Advice 3385-E
(Pacific Gas and Electric Company ID U39 E)

Public Utilities Commission of the State of California

Subject: Submits Notice of Construction, Pursuant to General Order 131-D, for the Carbona #1 60kV Tap Reconductoring Project - City of Tracy and County of San Joaquin

Pacific Gas and Electric Company (the Company) hereby submits notice pursuant to General Order (G.O.) 131-D, Section XI, Subsection B.4, of the construction of facilities that are exempt from a Permit to Construct.

Purpose

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in G.O. 131-D, Section XI.

Background

In order to improve reliability to customers in the City of Tracy, the Company is proposing to replace the existing wires with new wires (reconductor) on the Carbona #1 60 kilovolt (60kV) power line (Tap) in the City of Tracy and San Joaquin County. The first segment of the project begins just north of the intersection of Charlemagne Lane and South MacArthur Drive in Tracy and trends south for 2.7 miles along the west side of South MacArthur Drive (existing franchise) to the terminus at Carbona Substation. Along this segment, the Company plans to replace 18 existing wood poles with new wood poles approximately 5 to 15 feet taller, and to replace one wood pole with a light-duty steel pole (replacement of existing facilities). The second segment of the project includes reconductoring a 1000-foot section of the Tap next to Kasson Substation at the southeast intersection of Kasson Road and Mancuso Road in San Joaquin County (existing easement). This will require intersetting a new wood pole (intersetting of additional support structures) and replacing a wood

pole with a new tubular steel pole (TSP). The specific location near Kasson Substation requires this self-supporting TSP because a wood pole would require additional supporting structures and guy wiring. The TSP will be 55 feet tall and substantially shorter than surrounding lattice structures in the immediate area. Work is scheduled to begin in February 2009, or as soon thereafter as possible, and will be completed by May 2009, or as soon thereafter as possible.

CPUC General Order 131-D, Section III, Subsection B.1, exempts projects meeting specific conditions from the CPUC's requirement to file an application requesting authority to construct. The Company believes this project qualifies for the following exemptions:

- b) The replacement of existing power line facilities or supporting structures with equivalent facilities or structures.
- c) The minor relocation of existing power line facilities up to 2000 feet in length, or the intersetting of additional support structures between existing support structures.
- g) Power line facilities or substations to be located in an existing franchise, road-widening setback easement, or public utility easement.

Additionally, G.O. 131-D requires utilities to employ "no cost" and specified "low cost" measures to reduce public exposure to electric and magnetic fields (EMFs) in accordance with CPUC Decision 06-01-042 and the "EMF Guidelines for Electrical Facilities." The following measures are proposed for this project:

- Increase the height of overhead lines, more than otherwise required, to reduce EMF strength at ground level.

This filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any other rate schedule or rule.

Protests

Anyone wishing to protest this filing may do so by filing a protest with the CPUC and the Company by **January 12, 2009**¹, which is 21 days after the date of this filing. Protests should be mailed to the following address:

¹ The 20-day protest period concludes on a weekend. PG&E is hereby moving this date to the following business day.

CPUC Energy Division
Tariff Files, Room 4005
DMS Branch
505 Van Ness Avenue
San Francisco, California 94102

Facsimile: (415) 703-2200
E-Mail: jjn@cpuc.ca.gov and mas@cpuc.ca.gov

Copies of protests also should be mailed to the attention of the Director, Energy Division, Room 4004, at the address show above.

The protest also should be sent via U.S. mail (and by facsimile and electronically, if possible) to PG&E at the address shown below on the same date it is mailed or delivered to the Commission:

David T. Kraska
Attorney, Law Department
Pacific Gas and Electric Company
P.O. Box 7442
San Francisco, California 94120

Facsimile: (415) 973-0516

Brian K. Cherry
Vice President, Regulatory Relations
Pacific Gas and Electric Company
P.O. Box 770000, Mail Code B10C
San Francisco, California 94177

Facsimile: (415) 973-7226
E-Mail: PGETariffs@pge.com

Persons or groups may protest the proposed construction if they believe that the Company has incorrectly applied for an exemption or that the conditions set out in Section III.B.2 of G.O. 131-D exist.

Effective Date

The Company requests that this advice filing become effective on **January 21, 2009**, which is 30 days after the date of filing. (In accordance with G.O. 131-D, construction will not begin until 45 days after notice is first published.)

Notice

In accordance with G.O. 96-B, Section IV, a copy of this advice letter is being sent electronically and via U.S. Mail to parties shown on the attached list, including the parties listed in G.O. 131-D, Section XI, Paragraphs B.1 and B.2. These parties are identified in the "Notice Distribution List" included in Attachment I. Address changes to the General Order 96-B service list should be directed to Rose de la Torre at (415) 973-4716. Send all electronic approvals to PGETariffs@pge.com. Advice letter filings can also be accessed electronically at <http://www.pge.com/tariffs/>.

A handwritten signature in cursive script that reads "Brian Cherry / mt".

WATER = Water

Advice Letter (AL) #: **3385-E**

Tier: **N/A**

Subject of AL: Carbona #1 60kV Tap Reconductoring Project (City of Tracy and County of San Joaquin)

Keywords (choose from CPUC listing): Power Lines

AL filing type: Monthly Quarterly Annual One-Time Other _____

If AL filed in compliance with a Commission order, indicate relevant Decision/Resolution #:

Does AL replace a withdrawn or rejected AL? If so, identify the prior AL: No

Summarize differences between the AL and the prior withdrawn or rejected AL¹: _____

Is AL requesting confidential treatment? If so, what information is the utility seeking confidential treatment for:

Confidential information will be made available to those who have executed a nondisclosure agreement: Yes No

Name(s) and contact information of the person(s) who will provide the nondisclosure agreement and access to the confidential information: _____

Resolution Required? Yes No

Requested effective date: **January 21, 2009**

No. of tariff sheets: N/A

Estimated system annual revenue effect (%): N/A

Estimated system average rate effect (%): N/A

When rates are affected by AL, include attachment in AL showing average rate effects on customer classes (residential, small commercial, large C/I, agricultural, lighting).

Tariff schedules affected: N/A

Service affected and changes proposed¹: N/A

Pending advice letters that revise the same tariff sheets: N/A

Protests, dispositions, and all other correspondence regarding this AL are due no later than 20 days after the date of this filing, unless otherwise authorized by the Commission, and shall be sent to:

NOTICE OF PROPOSED CONSTRUCTION

PROJECT NAME: Carbona #1 60kV Tap Reconductoring Project - City of Tracy and County of San Joaquin
ADVICE LETTER NUMBER: 3385-E

Proposed Project: In order to improve reliability to customers in the City of Tracy, Pacific Gas and Electric Company is proposing to replace the existing wires with new wires (reconductor) on the Carbona #1 60 kilovolt (60kV) power line (Tap) in the City of Tracy and San Joaquin County. The first segment of the project begins just north of the intersection of Charlemagne Lane and South MacArthur Drive in Tracy and trends south for 2.7 miles along the west side of South MacArthur Drive (existing franchise) to the terminus at Carbona Substation. Along this segment, the Company plans to replace 18 existing wood poles with new wood poles approximately 5 to 15 feet taller, and to replace one wood pole with a light-duty steel pole (replacement of existing facilities). The second segment of the project includes reconductoring a 1000-foot section of the Tap next to Kasson Substation at the southeast intersection of Kasson Road and Mancuso Road in San Joaquin County (existing easement). This will require intersetting a new wood pole (intersetting of additional support structures) and replacing a wood pole with a new tubular steel pole (TSP). The specific location near Kasson Substation requires this self-supporting TSP because a wood pole would require additional supporting structures and guy wiring. The TSP will be 55 feet tall and substantially shorter than surrounding lattice structures in the immediate area. Work is scheduled to begin in February 2009, or as soon thereafter as possible, and will be completed by May 2009, or as soon thereafter as possible.

Electric and Magnetic Fields (EMF): Pacific Gas and Electric Company will employ "no cost" and specified "low cost" measures to reduce public exposure to EMF in accordance with California Public Utilities Commission (CPUC) Decision 06-01-042 and Pacific Gas and Electric Company's "EMF Design Guidelines for Electrical Facilities." The following measures are proposed for this project:

- Increase the height of overhead lines, more than otherwise required, to reduce EMF strength at ground level.

Exemption from CPUC Permit Requirement: CPUC General Order 131-D, Section III, B.1, exempts projects meeting specific conditions from the CPUC's requirement to file an application requesting authority to construct. Pacific Gas and Electric Company believes this project qualifies for the following exemptions:

- b. The replacement of existing power line facilities or supporting structures with equivalent facilities or structures.
- c. The minor relocation of existing power line facilities up to 2000 feet in length, or the intersetting of additional support structures between existing support structures.
- g. Power line facilities or substations to be located in an existing franchise, road-widening setback easement, or public utility easement.

Public Review Process: Persons or groups may protest the proposed construction if they believe that Pacific Gas and Electric Company has incorrectly applied for an exemption or that the conditions set out in Section III.B.2 of General Order 131-D exist;

- a. There is reasonable possibility that the activity may have an impact on an environmental resource of hazardous or critical concern where designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies; or
- b. The cumulative impact of successive projects of the same type in the same place, over time, is significant; or
- c. There is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

Protests should include the following:

1. Your name, mailing address and daytime telephone number.
2. Reference to the CPUC Advice Letter Number and Project Name.
3. A clear description of the reason for the protest.
4. Whether you believe that evidentiary hearings are necessary to resolve factual disputes.

Protests for this project must be filed by January 12, 2009, at the following address:

Director, Energy Division
 California Public Utilities Commission
 505 Van Ness Avenue, Fourth Floor
 San Francisco, California 94102

With a copy mailed to:

David Kraska, Law Department
 Pacific Gas and Electric Company
 P.O. Box 7442
 San Francisco, California 94120

Pacific Gas and Electric Company must respond within five business days of receipt and serve copies of its response on each protestant and the Energy Division. Within 30 days after Pacific Gas and Electric Company has submitted its response, the Executive Director of the CPUC will send you a copy of an Executive Resolution granting or denying the request and stating the reasons for the decision.

Assistance in Filing a Protest: For assistance in filing a protest, contact the CPUC Public Advisor in San Francisco at (415) 703-2074 or 1-866-849-8390 (toll-free) or TTY (415) 703-5258 or public.advisor@cpuc.ca.gov.

Additional Project Information: To obtain further information on the proposed project, please call Pacific Gas and Electric Company's Project Information Line at (415) 973-5530.
