**Advice 2530-E
(Pacific Gas and Electric Company ID U39 E)**

Public Utilities Commission of the State of California

Subject: Notice of Proposed Construction, Pursuant to General Order 131-D, for the Sonoma-Pueblo 115 Kilovolt Power Line and 60 Kilovolt Power Line Relocation Project in the Sonoma-Pueblo 115 Kilovolt Power Line and Napa Tulucay 60 Kilovolt Power Line Relocation Project in the City of Napa

Pacific Gas and Electric Company hereby submits notice pursuant to General Order (G.O.) 131-D, Section XI, Subsection B.4, of the construction of facilities that are exempt from a Permit to Construct.

Purpose

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in G.O. 131-D, Section XI.

Background

Pacific Gas and Electric Company (PGandE) is proposing to relocate five transmission wood poles on the existing Sonoma-Pueblo 115 kilovolt (kV) power line and two transmission wood poles on the existing Napa-Tulucay 60 kilovolt power line in the City of Napa. The poles on the Sonoma-Pueblo 115 kilovolt (kV) power line will be moved an average of approximately 50 feet west of their current location. The poles on the Napa-Tulucay 60 kilovolt power line will be moved an average of approximately 10 feet west of their current location. The developer, Rossi Development, of the property near Coombsville Road and Terrace Drive, needs the structures relocated because the existing alignments conflict with the location of a the Hidden Glen Subdivision. In compliance with the California Environmental Quality Act (CEQA), the City Council of the City of Napa issued Resolution No. 87-345 adopting the Negative Declaration for the project wherein no significant impacts were identified. The total length of the line affected by the relocations is approximately 1800 feet. Construction is

scheduled to begin in August 2004, and should be completed by the end of September 2004, or as soon as possible thereafter.

This project qualifies as exempt from Certificate of Public Convenience and Necessity filing requirements pursuant to GO 131-D, Section III, Subsection B, which exempts "the replacement of existing power line facilities or supporting structures with equivalent facilities or structures;" "the minor relocation of existing power line facilities up to 2,000 feet in length, or the intersetting of additional support structures between existing support structures;" and "power line facilities or substations to be located in an existing franchise, road-widening setback easement, or public utility easement; or in a utility corridor designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies for which a final Negative Declaration or EIR finds no significant unavoidable environmental impacts."

Additionally, G.O. 131-D requires utilities to employ "no cost" and specified "low cost" measures to reduce public exposure to electric and magnetic fields (EMFs). The following measures are proposed for this project:

- Because there are no EMF mitigation measures available on this project that would meet the CPUC's benchmark of 4 percent or less of the total project cost, no "no cost" or "low cost" measures will be employed.

This filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any other rate schedule or rule.

Protests

Anyone wishing to protest this filing may do so by filing a protest with the CPUC and the Company by **July 29, 2004**, at the following address:

Director, Energy Division
California Public Utilities Commission
505 Van Ness Avenue, Fourth Floor
San Francisco, California 94102
Facsimile: (415) 703-2200

In addition, protests and all other correspondence regarding this advice letter should also be sent by letter and transmitted via facsimile to the attention of:

David T. Kraska
Attorney, Law Department
Pacific Gas and Electric Company
P.O. Box 7442
San Francisco, California 94120
Facsimile: (415) 973-0516

Brian K. Cherry
Director, Regulatory Relations
Pacific Gas and Electric Company
P.O. Box 770000, Mail Code B10C
San Francisco, California 94177
Facsimile: (415) 973-7226
E-mail: RXDd@pge.com

Persons or groups may protest the proposed construction if they believe that the Company has incorrectly applied for an exemption or that the conditions set out in G.O. 131-D, Section III, B.2 exist.

Effective Date

The Company requests that this advice filing become effective on **August 18, 2004**, which is 40 days after the date of filing. (In accordance with G.O. 131-D, construction will not begin until 45 days after notice is first published.)

Notice

In accordance with G.O. 96-A, Section III, Paragraph G, the Company is electronically and postal mailing copies of this advice letter to the utilities and interested parties shown on the attached list, including the parties listed in G.O. 131-D, Section XI, Paragraphs B.1 and B.2. These parties are identified in the "Notice Distribution List" included in Attachment I. Address change requests should be directed to Rose De La Torre (415) 973-4616. Advice letter filings can also be accessed electronically at:

NOTICE OF PROPOSED CONSTRUCTION

**PROJECT NAME: SONOMA-PUEBLO 115 KILOVOLT POWER LINE and NAPA-TULUCAY 60 KILOVOLT POWER LINE RELOCATION
PROJECT IN THE CITY OF NAPA
ADVICE LETTER NUMBER: 2530-E**

Proposed Project: Pacific Gas and Electric Company (PGandE) is proposing to relocate five transmission wood poles on the existing Sonoma-Pueblo 115 kilovolt (kV) power line and two transmission wood poles on the existing Napa-Tulucay 60 kilovolt power line in the City of Napa. The poles on the Sonoma-Pueblo 115 kilovolt (kV) power line will be moved an average of approximately 50 feet west of their current location. The poles on the Napa-Tulucay 60 kilovolt power line will be moved an average of approximately 10 feet west of their current location. The developer, Rossi Development, of the property near Coombsville Road and Terrace Drive needs the structures relocated because the existing alignments conflict with the location of a the Hidden Glen Subdivision. In compliance with the California Environmental Quality Act (CEQA), the City Council of the City of Napa issued Resolution No. 87-345 adopting the negative declaration for the project wherein no significant impacts were identified. The total length of the line affected by the relocations is approximately 1800 feet. Construction is scheduled to begin in August 2004, and should be completed by the end of September 2004, or as soon as possible thereafter.

Electric and Magnetic Fields (EMF): Pacific Gas and Electric Company will employ "no cost" and specified "low cost" measures to reduce public exposure to EMF in accordance with California Public Utilities Commission (CPUC) Decision 93-11-013 and Pacific Gas and Electric Company's "EMF Design Guidelines of New Electrical Facilities: Transmission, Substation, and Distribution." The following measure is proposed for this project:

- Because there are no EMF mitigation measures available on this project that would meet the CPUC's benchmark of 4% or less of the total project cost, no "no cost" or "low cost" measures will be employed.

Exemption from CPUC Authority: CPUC General Order 131-D, Section III, B.1, exempts projects meeting specific conditions from the CPUC's requirement to file an application requesting authority to construct. Pacific Gas and Electric Company believes this project qualifies for the following exemptions:

- "the replacement of existing power line facilities or supporting structures with equivalent facilities or structures,"
- "the minor relocation of existing power line facilities up to 2,000 feet in length, or the intersetting of additional support structures between existing support structures,"
- "power line facilities or substations to be located in an existing franchise, road-widening setback easement, or public utility easement; or in a utility corridor designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies for which a final Negative Declaration or EIR finds no significant unavoidable environmental impacts."

Public Review Process: Persons or groups may protest the proposed construction if they believe that Pacific Gas and Electric Company has incorrectly applied for an exemption or that the conditions set out in Section III.B.2 of General Order 131-D exist;

- a. There is reasonable possibility that the activity may have an impact on an environmental resource of hazardous or critical concern where designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies; or
- b. The cumulative impact of successive projects of the same type in the same place, over time, is significant; or
- c. There is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

Protests should include the following:

1. Your name, mailing address and daytime telephone number.
2. Reference to the CPUC Advice Letter Number and Project Name.
3. A clear description of the reason for the protest.
4. Whether you believe that evidentiary hearings are necessary to resolve factual disputes.

Protests for this project must be filed by July 29, 2004, at the following address:

Director, Energy Division
California Public Utilities Commission
505 Van Ness Avenue, Fourth Floor
San Francisco, California 94102

With a copy mailed to:

David Kraska, Law Department
Pacific Gas and Electric Company
P.O. Box 7442
San Francisco, California 94120

Pacific Gas and Electric Company must respond within five business days of receipt and serve copies of its response on each protestant and the Energy Division. Within 30 days after Pacific Gas and Electric Company has submitted its response, the Executive Director of the CPUC will send you a copy of an Executive Resolution granting or denying the request and stating the reasons for the decision.

Assistance in Filing a Protest: For assistance in filing a protest, contact the CPUC Public Advisor in San Francisco at (415) 703-2074 or 1-866-849-8390 (toll-free) or TTY (415) 703.5258 or public.advisor@cpuc.ca.gov

Additional Project Information: To obtain further information on the proposed project, please call Pacific Gas and Electric Company's Project Information Line at (415) 973-5530.
