**Subject: Submits Notice of Construction, Pursuant to General Order 131-D, for  
the Construction of Tesla Stockton Cogen 115kV Pole Replacement in  
the City of Lathrop, County of San Joaquin**

Pacific Gas and Electric Company (the Company) hereby submits notice pursuant to General Order (G.O.) 131-D, Section XI, Subsection B.4, of the construction of facilities that are exempt from a Permit to Construct.

**Purpose**

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in G.O. 131-D, Section XI.

**Background**

The Company proposes to replace and relocate an approximately 1,466-foot long section of the Tesla Stockton Cogen 115kV Power Line to accommodate a road widening project in the City of Lathrop, County of San Joaquin. Approximately seven existing wood poles will be replaced with new wood poles of approximately the same height 30 feet to the east of the existing poles on Harlan Road between J Street and Thomsen Road in Lathrop. Construction is expected to begin in July, 2007, or as soon as possible thereafter, and the new facilities are planned to be in operation in August, 2007, or as soon as possible thereafter.

This project qualifies as exempt from Permit to Construct filing requirements, pursuant to G.O. 131-D, Section III, Subsection B.1.b which exempts, "The replacement of existing power line facilities or supporting structures with equivalent facilities or structures," Subsection B.1.c which exempts, "The minor relocation of existing power line facilities up to 2,000 feet in length, or the intersetting of additional support structures between existing support structures" and Subsection B.1.g which exempts, "Power line facilities or substations to be located in an existing franchise, road-widening setback

easement; or public utility easement; or in a utility corridor designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies for which a final Negative Declaration or EIR finds no significant unavoidable environmental impacts.”

This filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any other rate schedule or rule.
