PG&E File Name:	WildfireMitigationPlans_DR_CalAdvocates_044-Q06		
Request Date:	February 26, 2021	Requester DR No.:	CalAdvocates-PGE-2021WMP-10
Date Sent:	March 3, 2021	Requesting Party:	Public Advocates Office
PG&E Witness:		Requester:	Alan Wehrman

The following questions related to PG&E's 2021 Wildfire Mitigation Plan (WMP) Update.

**QUESTION 06**

Regarding covered conductor installation on distribution circuits:

- a. Provide PG&E's workplan that describes where and when PG&E will undertake covered conductor installation projects in 2021.
- b. Describe how PG&E has determined which specific circuit-segments should be treated with covered conductor in 2021.

**ANSWER 06**

- a. We are providing the latest version of our covered conductor workplan for 2021 in attachment "WildfireMitigationPlans\_DR\_CalAdvocates\_044-Q06-Atch01". The workplan is as of 3/1/2021. PG&E's 2021 System Hardening Program workplan is under development and it is reviewed on a weekly basis by the Wildfire Risk Governance Steering Committee (WRGSC). The WRGSC meets weekly and adds to and updates the workplan as needed as more information becomes available.
- b. Please refer to our 2021 Wildfire Mitigation Plan, Section 7.3.3.17.1 on pages 553 – 555 for additional detail on how we determine when specific circuit-segments should be treated with covered conductor in 2021.
