**Advice 2211-E
(Pacific Gas and Electric Company ID U39 E)**

Public Utilities Commission of the State of California

Subject: Notice of Proposed Construction of Facilities Pursuant to General Order 131-D, Power Line 60 Kilovolt Relocation on East 18th Street, City of Antioch

Pacific Gas and Electric Company (the Company) hereby submits notice pursuant to General Order (G.O.) 131-D, Section XI, Subsection B.4 of the construction of facilities that are exempt from a Permit to Construct.¹

Purpose

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in G.O. 131-D, Section XI, Subsections B and C.

Background

The City of Antioch will be conducting a Street Improvement/Widening project along East 18th Street extending from Willow Ave eastward to the State Route 4/160 freeway ramps. The proposed street widening conflicts with a 9-pole 60kV power line. As a result, the City has requested Pacific Gas and Electric to relocate the poles along the northern edge of the current road configuration to the back edge of the new sidewalk, which is up to 50 feet north of the current pole locations.

This project qualifies as exempt from Permit to Construct filing requirements pursuant to G.O. 131-D, Section III, Subsection B.1.g, which exempts, "power

line facilities or substations to be located in an existing franchise, road-widening setback easement, or public utility easement.”

Additionally, G.O. 131-D requires utilities to employ "no cost" and specified "low cost" measures to reduce public exposure to electric and magnetic fields (EMFs).

Because there are no EMF mitigation measures available on this project that would meet the CPUC's benchmark of 4% or less of the total project cost, no "no cost" or "low cost" measures will be employed.

This filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any other rate schedule or rule.
