**Purpose**

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in G.O. 131-D, Section XI.

Minor modifications to the existing subsequent tower arms will be necessary to accommodate the relocation. Work is scheduled to begin in November, 2007, or as soon thereafter as possible, and will be completed by May, 2008, or as soon thereafter as possible.

This project qualifies as exempt from Permit to Construct filing requirements, pursuant to G.O. 131-D, Section III, Subsections B.1.b and c, which exempts the following:

b) the replacement of existing power line facilities or supporting structures with equivalent facilities or structures.

c) the minor relocation of existing power line facilities up to 2,000 feet in length, or the intersetting of additional support structures between existing support structures.
