**Advice 3040-E
(Pacific Gas and Electric Company ID U39 E)**

Public Utilities Commission of the State of California

**Subject: Submits Notice of Construction, Pursuant to General Order 131-D, for
the Relocation of a Wood Pole in the City of Tracy, County of San
Joaquin**

Pacific Gas and Electric Company (the Company) hereby submits notice pursuant to General Order (G.O.) 131-D, Section XI, Subsection B.4, of the construction of facilities that are exempt from a Permit to Construct.

Purpose

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in G.O. 131-D, Section XI.

Background

The Company proposes to replace and relocate three poles on the Manteca Louise 60kV power line to accommodate a road widening project in the City of Manteca, County of San Joaquin. Approximately three existing wood poles will be replaced with new wood poles of approximately the same height 19 feet to the north of the existing poles on Louise Avenue between McKinley Avenue and South Airport Road in Manteca. A self-supporting guy stub approximately 40' in height will be installed to provide an anchor for pole guy wires. Construction is scheduled to begin in June, 2007, or as soon thereafter as possible, with completion in approximately three weeks or as soon as possible after construction begins.

- This project qualifies as exempt from Permit to Construct filing requirements, pursuant to G.O. 131-D, Section III, Subsection B.1.b, which exempts, "The replacement of existing power line facilities or supporting structures with equivalent facilities or structures," Subsection B.1.c, which exempts, "The minor relocation of existing power line facilities up to 2,000 feet in length, or the intersetting of additional

support structures between existing support structures,” and Subsection B.1.g, which exempts, “Power line facilities or substations to be located in an existing franchise, road widening setback easement, or public utility easement; or in a utility corridor designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies for which a final Negative Declaration or EIR finds no significant unavoidable environmental impacts.”

This filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any other rate schedule or rule.

- c. There is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

Protests should include the following:

2. Reference to the CPUC Advice Letter Number and Project Name.
3. A clear description of the reason for the protest.
