San Francisco, CA 94177

Subject: Submits Notice of Construction, Pursuant to General Order
131-D, for the Reconductoring of Livingston-Livingston
Junction 70 kV Power Line, County of Merced

Dear Mr. Cherry:

Advice Letter 3137-E is effective November 15, 2007.

Sincerely,

A handwritten signature in black ink, appearing to read "Sean H. Gallagher".

Sean H. Gallagher, Director
Energy Division

October 16, 2007

Advice 3137-E
(Pacific Gas and Electric Company ID U 39E)

Public Utilities Commission of the State of California

**Subject: Submits Notice of Construction, Pursuant to General Order 131-D,
for the Reconductoring of Livingston-Livingston Junction 70 Kilovolt
Power Line, County of Merced**

Pacific Gas and Electric Company (the Company) hereby submits notice pursuant to General Order (G.O.) 131-D, Section XI, Subsection B.4, of the construction of facilities that are exempt from a Permit to Construct.

Purpose

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in G.O. 131-D, Section XI.

Background

The Company proposes to replace existing wires (conductors) with new wires (reconductor) (placing of new conductors on supporting structures already built) on approximately twenty-three miles (portion) of the Livingston-Livingston Jct. 70 Kilovolt power line in the County of Merced in order to continue to provide for the increasing demand and to improve reliability in Merced County. The reconductoring of the existing power line will occur in its existing alignment (existing easement), and will begin at Livingston Substation, located south and west of the City of Livingston near the intersection of Westside and Washington Boulevards. The power line alignment runs in a general southerly direction for approximately 24 miles to the Livingston Junction which is located just north of the City of Los Banos along State Route 165 (SR 165). The Company may need to replace approximately 50 poles (replace existing facilities with equivalent facilities) approximately 5 feet taller to support the new conductors and for EMF mitigation. Work is expected to begin in November 2007, or as soon thereafter as possible, and to be completed by February 2008 or as soon thereafter as possible.

Electric and Magnetic Fields (EMF): The Company will employ “no cost” and specified “low cost” measures to reduce public exposure to EMF in accordance with California Public Utilities Commission (CPUC) Decision 93-11-013 and the Company’s

“EMF Design Guidelines of New Electrical Facilities: Transmission, Substation, and Distribution.” The following measure is proposed for this project:

- Approximately 16 poles adjacent to rural residential areas along the power line will be raised approximately five feet taller than otherwise required to reduce magnetic fields at ground level.

Exemption from CPUC Authority: CPUC General Order 131-D, Section III, B.1, exempts projects meeting specific conditions from the CPUC’s requirement to file an application requesting authority to construct. The Company believes this project qualifies for the following exemption:

- b) the replacement of existing power line facilities or supporting structures with equivalent facilities or structures.
- e) the placing of new or additional conductors, insulators, or their accessories on supporting structures already built.
- g) power line facilities or substations to be located in an existing franchise, road-widening setback easement, or public utility easement; or in a utility corridor designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies for which a final Negative Declaration or EIR finds no significant unavoidable environmental impacts.

Protests

Anyone wishing to protest this filing may do so by letter sent via U.S. mail, by facsimile or electronically, any of which must be received no later than **November 5, 2007**, which is 20 days after the date of this filing. Protests should be mailed to:

CPUC Energy Division
Tariff Files, Room 4005
DMS Branch
505 Van Ness Avenue
San Francisco, California 94102

Facsimile: (415) 703-2200
E-mail: jnj@cpuc.ca.gov and mas@cpuc.ca.gov

Copies of protests also should be mailed to the attention of the Director, Energy Division, Room 4004, at the address shown above.

The protest also should be sent via U.S. mail (and by facsimile and electronically, if possible) to the Company at the address shown below on the same date it is mailed or delivered to the Commission:

David T. Kraska
Attorney, Law Department
Pacific Gas and Electric Company
P.O. Box 7442
San Francisco, California 94120

Facsimile: (415) 973-0516

Brian K. Cherry
Vice President, Regulatory Relations
Pacific Gas and Electric Company
77 Beale Street, Mail Code B10C
P.O. Box 770000
San Francisco, California 94177

Facsimile: (415) 973-7226
E-mail: PGETariffs@pge.com

Persons or groups may protest the proposed construction if they believe that the Company has incorrectly applied for an exemption or that the conditions set out in Section III.B.2 of G.O. 131-D exist.

Effective Date

The Company requests that this advice filing become effective on **November 15, 2007**, which is 30 calendar days after the date of filing. (In accordance with G.O. 131-D, construction will not begin until 45 days after notice is first published.)

Notice

In accordance with G.O. 96-B, Section IV, a copy of this advice letter is being sent electronically and via U.S. mail to parties shown on the attached list, including the parties listed in G.O. 131-D, Section XI, Paragraphs B.1 and B.2. These parties are identified in the "Notice Distribution List" included in Attachment I. Address changes to the General Order 96-B service list should be directed to Rose de la Torre at (415) 973-4716. Send all electronic approvals to PGETariffs@pge.com. Advice letter filings can also be accessed electronically at: **<http://www.pge.com/tariffs>**

A handwritten signature in cursive script that reads "Brian K Cherry / dc".

NOTICE OF PROPOSED CONSTRUCTION

PROJECT NAME: Livingston-Livingston Junction 70 Kilovolt Power Line Reconductoring, County of Merced
ADVICE LETTER NUMBER: 3137-E

Proposed Project: Pacific Gas and Electric Company (PG&E) proposes to replace existing wires (conductors) with new wires (reconductor) (placing of new conductors on supporting structures already built) on approximately twenty-three miles (portion) of the Livingston-Livingston Jct. 70 Kilovolt power line in the County of Merced in order to continue to provide for the increasing demand and to improve reliability in Merced County. The reconductoring of the existing power line will occur in its existing alignment (existing easement), and will begin at Livingston Substation, located south and west of the City of Livingston near the intersection of Westside and Washington Boulevards. The power line alignment runs in a general southerly direction for approximately 24 miles to the Livingston Junction which is located just north of the City of Los Banos along State Route 165 (SR 165). PG&E may need to replace approximately 50 poles (replace existing facilities with equivalent facilities) approximately 5 feet taller to support the new conductors and for EMF mitigation. Work is expected to begin in November 2007, or as soon thereafter as possible, and to be completed by February 2008 or as soon thereafter as possible.

Electric and Magnetic Fields (EMF): Pacific Gas and Electric Company will employ "no cost" and specified "low cost" measures to reduce public exposure to EMF in accordance with California Public Utilities Commission (CPUC) Decision 93-11-013 and Pacific Gas and Electric Company's "EMF Design Guidelines of New Electrical Facilities: Transmission, Substation, and Distribution." The following measure is proposed for this project:

- Approximately 16 poles adjacent to rural residential areas along the power line will be raised approximately five feet taller than otherwise required to reduce magnetic fields at ground level.

Exemption from CPUC Permit Requirement: CPUC General Order 131-D, Section III, B.1, exempts projects meeting specific conditions from the CPUC's requirement to file an application requesting authority to construct. Pacific Gas and Electric Company believes this project qualifies for the following exemption:

- b) the replacement of existing power line facilities or supporting structures with equivalent facilities or structures.
- e) the placing of new or additional conductors, insulators, or their accessories on supporting structures already built.
- g) power line facilities or substations to be located in an existing franchise, road-widening setback easement, or public utility easement; or in a utility corridor designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies for which a final Negative Declaration or EIR finds no significant unavoidable environmental impacts.

Public Review Process: Persons or groups may protest the proposed construction if they believe that Pacific Gas and Electric Company has incorrectly applied for an exemption or that the conditions set out in Section III.B.2 of General Order 131-D exist;

- a. There is reasonable possibility that the activity may have an impact on an environmental resource of hazardous or critical concern where designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies; or
- b. The cumulative impact of successive projects of the same type in the same place, over time, is significant; or
- c. There is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

Protests should include the following:

1. Your name, mailing address and daytime telephone number.
2. Reference to the CPUC Advice Letter Number and Project Name.
3. A clear description of the reason for the protest.
4. Whether you believe that evidentiary hearings are necessary to resolve factual disputes.

Protests for this project must be filed by November 5, 2007 at the following address:

Director, Energy Division
 California Public Utilities Commission
 505 Van Ness Avenue, Fourth Floor
 San Francisco, California 94102

With a copy mailed to:

David Kraska, Law Department
 Pacific Gas and Electric Company
 P.O. Box 7442
 San Francisco, California 94120

Pacific Gas and Electric Company must respond within five business days of receipt and serve copies of its response on each protestant and the Energy Division. Within 30 days after Pacific Gas and Electric Company has submitted its response, the Executive Director of the CPUC will send you a copy of an Executive Resolution granting or denying the request and stating the reasons for the decision.

Assistance in Filing a Protest: For assistance in filing a protest, contact the CPUC Public Advisor in San Francisco at (415) 703-2074 or 1-866-849-8390 (toll-free) or TTY (415) 703.5258 or public.advisor@cpuc.ca.gov.

Additional Project Information: To obtain further information on the proposed project, please call Pacific Gas and Electric Company's Project Information Line at (415) 973-5530.
