**Advice 2497-E  
(Pacific Gas and Electric Company ID U39 E)**

Public Utilities Commission of the State of California

**Subject: Submits Notice of Construction, Pursuant to General Order  
131-D, for the Construction of Oceano Circuit-1102 Underbuild  
Project in the City of Oceano, County of San Luis Obispo**

Pacific Gas and Electric Company (the Company) hereby submits notice pursuant to General Order (G.O.) 131-D, Section XI, Subsection B.4, of the construction of facilities that are exempt from a Permit to Construct.

### **Purpose**

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in G.O. 131-D, Section XI.

### **Background**

Pacific Gas and Electric Company (PG&E) is proposing to install a new 12-kilovolt distribution line on the existing San Luis Obispo Calendar Switch Station Tap line located near the City of Oceano in San Luis Obispo County. This installation requires PG&E to replace eight poles with taller or stronger poles to hold the additional wires. Some existing poles will only require a new configuration, or re-framing of the existing wires to allow for the new underbuild circuit. The project originates at the existing Oceano substation located on Valley Road and Applegate Way near Oceano and ends near El Campo Road approximately 1.2 miles East of the substation. Work is scheduled to begin in approximately May 2004 or as soon thereafter as possible and will be completed by September 2004 or as soon thereafter as possible.

This project qualifies as exempt from Permit to Construct filing requirements, pursuant to G.O. 131-D, Section III, Subsection B.1.(b), and B.1.(e), which exempts, "(b) the replacement of existing power line facilities or supporting

structures with equivalent facilities or structures; and (e) the placing of new or additional conductors, insulators, or their accessories on supporting structures already built."

Additionally, G.O. 131-D requires utilities to employ "no cost" and specified "low cost" measures to reduce public exposure to electric and magnetic fields (EMFs). The following measures are proposed for this project:

- Because there are no EMF mitigation measures available on this project that would meet the CPUC's benchmark of 4% or less of the total project cost, no "no cost" or "low cost" measures will be employed.

This filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any other rate schedule or rule.

### Protests

Anyone wishing to protest this filing may do so by filing a protest with the CPUC and the Company by **May 12, 2004**, at the following address:

Director, Energy Division  
California Public Utilities Commission  
505 Van Ness Avenue, Fourth Floor  
San Francisco, California 94102  
Facsimile: (415) 703-2200

In addition, protests and all other correspondence regarding this advice letter should also be sent by letter and transmitted via facsimile to the attention of:

David T. Kraska  
Attorney, Law Department  
Pacific Gas and Electric Company  
P.O. Box 7442  
San Francisco, California 94120  
Facsimile: (415) 973-0516

Brian Cherry  
Director, Regulatory Relations  
Pacific Gas and Electric Company  
P.O. Box 770000, Mail Code B10C  
San Francisco, California 94177  
Facsimile: (415) 973-7226

Persons or groups may protest the proposed construction if they believe that the Company has incorrectly applied for an exemption or that the conditions set out in G.O. 131-D, Section III, B.2 exist.

### **Effective Date**

The Company requests that this advice filing become effective on **June 1, 2004**, which is 40 days after the date of filing. (In accordance with G.O. 131-D, construction will not begin until 45 days after notice is first published.)

### **Notice**

In accordance with G.O. 96-A, Section III, Paragraph G, the Company is electronically and postal mailing copies of this advice letter to the utilities and interested parties shown on the attached list, including the parties listed in G.O. 131-D, Section XI, Paragraphs B.1 and B.2. These parties are identified in the "Notice Distribution List" included in Attachment I. Address change requests should be directed to Rose de la Torre at (415) 973-4617. Advice letter filings can also be accessed electronically at:

## NOTICE OF PROPOSED CONSTRUCTION

**PROJECT NAME:** Oceano Circuit 1102 Underbuild Project  
**ADVICE LETTER NUMBER:** 2497-E-E

**Proposed Project:** Pacific Gas and Electric Company (PG&E) is proposing to install a new 12 kilovolt distribution line on the existing San Luis Obispo Calendar Switch Station Tap Line located near the City of Oceano in San Luis Obispo County. This installation requires PG&E to replace eight poles with taller or stronger poles to hold the additional wires. Some existing poles will only require a new configuration, or re-framing of the existing wires to allow for the new underbuild circuit. The project originates at the existing Oceano substation located on Valley Road and Applegate Way near Oceano and ends near El Campo Road approximately 1.2 miles East of the substation. Work is scheduled to begin in approximately May 2004, or as soon thereafter as possible and will be completed by September 2004 or as soon thereafter as possible.

**Electric and Magnetic Fields (EMF):** Pacific Gas and Electric Company will employ "no cost" and specified "low cost" measures to reduce public exposure to EMF in accordance with California Public Utilities Commission (CPUC) Decision 93-11-013 and Pacific Gas and Electric Company's "EMF Design Guidelines of New Electrical Facilities: Transmission, Substation, and Distribution." The following measure(s) is proposed for this project:

- Because there are no EMF mitigation measures available on this project that would meet the CPUC's benchmark of 4% or less of the total project cost, no "no cost" or "low cost" measures will be employed.

**Exemption from CPUC Authority:** CPUC General Order 131-D, Section III, B.1, exempts projects meeting specific conditions from the CPUC's requirement to file an application requesting authority to construct. Pacific Gas and Electric Company believes this project qualifies for the following exemptions:

(c) the minor relocation of existing power line facilities up to 2,000 feet in length, or the intersetting of additional support structures between existing support structures, and (e) the placing of new or additional conductors, insulators, or their accessories on supporting structures already built.

**Public Review Process:** Persons or groups may protest the proposed construction if they believe that Pacific Gas and Electric Company has incorrectly applied for an exemption or that the conditions set out in General Order 131-D, Section III, B.2 exist:

- a. There is reasonable possibility that the activity may have an impact on an environmental resource of hazardous or critical concern where designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies; or
- b. The cumulative impact of successive projects of the same type in the same place, over time, is significant; or
- c. There is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

Protests should include the following:

1. Your name, mailing address and daytime telephone number.
2. Reference to the CPUC Advice Letter Number and Project Name.
3. A clear description of the reason for the protest.
4. Whether you believe that evidentiary hearings are necessary to resolve factual disputes.

**Protests for this project must be filed by May 12, 2004 at the following address:**

Director, Energy Division  
 California Public Utilities Commission  
 505 Van Ness Avenue, Fourth Floor  
 San Francisco, California 94102

With a copy mailed to:

David Kraska, Law Department  
 Pacific Gas and Electric Company  
 P.O. Box 7442  
 San Francisco, California 94120

Pacific Gas and Electric Company must respond within five business days of receipt and serve copies of its response on each protestant and the Energy Division. Within 30 days after Pacific Gas and Electric Company has submitted its response, the Executive Director of the CPUC will send you a copy of an Executive Resolution granting or denying the request and stating the reasons for the decision.

**Assistance in Filing a Protest:** For assistance in filing a protest, contact the CPUC Public Advisor in San Francisco at 415-703-2074, or 1-866-849-8390 (toll-free), or TTY 415-703-5258, or [public.advisor@cpuc.ca.gov](mailto:public.advisor@cpuc.ca.gov)

**Additional Project Information:** To obtain further information on the proposed project, please call Pacific Gas and Electric Company's Project Information Line at (415) 973-5530.
