

Demand Response InterAct

Tap the power of information

InterAct is a powerful tool that provides the energy usage and cost information you need to effectively manage your business. InterAct makes it easy to refine your strategy for curtailing energy use during demand response events. You can easily identify problems and opportunities for energy savings, thanks to InterAct's current and historic usage reports and "What If" scenarios.

HOW IT WORKS

InterAct downloads detailed information from your interval meter everyday. Login at any time to see 15-minute interval, hourly, and daily energy usage data gathered the previous night or to use the many other features and functionalities of this tool.

Energy and Cost Analysis

The Energy and Cost Analysis feature provides graphs, charts, data visualization, statistical analysis, and data-export tools.

- Track your facility's electric demand and usage.
- See how each business process affects overall energy use.
- Identify peak energy demand levels.
- Understand patterns of energy use by hour, day, month or year.
- Avoid peak demand usage charges by understanding your aggregated demand and peak demand.
- View and export data.
- Schedule reports to be delivered by e-mail.
- Calculate energy costs based on actual interval data.
- Compare your energy costs on different rates, between facilities, and over time.
- See the financial benefits of load shift and load drop.

Curtailment Manager

The Curtailment Manager functionality helps you optimize your participation in demand response programs.

- Receive instant event notification by text, fax, phone and/or e-mail.
- Accept or decline a curtailment request with a simple click of the mouse.
- Compare baseline usage with the previous day's data to adjust operations during the event.
- See actual load reduction after the event day.
- Get estimates of your demand response incentive payments.

ELIGIBILITY

- InterAct is free to any PG&E customer enrolled in a PG&E demand response program.
- To create your InterAct user account, get a sign-up code from your PG&E representative or contact InterAct Support at **1-800-254-5810, option #1**. You can also e-mail us at InterActSupport@pge.com.
