

2017 Residential Rebates Catalog

Together, Building
a Better California

Apply online for fast rebates at pge.com/myhome/erebates

Pacific Gas and Electric Company (PG&E) offers rebates on many energy-efficient products and improvements for your home. When you purchase and install these products, you can save energy and money while reducing your impact on the environment. Learn more at pge.com/rebates.

How to apply

- 1. Read** the Terms and Conditions at pge.com/terms to determine if you are eligible for a rebate.
- 2. Locate** the item(s) that you are applying for in this catalog. Be sure to review the important qualification information.
- 3. Purchase and install** the qualifying product(s) in your home between January 1, 2017 and December 31, 2017, unless otherwise noted.
- 4. Complete and submit** your application online through pge.com/myhome/erebates. All rebate applications must be received within 60 days from date of purchase.

If submitting paper forms, please send completed forms and required documentation with proof of purchase to:

PG&E Residential Rebates Program

ENERGY STAR® High-Efficiency Gas Storage Water Heater

\$125

REBATE PER UNIT

REBATE CODE: HA58

REQUIREMENTS:

- Gas water heater must be ENERGY STAR-qualified at time of purchase and have an energy factor (EF) of 0.67 or greater.
- Visit marketplace.pge.com for qualifying models.
- Gas water heater must be a residential-sized unit.
- Gas water heater must be new and meet or exceed all applicable local, state and federal standards.
- New gas water heater must replace an existing gas water heater.
- Check with your contractor for installation requirements for your installation address, as regulations vary in California.
- You must purchase and install this qualifying appliance between January 1, 2017 and December 31, 2017. All rebate applications must be received within 60 days from date of purchase.
- Installation address must have a natural gas account with PG&E.

EXCLUSIONS:

- Instantaneous or tankless water heaters do not qualify.
- New construction (residential development projects, e.g. subdivisions) installations do not qualify.
- Commercial-sized units do not qualify.
- Thermal efficiency (TE)-rated units do not qualify.

DEFINITIONS:

Energy factor (EF): The measure of a water heater's efficiency. EF is based on recovery efficiency, standby losses and cycling losses. A higher EF indicates a more efficient water heater.

ENERGY STAR® Electric Heat Pump Storage Water Heater

\$300

REBATE PER UNIT

REBATE CODE: HA47

REQUIREMENTS:

- Electric heat pump water heater must be ENERGY STAR-qualified at time of purchase and have an energy factor (EF) of 2.0 or greater.
- Visit marketplace.pge.com for qualifying models.
- Electric water heater must be a residential-sized unit.
- Electric water heater must be new and meet or exceed all applicable local, state and federal standards.
- New electric heat pump water heater must replace an existing electric-powered water heater.
- Check with your contractor for installation requirements for your installation address, as regulations vary in California.
- You must purchase and install this qualifying appliance between January 1, 2017 and December 31, 2017. All rebate applications must be received within 60 days from date of purchase.
- Installation address must have an electric account with PG&E.

EXCLUSIONS:

- Instantaneous or tankless water heaters do not qualify.
- New construction (residential development projects, e.g. subdivisions) installations do not qualify.
- Commercial-sized units do not qualify.
- Thermal efficiency (TE)-rated units do not qualify.

Variable-Speed Pool Pump or Motor

\$100

REBATE PER UNIT

REBATE CODE: P107 pump

\$100

REBATE PER UNIT

REBATE CODE: P108 motor

REQUIREMENTS:

- Follow all manufacturer installation requirements.
- Visit pge.com/poolpumplist for a list of qualifying pumps and motors.
- All pumps and all motors must be new and must be purchased and installed between January 1, 2017 and December 31, 2017. All rebate applications must be received within 60 days from date of purchase.
- Equipment and materials must meet or exceed all applicable local, state and federal standards.
- Rebates are for qualifying pumps and motors, 3 horsepower or less, installed on new or existing residential, in-ground swimming pools for primary filtration only.
- Aboveground pool, pond, pool cleaner/booster, spa and water feature pumps and motors do not qualify.
- New pump or motor must be operated with a controller:
 - You may either use an existing qualifying controller or purchase and install a separate controller unit if the new variable-speed or variable-flow pump or motor does not have a built-in controller.
 - Programmable controller must meet CA Title 20 regulation requirements. Controller must be able to operate the pool pump or motor on at least two speeds and switch speeds automatically. It also must default to the lowest speed after one normal cycle (24 hours) if temporary high-speed override capability exists.
- Installation address must have an electric account with PG&E.

MORE INFORMATION:

- You must provide manufacturer, make and model number of qualifying pump or motor on rebate application.
- You must provide make and model number of the controller if it is not built into the pump or motor.

More ways to save

- Visit marketplace.pge.com to compare and purchase products for your next energy-efficient upgrade.
- In addition to rebates, PG&E offers a wide range of ways to save energy, money and help the environment. Visit PG&E's Home Energy Checkup at pge.com/checkup to see where your energy goes, pinpoint problem areas and start on the path to an energy-efficient home.
- PG&E also offers several financial assistance programs for customers in need. Visit pge.com/financialassistance to see if you are eligible.
