Request Date:	March 23, 2022	Requester DR No.:	MGRA-PGE-WMP22_DataRequest2

**SUBJECT: RISK MODELING**

**QUESTION 09**

Please ask Technosylva to provide a table and plot of 8 hour fire sizes against final fire sizes for a large (reasonably complete) set of historical fires.

**ANSWER 09**

PG&E objects to this request as unduly burdensome. Requesting that Technosylva perform a specific analysis for an individual stakeholder would be time consuming, expensive, and the analyses requested would require substantially more than three days to perform. PG&E further objects because it is unclear the relevance of this request with regard to the review and approval of the 2022 Wildfire Mitigation Plan.
