**Advice 2884-E  
(Pacific Gas and Electric Company ID U39 E)**

Public Utilities Commission of the State of California

**Subject: Cordelia #2 60kV Relocation Project, City of Fairfield**

Pacific Gas and Electric Company (the Company) hereby submits notice pursuant to General Order (G.O.) 131-D, Section XI, Subsection B.4 of the construction of facilities that are exempt from a Permit to Construct.

**Purpose**

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in GO 131-D, Section XI, Subsections B and C.

**Background**

The Company has been requested by the developer of the proposed Kaiser Medical facility to relocate a portion of the existing Cordelia #2 60kV pole line between Business Center Drive and Neitzel Road in the City of Fairfield, a distance of approximately 1200 feet. The project will consist of intersetting one new wood pole, removing two poles and installing 3 new wood poles that will be up to 20 feet taller than the existing poles to meet current GO 95 standards. Construction is scheduled to begin in October, 2006, or as soon as possible thereafter, and the new facilities are planned to be in operation in November, 2006, or as soon as possible after project completion.

This project qualifies as exempt from Permit to Construct filing requirements pursuant to G.O. 131-D, Section III, B, 1, g, which exempts;

- “the minor relocation of existing power line facilities, or the intersetting of additional structures between existing supporting structures, up to 2000 feet in length.”

This filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any other rate schedule or rule.

**Protests**

Anyone wishing to protest this filing may do so by letter sent via U.S. mail, by facsimile or electronically, any of which must be received no later than 20 days after the date of this filing, which is **September 7, 2006**, at the following address:

## NOTICE OF PROPOSED CONSTRUCTION

**Project Name:** Cordelia #2 60kV Relocation Project, City of Fairfield  
**ADVICE LETTER NUMBER:** 2884-E

**Proposed Project:** Pacific Gas and Electric Company has been requested by the developer of the proposed Kaiser Medical facility to relocate a portion of the existing Cordelia #2 60kV pole line between Business Center Drive and Neitzel Road in the City of Fairfield, a distance of approximately 1200 feet. The project will consist of intersetting one new wood pole, removing two poles and installing 3 new wood poles that will be up to 20 feet taller than the existing poles to meet current GO 95 standards. Construction is scheduled to begin in October, 2006, or as soon as possible thereafter, and the new facilities are planned to be in operation in November, 2006, or as soon as possible after project completion.

**Electric and Magnetic Fields (EMF):** Pacific Gas and Electric Company will employ "no cost" and specified "low cost" measures to reduce public exposure to EMF in accordance with California Public Utilities Commission (CPUC) Decision 93-11-013 and Pacific Gas and Electric Company's "EMF Design Guidelines of New Electrical Facilities: Transmission, Substation, and Distribution." Because there are no EMF mitigation measures available on this project that would meet the CPUC's benchmark of 4% or less of the total project cost, no "no cost" or "low cost" measures will be employed.

**Exemption from CPUC Permit Requirement:** CPUC General Order 131-D, Section III.B, exempts projects meeting specific conditions from the CPUC's requirement to file an application requesting authority to construct. Pacific Gas and Electric Company believes this project qualifies for the following exemptions:

- "the minor relocation of existing power line facilities, or the intersetting of additional structures between existing supporting structures, up to 2000 feet in length."

**Public Review Process:** Persons or groups may protest the proposed construction if they believe that Pacific Gas and Electric Company has incorrectly applied for an exemption or that the conditions set out in Section III.B.2 of General Order 131-D exist;

- a. There is reasonable possibility that the activity may impact on an environmental resource of hazardous or critical concern where designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies; or
- b. The cumulative impact of successive projects of the same type in the same place, over time, is significant; or
- c. There is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

Protests should include the following:

1. Your name, mailing address and daytime telephone number.
2. Reference to the CPUC Advice Letter Number and Project Name.
3. A clear description of the reason for the protest.
4. Whether you believe that evidentiary hearings are necessary to resolve factual disputes.

**Protests for this project must be filed by September 7, 2006, at the following address:**

Tariff Files, Room 4005  
 DMS Branch  
 Energy Division  
 505 Van Ness Avenue  
 San Francisco, California 94102

With a copy mailed to:

David Kraska, Law Department  
 Pacific Gas and Electric Company  
 P.O. Box 7442  
 San Francisco, California 94120

Pacific Gas and Electric Company must respond within five business days of receipt and serve copies of its response on each protestant and the Energy Division. Within 30 days after Pacific Gas and Electric Company has submitted its response, the Executive Director of the CPUC will send you a copy of an Executive Resolution granting or denying the request and stating the reasons for the decision.
