**Advice 2912-E
(Pacific Gas and Electric Company ID U39 E**

Public Utilities Commission of the State of California

**Subject: Submits Notice of Construction, Pursuant to General Order 131-D,
for the Construction of the Jefferson – Martin, Millbrae – Pacifica
60 Kilovolt (kV) Transmission Maintenance Project**

Pacific Gas and Electric Company (the Company) hereby submits notice pursuant to General Order (G.O.) 131-D, Section XI, Subsection B.4, of the construction of facilities that are exempt from a Permit to Construct.

Purpose

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in G.O. 131-D, Section XI.

Background

The Company is proposing a maintenance project to replace 13 poles and approximately one mile of wire on the Jefferson – Martin 60kV and Millbrae – Pacifica 60kV transmission lines in order to increase system reliability during winter storm events. The work on the two, parallel lines begins on GGNRA property at Sweeney Ridge and ends near Fassler Boulevard in Pacifica. PG&E will begin the work by replacing six poles on the Millbrae – Pacifica 60kV line and then replacing seven poles on the Jefferson – Martin 60kV line. The new poles will be approximately 10 feet taller than the existing poles in order to utilize a different framing scheme, which will increase the strength of the line. Finally, approximately one mile of conductor will be replaced. Work is expected to begin in fall 2006 and all phases will be completed by June, 2007, or as soon thereafter as possible.

This project qualifies as exempt from Permit to Construct filing requirements, pursuant to G.O. 131-D, Section III, Subsection B.1 which exempts, "the replacement of existing power line facilities or supporting structures with equivalent facilities or structures," "the placing of new or additional conductors, insulators, or their accessories on supporting structures already built," and "power line facilities to be located in an existing franchise, road-widening setback easement, or public utility easement."

This filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any other rate schedule or rule.

Protests

Anyone wishing to protest this filing may do so by letter sent via U.S. mail, by facsimile or electronically, any of which must be received no later than 21 days after the date of this filing, which is **October 30, 2006**, at the following address:

- b. The cumulative impact of successive projects of the same type in the same place, over time, is significant; or
- c. There is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

Protests should include the following:

1. Your name, mailing address and daytime telephone number.
2. Reference to the CPUC Advice Letter Number and Project Name.
3. A clear description of the reason for the protest.
4. Whether you believe that evidentiary hearings are necessary to resolve factual disputes.
