b. The other emergency plan (annexes) are not WMP commitments however they may be used during any response, including a wildfire. They are either requirements of GO 166 or have been developed to address a specific hazard and/or response. As they are not commitments specifically for wildfire mitigation they are not presented as objectives. However, we have included expansion of all hazard planning in 8.4.3.1 KPI EP-04-2023.
