

Pacific Gas and Electric Company Agricultural Products Catalog

Energy Efficiency Rebates for Your Business

Carefully read the specifications below to determine that you are installing a qualifying product(s). Customers applying for an electric product must have a PG&E electric account and customers applying for a gas product must have a PG&E gas account.

GREENHOUSE HEAT CURTAIN

Only installations of interior curtains for heat retention in existing gas-heated greenhouses qualify. The rebate applies to new and retrofit curtain system installations in existing greenhouses for specific agricultural end-use. Product must be designed by the manufacturer to be a heat curtain, and the installation must have the ability to automatically or manually move the curtain into place. Curtain must be located such that the gas heat source provides hot air to conditioned space bounded by the curtain. Curtain material must have an Energy Savings rating of $\geq 40\%$, and must have a warranty/product life of 5 years. Include a manufacturer's specification sheet documenting type of curtain. Rebate amount is for square footage of new heat curtain and cannot exceed the square footage of the greenhouse floor. Overhang and overlap of curtain material does not qualify for rebate.

Product Code	Rebate/Unit Measure
A10 Greenhouse Heat Curtain	\$0.20/Square Foot

INFRARED FILM FOR GREENHOUSES

Installations of infrared anti-condensate polyethylene plastic with a minimum 6 mil. thickness for heat retention on existing heated greenhouses will qualify. A manufacturer's specification sheet must be included.

Product Code	Rebate/Unit Measure
A102 Infrared Film for Greenhouses	\$0.03/Square Foot

LOW PRESSURE SPRINKLER NOZZLES

Must convert from a high-pressure, sprinkler system nozzle (50 psi operating pressure or more at the sprinkler head). Must be accompanied by a pumping plant analysis to ensure reasonable pumping efficiency (45% Overall Pumping Efficiency or above) after the conversion. Portable hand move or solid set systems may apply.

Product Code	Rebate/Unit Measure
A272 Low Pressure Sprinkler Nozzles, Portable	\$1.15/Nozzle
A273 Low Pressure Sprinkler Nozzles, Permanent	\$1.15/Nozzle

SPRINKLER TO DRIP IRRIGATION

Must convert from a high-pressure, impact-type, sprinkler irrigation system (50 psi operating pressure or more at the sprinkler head) to a micro-irrigation system. Not applicable to new plantings of vineyards or orchards unless a vineyard or orchard was the previous crop on the field. Drip tape systems are not eligible. Include an Assessor's Parcel Map or other documentation to verify acreage.

Product Code	Rebate/Unit Measure
A266 Sprinkler to Drip Irrigation, Field Vegetable	\$44.00/Acre
A268 Sprinkler to Drip Irrigation, Deciduous Tree	\$44.00/Acre
A269 Sprinkler to Drip Irrigation, Vineyard	\$44.00/Acre

WINE TANK INSULATION

Product must have an insulation value equal or greater than R-12 and be added to a refrigerated wine tank. Central Valley includes California Energy Commission Climate Zones 11, 12, 13, and 16. Coastal includes Climate Zones 1, 2, 3, 4, and 5. Go to http://www.energy.ca.gov/maps/climate_zones.pdf to look up Climate Zones by city. Indoor tanks are those located in an enclosed indoor space not exposed to sun and wind. Product R-value and manufacturer name must be supplied for rebate processing.

Product Code	Rebate/Unit Measure
A262 Wine Tank Insulation, Indoor Tank	\$2.00/Square Foot
A263 Wine Tank Insulation, Outdoor Tank, Coastal	\$2.50/Square Foot
A274 Wine Tank Insulation, Outdoor Tank, Central Valley	\$3.00/Square Foot
