**Advice 3462-E
(Pacific Gas and Electric Company ID U39 E)**

Public Utilities Commission of the State of California

**Subject: Submits Notice of Construction, Pursuant to General Order 131-D,
for the Construction of Paradise-Butte 115kV Wildfire Reliability
Project, County of Butte**

Pacific Gas and Electric Company (the Company) hereby submits notice pursuant to General Order (G.O.) 131-D, Section XI, Subsection B.4, of the construction of facilities that are exempt from a Permit to Construct.

Purpose

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in G.O. 131-D, Section XI.

Background

In order to provide reliable transmission service and to reduce the risk of outages in its service area, Pacific Gas and Electric Company (PG&E) proposes to replace existing wood poles with light-duty, self-weathering steel poles (replacement of existing facilities) along approximately 2.8 miles of its existing Paradise-Butte 115kV power line (existing easement) in Butte County. The project is located between Paradise and Chico, to the south of the Skyway. This segment of power line is located in rural woodland habitat that has been historically plagued by wildfires and most recently was decimated by the 2008 Humboldt Fire that threatened the community of Paradise. Existing wires (conductor) will also be replaced with conductor meeting current standards and to eliminate splice weaknesses (resulting from past wildfire outages) in the existing conductor along this section. Approximately 34 wood poles will be replaced by light-duty steel poles; of these, 32 will be approximately 5-10 feet taller than existing and 2 will be up to 20 feet taller than existing to provide required line clearance over roadways, other power lines, and ground/vegetation along the pole line. Construction is scheduled to begin in July 2009, or as soon as possible thereafter, with work expected

to be completed by December 2009, or as soon as possible after project initiation.

CPUC General Order 131-D, Section III, Subsection B.1.b and g exempts projects meeting specific conditions from the CPUC's requirement to file an application requesting authority to construct. The Company believes this project qualifies for the following exemption(s):

- b. the replacement of existing power line facilities or supporting structures with equivalent facilities or structures.

- g. power line facilities or substations to be located in an existing franchise, road-widening setback easement, or public utility easement; or in a utility corridor designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies for which a final Negative Declaration or EIR finds no significant unavoidable environmental impacts.

This filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any other rate schedule or rule.

Protests

Anyone wishing to protest this filing may do so by filing a protest with the CPUC and the Company by **June 16, 2009**, at the following address:

CPUC Energy Division
Tariff Files, Room 4005
DMS Branch
505 Van Ness Avenue
San Francisco, California 94102

Facsimile: (415) 703-2200
E-Mail: jjj@cpuc.ca.gov and mas@cpuc.ca.gov

Copies of protests also should be mailed to the attention of the Director, Energy Division, Room 4004, at the address shown above.

The protest also should be sent via U.S. mail (and by facsimile and electronically, if possible) to PG&E at the address shown below on the same date it is mailed or delivered to the Commission:

David T. Kraska
Attorney, Law Department
Pacific Gas and Electric Company

E-Mail: PGETariffs@pge.com

Persons or groups may protest the proposed construction if they believe that the Company has incorrectly applied for an exemption or that the conditions set out in Section III.B.2 of G.O. 131-D exist.

Effective Date

The Company requests that this advice filing become effective on **June 26, 2009**, which is 30 days after the date of filing. (In accordance with G.O. 131-D, construction will not begin until 45 days after notice is first published.)

Notice

In accordance with G.O. 96-B, Section IV, a copy of this advice letter is being sent electronically and via U.S. mail to parties shown on the attached list, including the parties listed in G.O. 131-D, Section XI, Paragraphs B.1 and B.2. These parties are identified in the "Notice Distribution List" included in Attachment I. Address change requests should be directed to Rose de la Torre at (415) 973-4716. Advice letter filings can also be accessed electronically at <http://www.pge.com/tariffs>.

NOTICE OF PROPOSED CONSTRUCTION

PROJECT NAME: PARADISE-BUTTE 115kV WILDFIRE RELIABILITY PROJECT, COUNTY OF BUTTE
ADVICE LETTER NUMBER: 3462-E

Proposed Project: In order to provide reliable transmission service and to reduce the risk of outages in its service area, Pacific Gas and Electric Company (PG&E) proposes to replace existing wood poles with light-duty, self-weathering steel poles (replacement of existing facilities) along approximately 2.8 miles of its existing Paradise-Butte 115kV power line (existing easement) in Butte County. The project is located between Paradise and Chico, to the south of the Skyway. This segment of power line is located in rural woodland habitat that has been historically plagued by wildfires and most recently was decimated by the 2008 Humboldt Fire that threatened the community of Paradise. Existing wires (conductor) will also be replaced with conductor meeting current standards and to eliminate splice weaknesses (resulting from past wildfire outages) in the existing conductor along this section. Approximately 34 wood poles will be replaced by light-duty steel poles; of these, 32 will be approximately 5-10 feet taller than existing and 2 will be up to 20 feet taller than existing to provide required line clearance over roadways, other power lines, and ground/vegetation along the pole line. Construction is scheduled to begin in July 2009, or as soon as possible thereafter, with work expected to be completed by December 2009, or as soon as possible after project initiation.

Exemption from CPUC Permit Requirement: CPUC General Order 131-D, Section III.B.1, exempts projects meeting specific conditions from the CPUC's requirement to file an application requesting authority to construct. Pacific Gas and Electric Company believes this project qualifies for the following exemption(s):

- b. the replacement of existing power line facilities or supporting structures with equivalent facilities or structures.
- g. power line facilities or substations to be located in an existing franchise, road-widening setback easement, or public utility easement; or in a utility corridor designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies for which a final Negative Declaration or EIR finds no significant unavoidable environmental impacts.

Public Review Process: Persons or groups may protest the proposed construction if they believe that Pacific Gas and Electric Company has incorrectly applied for an exemption or that the conditions set out in Section III.B.2 of General Order 131-D exist;

- a. There is reasonable possibility that the activity may have an impact on an environmental resource of hazardous or critical concern where designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies; or
- b. The cumulative impact of successive projects of the same type in the same place, over time, is significant; or
- c. There is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

Protests should include the following:

- 1. Your name, mailing address and daytime telephone number.
- 2. Reference to the CPUC Advice Letter Number and Project Name.
- 3. A clear description of the reason for the protest.
- 4. Whether you believe that evidentiary hearings are necessary to resolve factual disputes.

Protests for this project must be filed by June 16, 2009, at the following address:

CPUC Energy Division
 Attn: Tariff Unit, 4th Floor
 California Public Utilities Commission
 505 Van Ness Avenue
 San Francisco, California 94102

With a copy mailed to:

David Kraska, Law Department
 Pacific Gas and Electric Company
 P.O. Box 7442
 San Francisco, California 94120

Pacific Gas and Electric Company must respond within five business days of receipt and serve copies of its response on each protestant and the Energy Division. Within 30 days after Pacific Gas and Electric Company has submitted its response, the Executive Director of the CPUC will send you a copy of an Executive Resolution granting or denying the request and stating the reasons for the decision.

Assistance in Filing a Protest: For assistance in filing a protest, contact the CPUC Public Advisor in San Francisco at (415) 703-2074 or 1-866-849-8390 (toll-free) or TTY (415) 703-5258 or public.advisor@cpuc.ca.gov.

Additional Project Information: To obtain further information on the proposed project, please call Pacific Gas and Electric Company's Project Information Line at (415) 973-5530.
