Question 5 relates to PG&E's response to data request
CalAdvocates-PGE-2022WMP-25

QUESTION 05

In response to data request CalAdvocates-PGE-2022WMP-25, Question 9, PG&E stated that seven inspectors had committed fraudulent activity related to asset inspections between January 1, 2021 and July 1, 2022.

- a) Did PG&E perform any reinspections of the assets inspected by the seven inspectors referenced above?
- b) If the answer to part (a) of this question is yes, please describe the scope of the reinspections described in part (a). For example, did PG&E reinspect a random sample of assets, all assets inspected by these inspectors in the past three months, or some other subset of assets inspected by these inspectors? If the answer varies between the seven inspectors, please provide separate responses for each of the seven inspectors.
- c) Please state the basis for PG&E's choice of scope in part (b) of this question. If PG&E did not perform any reinspections described in part (a) of this question, please explain why not.

ANSWER 05

- a) Yes, based on our investigation we determined it was appropriate to re-inspect the work of three out of the seven inspectors.
- b) Please see Attachment 'WMP-Discovery2022_DR_CalAdvocates_027-Q05Atch01' for the requested details of the re-inspection work.
- c) The decision as to whether to re-inspect the work was based on the type of fraudulent activity uncovered and an analysis of the work performed by the supervisor of the terminated inspector. Please see Attachment 'WMP-Discovery2022_DR_CalAdvocates_027-Q05Atch01' for the specifics as to the requested basis for whether re-inspections were performed for each terminated inspector.
