**Advice 2365-E
(Pacific Gas and Electric Company ID U39 E)**

Public Utilities Commission of the State of California

Subject: Notice of Proposed Construction, Pursuant to General Order 131-D, for the Construction of the Stony Point Tap 115 Kilovolt Power Line Relocation in the City of Santa Rosa

Pacific Gas and Electric Company (the Company) hereby submits notice pursuant to General Order (G.O.) 131-D, Section XI, Subsection B.4, of the construction of facilities that are exempt from a Permit to Construct.¹

Purpose

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in G.O. 131-D, Section XI.

Background

Pacific Gas and Electric Company is proposing to relocate one transmission wood pole and insert one new transmission wood pole on the existing Stony Point Tap 115 kilovolt (kV) Power Line in the City of Santa Rosa. The developer of the Branscombe Walk Subdivision requested this relocation, which is part of the larger Southwest Santa Rosa Area Plan. In compliance with the California Environmental Quality Act (CEQA), an Environmental Impact Report, State Clearing House #92083076, was completed for the Southwest Santa Rosa Area Plan. The relocation is required to accommodate a new street named Kingfisher Way, which will be the entrance to the subdivision. The relocation consists of replacing one transmission wood pole in place and replacing two wood distribution poles with one wood transmission pole approximately 15 feet west of their current location on Giffen Avenue at Buss Drive. The total length of the line affected by the relocation is approximately 295 feet. Construction is scheduled to begin at the end of May 2003, and should be completed by June 15, 2003, or

¹ The Company reserves all legal rights to challenge the decisions or statutes under which it has been required to make this advice filing, and nothing in this advice filing constitutes a waiver of such rights. Also, the Company reserves any additional legal rights to challenge the requirement to make this advice filing by reason of its status as a debtor under Chapter 11 of the Bankruptcy Code, and nothing in this advice filing constitutes a waiver of such rights.

as soon as possible thereafter.

This project qualifies as exempt from Certificate of Public Convenience and Necessity filing requirements pursuant to GO 131-D, Section III, Subsection B, which exempts “the replacement of existing power line facilities or supporting structures with equivalent facilities or structures;” “the minor relocation of existing power line facilities up to 2,000 feet in length, or the intersetting of additional support structures between existing support structures;” and “power line facilities or substations to be located in an existing franchise, road-widening setback easement, or public utility easement; or in a utility corridor designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies for which a final Negative Declaration or EIR finds no significant unavoidable environmental impacts.”

Additionally, G.O. 131-D requires utilities to employ "no cost" and specified "low cost" measures to reduce public exposure to electric and magnetic fields (EMFs). The following measures are proposed for this project:

- Because there are no EMF mitigation measures available on this project that would meet the CPUC’s benchmark of 4 percent or less of the total project cost, no “no cost” or “low cost” measures will be employed.

This filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any other rate schedule or rule.

Protests

Anyone wishing to protest this filing may do so by filing a protest with the CPUC and the Company by **April 21, 2003**, at the following address:

Director, Energy Division
California Public Utilities Commission
505 Van Ness Avenue, Fourth Floor
San Francisco, California 94102
Facsimile: (415) 703-2200

In addition, protests and all other correspondence regarding this advice letter should also be sent by letter and transmitted via facsimile to the attention of:

David T. Kraska
Attorney, Law Department
Pacific Gas and Electric Company
P.O. Box 7442
San Francisco, California 94120
Facsimile: (415) 973-0516

Brian Cherry
Director, Regulatory Relations
Pacific Gas and Electric Company
P.O. Box 770000, Mail Code B10C
San Francisco, California 94177
Facsimile: (415) 973-7226

Persons or groups may protest the proposed construction if they believe that the Company has incorrectly applied for an exemption or that the conditions set out in G.O. 131-D, Section III, B.2 exist.

Effective Date

The Company requests that this advice filing become effective on **May 11, 2003**, which is 40 days after the date of filing. (In accordance with G.O. 131-D, construction will not begin until 45 days after notice is first published.)

Notice

In accordance with G.O. 96-A, Section III, Paragraph G, the Company is electronically and postal mailing copies of this advice letter to the utilities and interested parties shown on the attached list, including the parties listed in G.O. 131-D, Section XI, Paragraphs B.1 and B.2. These parties are identified in the "Notice Distribution List" included in Attachment I. Address change requests should be directed to Sandra Ciach at (415) 973-7572.
