Request Date:	August 18, 2022	Requester DR No.:	CalAdvocates-PGE-2022WMP-31
Date Sent:	September 8, 2022	Requesting Party:	Public Advocates Office
PG&E Witness:		Requester:	Holly Wehrman

Please provide a separate GIS file for each risk score identified in question 1(a) that details the most granular level available for that risk score (as discussed in question 1(e)).

**QUESTION 03**

These GIS files should contain, at a minimum, the following:

- a) Geometric features detailing the most granular level available for each risk score. This may be points, polygons, lines, or whichever geometry best suits the relevant features.
- b) The risk score associated with each feature from part (a) of this question.

**ANSWER 03**

GIS files containing the risk scores at the pixel level for each of the 17 individual models along with the system hardening composite are provided in WMP-Discovery2022\_DR\_CalAdvocates\_031-Q03-Atch01\_CONF.zip.
