Advice 3620-E-A
(Pacific Gas and Electric Company ID U39 E)

Public Utilities Commission of the State of California

Subject: Supplemental Filing for the Contracts for Procurement of Renewable Energy Resulting from Power Purchase Agreements between Halkirk I Wind Project LP, Blackspring Ridge IA Wind Project LP, and Blackspring Ridge IB Wind Project LP (all affiliates of Greengate Power Corporation) and Pacific Gas and Electric Company

Pacific Gas and Electric Company (“PG&E”) hereby submits to the California Public Utilities Commission (“Commission” or “CPUC”) a supplemental filing for Advice 3620-E (“Advice Letter”), dated February 22, 2010.¹ The Advice Letter submitted three power purchase agreements (“PPAs”) between PG&E and Halkirk I Wind Project LP (“Halkirk I”), Blackspring Ridge IA Wind Project LP (“Blackspring Ridge IA”), and Blackspring Ridge IB Wind Project LP (“Blackspring Ridge IB”) (collectively, the “Projects”), all affiliates of Greengate Power Corporation (“Greengate”) for CPUC review and approval. The PPAs provide for PG&E’s purchase of a total of 450 megawatts (“MW”), or an average of approximately 1,400 gigawatt hours (“GWh”) per year, for 20 years, of energy eligible for the California Renewables Portfolio Standard (“RPS”). The Advice Letter is currently pending approval by the Commission.

The purpose of this supplement is to obtain CPUC approval of the amendments to the PPAs between PG&E and each of the affiliates of Greengate (the “Amendments”) and to provide the supplemental information required by Decision (“D.”) 10-03-021. The Amendments comprise only changes necessary to incorporate the Commission’s new standard terms and conditions set forth in Ordering Paragraphs 35 and 36 of D.10-03-021. These Amendments are included in Appendices A1, A2, and A3. The utility must

¹ Supplements to Advice Letters are authorized by General Order 96-B, section 7.5.1. Due to the limited scope of PG&E’s supplemental information, this filing should not reopen the protest period or delay the effective date of the advice letter.

also provide supplemental information, as set forth in Ordering Paragraph 32 of the Decision. This information is included in Confidential Appendix B.

PG&E is aware that a proposed decision staying D.10-03-021 is currently before the Commission. PG&E makes this supplemental filing in compliance with D.10-03-021 at this time nonetheless to avoid delaying the effective date of the Advice Letter and risking potentially losing the benefits of these transactions. PG&E originally requested an approval date of June 3, 2010, as justified in Confidential Appendix D to the Advice Letter. The status of D.10-03-021 should not delay the effective date of the Advice Letter and this Supplement. These Amendments and the supplemental information are provided in order to comply with D.10-03-021, but they do not affect the beneficial nature of the original transactions, which are authorized whether or not D.10-03-021 is in effect.

Compliance with Ordering Paragraphs 35 and 36 of D.10-03-021

On March 16, 2010, the Commission issued D.10-03-021, which authorized the use of Renewable Energy Credits (“RECs”) to comply with California’s RPS policies. D.10-03-021 set forth new standard terms and conditions to be incorporated into agreements that involve the purchase of RPS-eligible energy and that involve REC-only transactions. D.10-03-021 defines bundled transactions as any transactions where the RPS-eligible generator’s first point of interconnection with the Western Electricity Coordinating Council (WECC) interconnected transmission system is with a California balancing authority; or the RPS-eligible energy from the transaction is dynamically transferred to a California balancing authority.² All other transactions are considered REC-only transactions.

Pursuant to the PPAs, PG&E will procure energy from RPS-eligible facilities that are located in Alberta, Canada. Therefore, the Projects’ first point of interconnection with WECC is not with a California balancing authority. In addition, the energy from the transaction will not be dynamically transferred to a California balancing authority. Thus, as defined by D.10-03-021, the PPAs are REC-only transactions for purposes of RPS compliance and must comply with the additional filing requirements of D.10-03-021.

With the Amendments, the PPAs contain provisions that conform exactly to the “non-modifiable” terms set forth in D.10-03-021 and in previous decisions (although not

required by D.10-03-021), including D.07-11-025, D.08-04-009, and D.08-08-028.³ These terms may be found on the following pages of the PPAs and Amendments.

Compliance with Ordering Paragraph 32 of D.10-03-021

D.10-03-021 established a temporary price cap of \$50/tradable REC (“TREC”).⁴ For REC-only contracts that provide a combined price for both RECs and energy, a REC price must be calculated to compare to the TREC price cap to determine if the REC may be used for RPS compliance. As set forth in Advice 3620-E, under the PPAs, PG&E will purchase energy and Green Attributes at the Projects’ busbars and then immediately and continuously resell the energy and capacity back to Greengate at each of the Projects’ busbars while retaining Green Attributes for its own use. Therefore, under the PPAs, the prices of the Green Attributes constitute the REC prices. Though the actual price information for the PPAs is confidential, market sensitive information, as shown in Confidential Appendix A to the Advice Letter, the REC prices for the Projects are below the temporary price cap.

D.10-03-021 also established a temporary cap on the amount of TRECs that load serving entities may use towards RPS compliance.⁵ Specifically, a utility may meet no more than 25% of its annual procurement target (“APT”) with TRECs. D.10-03-021 does not, however, prohibit a utility from procuring TRECs in a quantity above 25% of its annual RPS procurement obligations. To the contrary, D.10-03-021 explicitly allows a utility to procure TRECs in excess of the 25% limit: If an IOU exceeds the 25% limit in any given year, the IOU may carry forward the deliveries to a year in which the limit is not

⁴ The TREC price cap will sunset December 31, 2011, unless the Commission acts to extend it. See D.10-03-021, Ordering Paragraph 21.

⁵ The TREC usage limit cap will sunset December 31, 2011, unless the Commission acts to extend it.

exceeded. In addition, there is no limitation on the number of years for which excess TRECs may be carried forward. Therefore, even if the TRECs procured through the PPAs exceed the 25% limit for any single year, PG&E may count the generation from the Projects towards its RPS compliance in any year PG&E has not already met or exceeded its TREC usage limit.

In addition, in order to allow the Commission to develop a report on the TREC market and place of TRECs in RPS compliance, D.10-03-021 requires utilities to include specific information in advice letters seeking approval of REC-only transactions.⁶ In compliance with D.10-03-021, PG&E submits Confidential Appendix B, which presents the information required in REC-only advice letter filings set forth in Ordering Paragraph 32 of D.10-03-021.

PG&E requests that this supplemental filing become effective concurrent with Advice Letter 3620-E.

**DECLARATION OF GARRETT P. JEUNG
SEEKING CONFIDENTIAL TREATMENT
FOR CERTAIN DATA AND INFORMATION CONTAINED IN
SUPPLEMENTAL FILING 3620-E-A
(PACIFIC GAS AND ELECTRIC COMPANY - U 39 E)**

I, Garrett P. Jeung, declare:

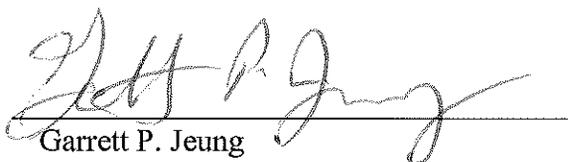

1. I am presently employed by Pacific Gas and Electric Company ("PG&E"), and have been an employee at PG&E since 2003. My current title is Senior Director within PG&E's Energy Procurement organization. In this position, my responsibilities include managing a department that negotiates power purchase agreements and manages electric portfolio risk. In carrying out these responsibilities, I have acquired knowledge of PG&E's contracts with numerous counterparties and have also gained knowledge of the operations of electricity sellers in general. Through this experience, I have become familiar with the type of information that would affect the negotiating positions of electricity sellers with respect to price and other terms, as well as with the type of information that such sellers consider confidential and proprietary.

2. Based on my knowledge and experience, and in accordance with Decision ("D.") 08-04-023 and the August 22, 2006 "Administrative law Judge's Ruling Clarifying Interim Procedures for Complying with Decision 06-06-066," I make this declaration seeking confidential treatment of Appendix B to Supplemental Filing 3620-E-A, submitted on May 5, 2010. Through the Supplemental Filing, PG&E updates information contained in Advice Letter 3620-E, which seeks the Commission's approval of three power purchase agreements ("PPA") that PG&E has executed with Halkirk I Wind Project LP ("Halkirk I"), Blackspring Ridge IA Wind Project LP ("Blackspring Ridge IA"), and Blackspring Ridge IB Wind Project LP ("Blackspring Ridge IB") (collectively, the "Projects"), all affiliates of Greengate Power

Corporation (“Greengate”). Confidential Appendix B contains the supplemental information required by Decision (“D.”)10-03-021.

3. Attached to this declaration is a matrix identifying the data and information for which PG&E is seeking confidential treatment. The matrix specifies that the material PG&E is seeking to protect constitutes the particular type of data and information listed in Appendix 1 of D.06-06-066 and Appendix C of D.08-04-023 (the “IOU Matrix”), or constitutes information that should be protected under General Order 66-C. The matrix also specifies the category or categories in the IOU Matrix to which the data and information corresponds, if applicable, and why confidential protection is justified. Finally, the matrix specifies that: (1) PG&E is complying with the limitations specified in the IOU Matrix for that type of data or information, if applicable; (2) the information is not already public; and (3) the data cannot be aggregated, redacted, summarized or otherwise protected in a way that allows partial disclosure. By this reference, I am incorporating into this declaration all of the explanatory text in the attached matrix.

I declare under penalty of perjury, under the laws of the State of California, that to the best of my knowledge, the foregoing is true and correct. Executed on May 5, 2010 at San Francisco, California.
