement.
- 11. This Agreement shall, at all times, be subject to such changes or modifications by the Commission as it may from time to time direct in the exercise of its jurisdiction.
