**Advice 3038-E
(Pacific Gas and Electric Company ID U39 E)**

Public Utilities Commission of the State of California

**Subject: Submits Notice of Construction, Pursuant to General Order 131-D, for
the Construction of the Linde Tap 115 Kilovolt (kV) Transmission Pole
Replacement Project**

Pacific Gas and Electric Company (the Company) hereby submits notice pursuant to General Order (G.O.) 131-D, Section XI, Subsection B.4, of the construction of facilities that are exempt from a Permit to Construct.

Purpose

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in G.O. 131-D, Section XI.

Background

The Company is proposing a maintenance project to replace four switches on the Linde Tap 115kV transmission line at the end of California Avenue in Pittsburg. As part of the project, the Company will remove one lattice steel pole and a wood pole and replace the two poles with three new tubular steel poles between 95 and 115 feet tall. The new switches will be installed on the new tubular steel poles located within approximately 15 feet of the existing poles and new conductor will be strung between the switches. Work is expected to begin in June, 2007, and should be completed by June, 2008, or as soon thereafter as possible.

This project qualifies as exempt from Permit to Construct filing requirements, pursuant to G.O. 131-D, Section III, Subsection B.1 which exempts, “the replacement of existing power line facilities or supporting structures with equivalent facilities or structures,” “the placing of new or additional conductors, insulators, or their accessories on supporting structures already built,” and “power line facilities to be located in an existing franchise, road-widening setback easement, or public utility easement.”

This filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any other rate schedule or rule.

Anyone wishing to protest this filing may do so by letter sent via U.S. mail, by facsimile or electronically, any of which must be received no later than **May 10, 2007**, which is 20 days after the date of this filing. Protests should be mailed to:
