**Advice 2636-G/2667-E**  
(Pacific Gas and Electric Company ID U39M)

**Subject: New Gas and Electric Sample Forms**

Public Utilities Commission of the State of California

Pacific Gas and Electric Company (PG&E) hereby submits for filing revisions to its gas and electric tariffs. The affected tariff sheets are listed on the enclosed Attachment I.

**Purpose**

PG&E has determined that the new forms described herein should be filed in compliance with General Order 96-A, which states that, "forms normally used in connection with customers' services (such as applications, bills, notices, contracts, etc) are part of the utility's tariffs and they must be up to date and filed."

**New Forms**

The following is a list of proposed forms to be added to PG&E's gas and electric tariffs and included on the Table of Contents (TOC)--Sample Forms:

1. Form No. 79-1038 – **Application for Essential Use Customer Status**  
(E only)
  - Customer facilities' qualifying for essential customer status will be exempt from rotating outages.
2. Form No. 79-1039 – **Agricultural, Commercial, Residential, Rates Schedule Selection Customer Agreement** (G&E)
  - Customers may request to be billed under an optional rate schedule. PG&E is allowed reasonable time to install, remove, repair and inspect the metering equipment. (Provision in gas and electric Rule 12.)

3. Form No. 79-1040 – **Non-Disclosure and Use of Information Agreement (Concerning Work Adjacent to PG&E Facilities)** (G&E)
  - Proprietary information given to a customer by PG&E for the purpose of performing work adjacent to, in the vicinity of, or that will be connected to, PG&E's facilities, shall not be disclosed, or otherwise made available, to any person or third party.
4. Form No. 79-1041 – **Notice of Bill Guaranty Termination** (G&E)
  - Allows the Guarantor to terminate Bill Guaranty Form 62-4042.
5. Form No. 79-1042 – **APS/ Auto Pay Customer Application** (G&E)
  - Customer authorizes PG&E to instruct the Customers banking/savings institution to make payments from the account listed on the form.
6. Form No. 79-1043 – **Irrevocable Standby Letter of Credit** (G&E)
  - Establishes account security for the customer by a financial institution.

### **Effective Date**

In accordance with General Order 96-A, PG&E requests that this advice filing become effective on 30 days' regular notice, which is **July 1, 2005**.

### **Protests**

Anyone wishing to protest this filing should do so by sending a letter via postal mail and facsimile by **June 21, 2005**, which is 20 days after the date of this filing. The protest must state the grounds upon which it is based, including such items as financial and service impact, and should be submitted expeditiously. Protests should be mailed to:

AGRICULTURAL, GENERAL SERVICE, RESIDENTIAL RATE SCHEDULE SELECTION CUSTOMER AGREEMENT

I wish to be billed under the optional rate schedule listed below. I agree to the terms and conditions as described in the rate schedule tariff \* and as follows:

I hereby grant to PG&E, its employees, agents or contractors, reasonable access at reasonable times, to install, remove, repair and inspect the metering equipment.

I understand I cannot change to another rate schedule for a period of one year unless new schedules are offered for which I am eligible, or there has been a material change in the facility or operation served through this meter. If I report such change as described in Rule 12.C., I may be eligible to change schedules within the one-year period.

The chosen rate schedule will commence on the next regular meter reading date or meter installation date following PG&E's receipt of rate schedule change authorization. If a Time Of Use (TOU) rate schedule has been chosen, PG&E will place the account on the TOU schedule within four (4) weeks of receiving payment of any Installation or Processing charges, if required by tariff.

Note to customers choosing a TOU schedule: If non-refundable TOU meter Installation or Processing charges are required by tariff (please enclose check payable to Pacific Gas and Electric Company for \$\_\_\_\_\_), I understand that any up-front TOU meter charges must be paid in full prior to the rate schedule assignment, and that my payment of a TOU meter charge does not guarantee commensurate energy savings. I am also aware that meters for TOU schedules may become obsolete due to electric industry restructuring or other action by the CPUC.

Note to General Service customers only: The repayment obligation for the Trust Transfer Amount (TTA) of the Rate Reduction Bond (RRB) will vary for rate schedules A1, A6, A10, E19, and E20.

## **Non-Disclosure and Use of Information Agreement**

**(Concerning Work Adjacent to PG&E Facilities)**

**THIS AGREEMENT** is by \_\_\_\_\_ (“Company”), \_\_\_\_\_ (“Undersigned”) authorized employee of Company, (together, Company and Undersigned are sometimes referred to as the “Receiving Party”), and PACIFIC GAS AND ELECTRIC COMPANY (“PG&E”).

Undersigned and Company agree as follows:

1. The Receiving Party acknowledges that during the course of performing Work adjacent to, in the vicinity of, or that will be connected to PG&E’s facilities, the Receiving Party will be provided with PG&E-generated maps, job-specific construction drawings and specifications, and other data which are owned by PG&E, its subsidiaries or affiliates, and/or owned by third parties and in the possession of PG&E, and which constitute valuable confidential or proprietary information, know-how and trade secrets belonging to PG&E, its subsidiaries or affiliates and/or third parties (“Proprietary Information”).
2. In consideration of being made privy to the Proprietary Information, the Receiving Party hereby agrees to hold all such Proprietary Information in strict confidence and not to disclose it, or otherwise make it available, to any person or third party without the prior written consent of PG&E. The Receiving Party agrees that the Proprietary Information:
  - (a) Shall be used only for the purpose of performing the Work on this project;
  - (b) Shall not be reproduced, copied, in whole or in part, except as specifically authorized by PG&E and in conformance with PG&E's instructions when necessary for the purposes set forth in (a) above; and
  - (c) Shall, together with any copies, reproductions or other records thereof, in any form, and all information and materials developed by the Receiving Party therefrom, be returned to PG&E when no longer needed for the performance of the Work.
3. The Receiving Party hereby agrees that any third parties owning any confidential or proprietary information included in the Proprietary Information are express third party beneficiaries of this Agreement.
4. The Receiving Party hereby agrees that for any violation of any provision of this Agreement, a restraining order and/or injunction may be issued against the Receiving Party in addition to any other remedy PG&E may have at law.

## **Background: Rotating Outages and Essential Use Customers**

Rotating outages are controlled power interruptions that are instituted at the direction and under the supervision of state regulators when there is an insufficient supply of electricity to meet customer demand. In Decision 91548 (1978), the California Public Utilities Commission (CPUC) created a priority system in which certain customers who provide essential public health, safety, and security services should normally be exempt from rotating outages. The priority system was modified on April 3, 2001 pursuant to Decision 01-04-006, on May 24, 2001 pursuant to Decision 01-05-089, on June 28, 2001 pursuant to Decision 01-06-085, on September 6, 2001 pursuant to Decision 01-09-020 and on April 22, 2002 pursuant to Decision 02-04-060. The relevant portions of the new modified criteria provide as follows:

- A. Government and other agencies providing essential fire, police, and prison services.
- B. Government agencies essential to the national defense.
- C. Hospitals and skilled nursing facilities.
- D. Communication utilities, as they relate to public health, welfare, and security, including telephone utilities.
- E. Navigation communication, traffic control, and landing and departure facilities for commercial air and sea operations.
- F. Electric utility facilities and supporting fuel and fuel transportation services critical to continuity of electric power system operation.
- G. Radio and television broadcasting stations used for broadcasting emergency messages, instructions, and other public information related to the electric curtailment emergency.
- H. Water and sewage treatment utilities may request partial or complete [rotating outage] exemption from electric utilities in times of emergency identified as requiring their service, such as fire fighting.
- I. Areas served by networks, at utilities' discretion.
- J. Rail transit systems as necessary to protect public safety, to the extent exempted by the Commission.
- K. Customers served at transmission voltages to the extent that (a) they supply power to the grid in excess of their load at the time of the rotating outage, or (b) their inclusion in rotating outages would jeopardize system integrity.
- L. Optional Binding Mandatory Curtailment Program (OBMC): Any customer, or customers, meeting the following criteria.

The customer must file an acceptable binding energy and load curtailment plan with the utility. The customer must agree to curtail electric use on the entire circuit by the amount being achieved via rotating outages. The customer's plan must show how reduction on the entire circuit can be achieved in 5 percent increments to the 15 percent level, and show how compliance can be monitored and enforced. The customer must maintain the required reduction during the entire rotating outage period. The required curtailment level is requested prior to commencement of Stage 3. Several customers on a circuit may file a joint binding plan to guarantee the required curtailment from the entire circuit. Each utility shall facilitate communication between customers on a circuit if any customer expresses interest in enrolling in the OBMC program.

- M. Limited other customers as necessary to protect public health and safety, to the extent exempted by the Commission. Exemptions granted September 6, 2001 by the CPUC under category M had a limited duration of 24 months. Category M customers received a 30-day notice prior to the exemption expiration date of September 6, 2003.
- N. Petroleum refineries, vital ancillary facilities, and other customers in the critical fuels chain of production, to the extent exempted by the Commission. Petroleum refineries are facilities that separate or alter the components in crude oil, and convert the components into usable fuels or feedstock for further processing. Vital ancillary facilities are facilities that, if curtailed during a rotating outage, would cause one or more petroleum refineries to significantly curtail production, initiate a controlled shutdown, or initiate an emergency shutdown. Eligible refineries and vital ancillary facilities must be firm electricity service customers served at transmission level, or served at distribution level in an outage block exempt from rotating outages.

The CPUC noted that even for these customers, "Protection cannot be guaranteed because daily circuit switching may temporarily change a customer's outage block and priority classification."

### **Backup/Standby Generation**

In 1982, the Commission directed the utilities "to evaluate the adequacy of the standby generating equipment of [essential] customers and to consider removing them from the lists of essential use customers." Decision No. 82-06-021 at p. 12. The Commission reasoned that "[essential use] customers that have sufficient standby generating equipment for their essential load should not be routinely protected from rotating outages because this double protection may be jeopardizing other equally essential customers at the higher load reduction levels." For that reason, some essential customers may be "nonexempt" – that is, subject to rotating outages – if they have sufficient and adequate backup generation to support their critical activities for up to two hours, the expected typical upper duration of a rotating outage.

### **Special Rules for Acute Care Hospitals and Licensed Skilled Nursing Facilities**

On March 23, 2001, in an Assigned Commissioner's Ruling, the utilities were ordered to provide an automatic and unqualified exemption for all hospitals with 100 or more beds, whether or not those hospitals have any backup generating facilities. That Ruling was subsequently modified on April 3, 2001, in Decision 01-04-006 to exempt all hospitals from rotating outages regardless of the number of beds. The Ruling was again modified on April 22, 2002, in Decision 02-04-060 to exempt skilled nursing facilities licensed by the California Department of Health Services, regardless of the status of backup or standby generation.

### **Special Rules for Water and Sewage Treatment Facilities**

With regard to water and sewage treatment facilities, the CPUC clarified its position in Decision No. 92315, concluding that such customers would not be automatically exempted from rotating outages. However, water and sewage facilities may request an exemption from a specific rotating outage if an emergency exists [requiring their service]." The CPUC noted that the utilities were expected to grant such requests, but that water and sewage facilities were not to request an exemption "unless absolutely required to ensure the public's health and safety." Decision No. 92315 at p. 4.

### **Pacific Gas and Electric Company Implementation of the Commission's Priority System**

To implement the CPUC's Priority System for Rotating Outages, Pacific Gas and Electric Company ("the Company") has exempted from rotating outages all circuits which serve identified essential use customers (except those who are nonexempt). In the unlikely event an essential use customer is inadvertently interrupted due to a rotating outage, the Company has a toll-free number 1-800-743-5000, which the essential use customer can call to report the outage. If feasible, the Company will restore service to the essential use customer.

Water and sewage treatment facilities are provided with a specific toll-free number to call if an emergency arises which requires their service, such as firefighting. The Company will take all steps necessary to restore service as quickly as possible.

The Company annually reviews its essential use customer list to verify that each customer on the essential use customer list should continue to be included. The Company makes contact with each essential use customer to ensure that (a) its business functions have not changed in a manner which would eliminate it from the Commission-designated categories of essential use customers and (b) there has been no change in the sufficiency or adequacy of its backup generation which would affect whether an essential use customer should be exempt. Any customer who is found to need reclassification (either essential to nonessential or nonessential to essential) receives a notification 15 days in advance of the effective date of reclassification. In addition, the Company contacts new customers to determine if they should be included on the essential use customer list.

AGRICULTURAL, GENERAL SERVICE, RESIDENTIAL
RATE SCHEDULE SELECTION
CUSTOMER AGREEMENT

I wish to be billed under the optional rate schedule listed below. I agree to the terms and conditions as described in the rate schedule tariff \* and as follows:

I hereby grant to PG&E, its employees, agents or contractors, reasonable access at reasonable times, to install, remove, repair and inspect the metering equipment.

I understand I cannot change to another rate schedule for a period of one year unless new schedules are offered for which I am eligible, or there has been a material change in the facility or operation served through this meter. If I report such change as described in Rule 12.C., I may be eligible to change schedules within the one-year period.

The chosen rate schedule will commence on the next regular meter reading date or meter installation date following PG&E's receipt of rate schedule change authorization. If a Time Of Use (TOU) rate schedule has been chosen, PG&E will place the account on the TOU schedule within four (4) weeks of receiving payment of any Installation or Processing charges, if required by tariff.

Note to customers choosing a TOU schedule: If non-refundable TOU meter Installation or Processing charges are required by tariff (please enclose check payable to Pacific Gas and Electric Company for \$ \_\_\_\_\_), I understand that any up-front TOU meter charges must be paid in full prior to the rate schedule assignment, and that my payment of a TOU meter charge does not guarantee commensurate energy savings. I am also aware that meters for TOU schedules may become obsolete due to electric industry restructuring or other action by the CPUC.

Note to General Service customers only: The repayment obligation for the Trust Transfer Amount (TTA) of the Rate Reduction Bond (RRB) will vary for rate schedules A1, A6, A10, E19, and E20.

**THIS AGREEMENT** is by \_\_\_\_\_ (“Company”), \_\_\_\_\_ (“Undersigned”) authorized employee of Company, (together, Company and Undersigned are sometimes referred to as the “Receiving Party”), and PACIFIC GAS AND ELECTRIC COMPANY (“PG&E”).

Undersigned and Company agree as follows:

1. The Receiving Party acknowledges that during the course of performing Work adjacent to, in the vicinity of, or that will be connected to PG&E’s facilities, the Receiving Party will be provided with PG&E-generated maps, job-specific construction drawings and specifications, and other data which are owned by PG&E, its subsidiaries or affiliates, and/or owned by third parties and in the possession of PG&E, and which constitute valuable confidential or proprietary information, know-how and trade secrets belonging to PG&E, its subsidiaries or affiliates and/or third parties (“Proprietary Information”).
2. In consideration of being made privy to the Proprietary Information, the Receiving Party hereby agrees to hold all such Proprietary Information in strict confidence and not to disclose it, or otherwise make it available, to any person or third party without the prior written consent of PG&E. The Receiving Party agrees that the Proprietary Information:
  - (a) Shall be used only for the purpose of performing the Work on this project;
  - (b) Shall not be reproduced, copied, in whole or in part, except as specifically authorized by PG&E and in conformance with PG&E’s instructions when necessary for the purposes set forth in (a) above; and
  - (c) Shall, together with any copies, reproductions or other records thereof, in any form, and all information and materials developed by the Receiving Party therefrom, be returned to PG&E when no longer needed for the performance of the Work.
3. The Receiving Party hereby agrees that any third parties owning any confidential or proprietary information included in the Proprietary Information are express third party beneficiaries of this Agreement.
4. The Receiving Party hereby agrees that for any violation of any provision of this Agreement, a restraining order and/or injunction may be issued against the Receiving Party in addition to any other remedy PG&E may have at law.
