Advice 3602-E

(Pacific Gas and Electric Company ID U 39 E)

Public Utilities Commission of the State of California

Subject: New PG&E Form 79-1113, Agreement to Perform Tariff Schedule Related Work, Electric Rule 20A (Replacement of Overhead with Underground Electric Facilities) - Electric Panel Service Conversions

Pacific Gas and Electric Company (PG&E) hereby submits for filing a new form to memorialize Applicant and Company agreements for Electric Rule 20A electric panel service conversion work.

Purpose

Under the provisions of Electric Rule 20A, PG&E will, at its own expense, replace its existing overhead electric facilities with underground electric facilities along public streets and roads in addition to public lands and private property contingent upon procurement of appropriate right-of-ways by PG&E.

In early 2009, PG&E reviewed its business processes in support of Electric Rule 20A and determined that a contract to memorialize the responsibilities of both Applicant and Company with regard to electric panel service conversions was needed for Electric Rule 20A jobs. Given the complexity and duration of Electric Rule 20A jobs, the contract would be instrumental in resolving any issues involving responsibilities associated with the electric panel service conversion work.

PG&E proposes to use the new contract exclusively for Electric Rule 20A jobs.
