Advice 3191-E
(Pacific Gas and Electric Company ID U 39E)

Public Utilities Commission of the State of California

Subject: Herndon-Bullard 115 kilovolt #1 and #2 Reconductoring Project, Counties of Fresno and Madera

Pacific Gas and Electric Company (the Company) hereby submits notice pursuant to General Order (G.O.) 131-D, Section XI, Subsection B.4, of the construction of facilities that are exempt from a Permit to Construct.

Purpose

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in G.O. 131-D, Section XI.

Background

Pacific Gas and Electric Company (PG&E) proposes to replace existing wires (conductors) with new wires (reconductor) on approximately 7.5 miles of the Herndon-Bullard 115 kilovolt #1 and #2 power lines in the Counties of Fresno and Madera in order to continue meeting energy demands and to improve electric transmission reliability to customers in both Fresno and Madera Counties. The reconductoring of these power lines for this project will begin at the Herndon Substation, located east of Highway 99 and south of the San Joaquin River in Fresno County. From Herndon Substation, the power lines proceed north over the San Joaquin River into Madera County, traverse east across agricultural fields for approximately six miles, then turn south back over the San Joaquin River to an area west of North Palm Avenue and south of West Nees Avenue, ultimately terminating at the Pinedale Substation, located at the northwest corner of the intersection of West Fallbrook Avenue and North Ingram Avenue in the City of Fresno.

The reconductoring will involve installing new conductors (placing of new conductors on supporting structures already built), raising one transmission tower height by approximately ten feet, and installing three new tubular steel poles within the Herndon Substation (intersetting of additional support structures). The reconductoring and intersetting of tubular steel poles will be constructed within the same alignment and corridor (existing public utility easements). Work is expected to begin in February,

2008, or as soon thereafter as possible, and will be completed by the end of December, 2008, or as soon thereafter as possible.

CPUC General Order 131-D, Section III, B.1, exempts projects meeting specific conditions from the CPUC's requirement to file an application requesting authority to construct. Pacific Gas and Electric Company believes this project qualifies for the following exemption:

- e) the placing of new or additional conductors, insulators, or their accessories on supporting structures already built.
- c) the minor relocation of existing power line facilities up to 2,000 feet in length or the intersetting of additional support structures between existing support structures.
- g) power line facilities or substations to be located in an existing franchise, road-widening setback easement, public utility easement; or in a utility corridor designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies for which a final Negative Declaration or EIR finds no significant unavoidable environmental impacts

Protests

Anyone wishing to protest this filing may do so by letter sent via U.S. mail, by facsimile or electronically, any of which must be received no later than **January 28, 2008**, which is 20 days after the date of this filing. Protests should be mailed to:

CPUC Energy Division
Tariff Files, Room 4005
DMS Branch
505 Van Ness Avenue
San Francisco, California 94102

Facsimile: (415) 703-2200
E-mail: jjj@cpuc.ca.gov and mas@cpuc.ca.gov

Copies of protests also should be mailed to the attention of the Director, Energy Division, Room 4004, at the address shown above.

The protest also should be sent via U.S. mail (and by facsimile and electronically, if possible) to PG&E at the address shown below on the same date it is mailed or delivered to the Commission:

David T. Kraska
Attorney, Law Department

Pacific Gas and Electric Company
P.O. Box 7442
San Francisco, California 94120

Facsimile: (415) 973-0516

Brian K. Cherry
Vice President, Regulatory Relations
Pacific Gas and Electric Company
77 Beale Street, Mail Code B10C
P.O. Box 770000
San Francisco, California 94177

Facsimile: (415) 973-7226
E-mail: PGETariffs@pge.com

Persons or groups may protest the proposed construction if they believe that the Company has incorrectly applied for an exemption or that the conditions set out in Section III.B.2 of G.O. 131-D exist.

Effective Date

The Company requests that this advice filing become effective on **February 6, 2008**, which is 30 calendar days after the date of filing. (In accordance with G.O. 131-D, construction will not begin until 45 days after notice is first published.)

Notice

In accordance with G.O. 96-B, Section IV, a copy of this advice letter is being sent electronically and via U.S. mail to parties shown on the attached list, including the parties listed in G.O. 131-D, Section XI, Paragraphs B.1 and B.2. These parties are identified in the "Notice Distribution List" included in Attachment I. Address changes to the General Order 96-B service list should be directed to Rose de la Torre at (415) 973-4716. Send all electronic approvals to PGETariffs@pge.com. Advice letter filings can also be accessed electronically at: <http://www.pge.com/tariffs>

A handwritten signature in cursive script that reads "Brian K. Cherry / drc".

Vice President, Regulatory Relations

Advice Letter (AL) #: **3191-E**

Tier: N/A

Subject of AL: Herndon-Bullard 115 kilovolt #1 and #2 Reconductoring Project, Counties of Fresno and Madera

Keywords (choose from CPUC listing): Power Lines

AL filing type: Monthly Quarterly Annual One-Time Other _____

If AL filed in compliance with a Commission order, indicate relevant Decision/Resolution #:

Does AL replace a withdrawn or rejected AL? If so, identify the prior AL: No

Summarize differences between the AL and the prior withdrawn or rejected AL¹: _____

Is AL requesting confidential treatment? If so, what information is the utility seeking confidential treatment for:

Confidential information will be made available to those who have executed a nondisclosure agreement: Yes No

Name(s) and contact information of the person(s) who will provide the nondisclosure agreement and access to the confidential information: _____

Resolution Required? Yes No

Requested effective date: **February 6, 2008**

No. of tariff sheets: N/A

Estimated system annual revenue effect (%): N/A

Estimated system average rate effect (%): N/A

When rates are affected by AL, include attachment in AL showing average rate effects on customer classes (residential, small commercial, large C/I, agricultural, lighting).

Tariff schedules affected: N/A

Service affected and changes proposed¹: N/A

Pending advice letters that revise the same tariff sheets: N/A

Protests, dispositions, and all other correspondence regarding this AL are due no later than 20 days after the date of this filing, unless otherwise authorized by the Commission, and shall be sent to:

NOTICE OF PROPOSED CONSTRUCTION

PROJECT NAME: Herndon-Bullard 115 kilovolt #1 and #2 Reconductoring Project, Counties of Fresno and Madera
ADVICE LETTER NUMBER: 3191-E

Proposed Project: Pacific Gas and Electric Company (PG&E) proposes to replace existing wires (conductors) with new wires (reconductor) on approximately 7.5 miles of the Herndon-Bullard 115 kilovolt #1 and #2 power lines in the Counties of Fresno and Madera in order to continue meeting energy demands and to improve electric transmission reliability to customers in both Fresno and Madera Counties. The reconductoring of these power lines for this project will begin at the Herndon Substation, located east of Highway 99 and south of the San Joaquin River in Fresno County. From Herndon Substation, the power lines proceed north over the San Joaquin River into Madera County, traverse east across agricultural fields for approximately six miles, then turn south back over the San Joaquin River to an area west of North Palm Avenue and south of West Nees Avenue, ultimately terminating at the Pinedale Substation, located at the northwest corner of the intersection of West Fallbrook Avenue and North Ingram Avenue in the City of Fresno.

The reconductoring will involve installing new conductors (placing of new conductors on supporting structures already built), raising one transmission tower height by approximately ten feet, and installing three new tubular steel poles within the Herndon Substation (intersetting of additional support structures). The reconductoring and intersetting of tubular steel poles will be constructed within the same alignment and corridor (existing public utility easements). Work is expected to begin in February, 2008, or as soon thereafter as possible, and will be completed by the end of December, 2008, or as soon thereafter as possible.

Electric and Magnetic Fields (EMF): Pacific Gas and Electric Company will employ "no cost" and specified "low cost" measures to reduce public exposure to EMF in accordance with California Public Utilities Commission (CPUC) Decision 06-01-042 and Pacific Gas and Electric Company's "EMF Design Guidelines for Electrical Facilities." The following measures are proposed for this project:

- Optimize phase configuration by "cross-phasing" individual circuits to cancel magnetic fields.

Exemption from CPUC Permit Requirement: CPUC General Order 131-D, Section III, B.1, exempts projects meeting specific conditions from the CPUC's requirement to file an application requesting authority to construct. Pacific Gas and Electric Company believes this project qualifies for the following exemption:

- e) the placing of new or additional conductors, insulators, or their accessories on supporting structures already built.
- c) the minor relocation of existing power line facilities up to 2,000 feet in length or the intersetting of additional support structures between existing support structures.
- g) power line facilities or substations to be located in an existing franchise, road-widening setback easement, public utility easement; or in a utility corridor designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies for which a final Negative Declaration or EIR finds no significant unavoidable environmental impacts

Public Review Process: Persons or groups may protest the proposed construction if they believe that Pacific Gas and Electric Company has incorrectly applied for an exemption or that the conditions set out in Section III.B.2 of General Order 131-D exist;

- a. There is reasonable possibility that the activity may have an impact on an environmental resource of hazardous or critical concern where designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies; or
- b. The cumulative impact of successive projects of the same type in the same place, over time, is significant; or
- c. There is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

Protests should include the following:

1. Your name, mailing address and daytime telephone number.
2. Reference to the CPUC Advice Letter Number and Project Name.
3. A clear description of the reason for the protest.
4. Whether you believe that evidentiary hearings are necessary to resolve factual disputes.

Protests for this project must be filed by *January 28, 2008*, at the following address:

Tariff Files, Room 4005
 DMS Branch
 Energy Division
 505 Van Ness Avenue
 San Francisco, CA 94102

With a copy mailed to:

David Kraska, Law Department
 Pacific Gas and Electric Company
 P.O. Box 7442
 San Francisco, CA 94120

Pacific Gas and Electric Company must respond within five business days of receipt and serve copies of its response on each protestant and the Energy Division. Within 30 days after Pacific Gas and Electric Company has submitted its response, the Executive Director of the CPUC will send you a copy of an Executive Resolution granting or denying the request and stating the reasons for the decision.

Assistance in Filing a Protest: For assistance in filing a protest, contact the CPUC Public Advisor in San Francisco at (415) 703-2074 or 1-866-849-8390 (toll-free) or TTY (415) 703-5258 or public.advisor@cpuc.ca.gov

Additional Project Information: To obtain further information on the proposed project, please call Pacific Gas and Electric Company's Project Information Line at (415) 973-5530.
