Advice 3073-G/3580-E

Pacific Gas and Electric Company (U 39-M)

Public Utilities Commission of the State of California

Subject: Credit/Debit Card Payment Option

Purpose

The purpose of this filing is to request California Public Utilities Commission's (Commission) approval to expand the venues for gas and electric bill payments through the use of authorized third-party bill payment kiosks for gas and electric bill payments by credit cards and debit cards. Attachment 1 provides revisions to Gas and Electric Rules 9.

Background

Pacific Gas & Electric Company's (PG&E) current transaction convenience fee-based credit/debit card payment option for residential customers has been in place since late 2008. Under this option, residential customers continue to receive their energy bills either by mail or through paperless billing through their e-mail, but can enjoy the convenience of paying their gas and electric bill by telephone or via the web using an authorized credit card or debit card. The customer transactions are managed by an independent third-party service provider that are authorized by PG&E to accept gas and electric bill payments by credit card and debit cards via the web and telephone and to charge a transaction convenience fee for payments under the option.

With customer acceptance of its current credit card and debit card payment option, PG&E is proposing to expand the venues for gas and electric bill payment by allowing the use of authorized third-party bill payment kiosks for gas and electric bill payments by credit cards and debit cards. PG&E currently has Self-Service Bill Payment Kiosks in seventeen of our Customer Services offices, and maintains another fifty Multi-Biller Bill Payment Kiosks that are located in neighborhood businesses that have extended hours and provide the customer with a receipt.

In addition, PG&E is proposing a pilot program to allow the use of PG&E-specific prepaid payment cards (PG&E Gift Card). This pilot PG&E Gift Card program will

be implemented through PG&E's current independent third-party service provider and Walgreens stores. As with the credit card and debit card payment option, customers will be advised: 1) there is a transaction convenience fee charged by the service provider for card payments, and 2) the amount of the transaction convenience fee. Customers, their families, friends and third parties, such as charitable organizations, will be able to purchase PG&E Gift Cards in preset amounts and the recipient can use the PG&E Gift Card to make payments on their gas and electric bills at all Walgreens stores within PG&E's service area. As with the credit card and debit card payment option, the customer will pay a transaction convenience fee to the third-party service provider. This transaction fee is negotiated by PG&E with the third-party service providers and is currently \$1.45 per transaction for credit cards and debit cards, and \$2.00 per transaction for gift cards.

Bill payments and convenience fee payments are collected by a third-party service provider. The third-party service provider is required through a written agreement with PG&E to employ stringent consumer protections. These protections ensure the consumers are well informed about the service they are using, protect customers from various forms of fraud, provide adequate access to customer service support and provide a level of confidence their information is being kept strictly confidential. PG&E neither has access to, nor stores the customer's credit card, debit card, or prepaid payment card information. As with all vendors who have access to customer information, PG&E requires the service provider to strictly maintain confidentiality of customer information, and has established and maintained procedures to safeguard that information.

This filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any rate schedule or rule.

Tariff Changes

PG&E is revising its Electric and Gas Rules 9 – Rendering and Payment of Bills, in order to expand the use of credit and debit card payments to bill payment kiosks and to pilot the use of a PG&E specific prepaid payment card (gift card). Specific changes made to gas and electric Rules 9 are:

1. Rule 9, Section E.3 has been revised to incorporate a reference to a "prepaid payment card (PG&E Gift Card)" option. The revised Section now reads (bold emphasis added):

*"Debit card, at the option of PG&E, **prepaid purchase card (PG&E Gift Card)**, or an electronic funds transfer the customer initiates through a third party (A transfer or transaction fee over and above the PG&E bill amount may be charged to the customer by a third-party vendor for these services), or"*

2. Rule 9, Section E.4 has been revised to incorporate bill payments made by credit card and debit card through the use of a bill payment kiosk and by gift cards through an authorized gift card merchant. The revised Section now reads (bold emphasis added):

*“Debit card, credit card, or **PG&E Gift Card** payment(s) where the customer initiates through a third party (A transfer or transaction fee over and above the PG&E bill amount may be charged to the customer by a third-party vendor for these services). These services are available through a third party operated pay-by-phone service, **authorized bill payment kiosk, authorized gift card merchant or PG&E online. PG&E Gift Cards may be used for a one-time payment through an authorized gift card merchant.** The debit card and credit card options include **a one-time payment option through authorized bill payment kiosks, and both a one-time payment and a recurring billing payment option through a pay-by-phone service or PG&E online.** The recurring payment option is contingent upon the PG&E customer submitting and maintaining a valid email address and expressly agreeing via email to the suppression of all future paper bills in a manner consistent with the requirements of Rule 9 (L), or”*

This proposal complies with Public Utilities Code Sections 1748.1 and 755 and all other applicable California law.
