The above vendors' energy-efficient software satisfies the requirements outlined for compliance with PG&E's Network Desktop Computer Power Management Software rebate.

If you offer power management software to business customers, please contact PG&E to determine if your software complies with PG&E's rebate requirements. Please email us at businesscustomerhelp@pge.com.

PG&E does not endorse specific products, services, or companies, only energy-efficient technologies.

As of September 2009
