Advice 2461-G/2381-E

(Pacific Gas and Electric Company ID U 39 M)

Public Utilities Commission of the State of California

Subject: Revisions to Gas and Electric Rule 6 – Establishment and Reestablishment of Credit

Pacific Gas and Electric Company (PG&E) hereby submits for filing revisions to its gas and electric rules. The affected tariff sheets are listed on the enclosed Attachment I.

Purpose

The purpose of this filing is to revise the language of gas and electric Rule 6 – *Establishment and Reestablishment of Credit*, to more appropriately reflect the capabilities of PG&E's new customer information system called CorDaptix. This revision also conforms PG&E's residential credit deposit tariffs to those of Southern California Edison.

Background

As part of its on-going efforts to improve customer service, PG&E implemented a new customer information system. On December 6, 2002, PG&E switched from its current information system to the new CorDaptix system. As a result of the change to the new customer information system, PG&E has identified the need to modify the credit establishment options provided in Rule 6 because the customer information system does not maintain customer history in a manner consistent with the credit determination methodologies described in the rule.

The changes in the computer information system, combined with PG&E's utilization of a credit scoring mechanism since 1997, has made two credit establishment options described in Rule 6, obsolete.¹ With credit scoring, applicants whose credit score indicates a high risk or those for whom scores are unavailable are asked to pay a deposit or provide a guarantor. This credit scoring mechanism is used by other utilities and industries, and has been a reliable method for PG&E in determining a customer's eligibility to establish credit.

¹ Resolution G-3203, dated March 7, 1997, approved the use of a predictive credit risk score for each applicant.

Tariff Revisions

PG&E proposes to delete the language contained in gas Rule 6, Sections A.3, A.5, and B.6, and the corresponding electric Rule 6, Sections A.1.c, A.1.e, and A.2.f.
