**Advice 3760-E**

(Pacific Gas and Electric Company ID U 39 E)

Public Utilities Commission of the State of California

**Subject: Schedule AG-ICE 1.5 Percent Annual Escalation in Compliance with D.05-06-016**

Pacific Gas and Electric Company (PG&E) hereby submits for filing proposed revisions to Schedule AG-ICE – *Agricultural Internal Combustion Engine Conversion Incentive Rate*. PG&E proposes to revise Schedule AG-ICE unbundled rate components to comply with the 1.5 percent annual increase to Schedule AG-ICE total average rates adopted in Decision (D.) 05-06-016. The affected tariff sheets in draft form are listed on the enclosed Attachment I.

**Purpose**

Conclusion of Law No. 2 of D.05-06-016 states the following:

“2. The provision in the Joint Settlement that the initial rate of \$0.07539 per kWh shall escalate at a rate of 1.5% per year during the 10 years these incentive rates are in effect, is reasonable and should be approved.” (D.05-06-016, page 38.)

Accordingly, the purpose of this filing is to request the California Public Utilities Commission’s (Commission) approval to revise the unbundled generation components of Schedule AG-ICE total rates to comply with D.05-06-016. PG&E proposes no revision to the unbundled distribution components of Schedule AG-ICE.

Schedule AG-ICE first took effect on August 1, 2005. Since that time, PG&E has used generation energy charge revisions to maintain constant total rates throughout the calendar year, and generation energy and demand charge revisions to achieve the 1.5 percent annual escalation on January 1.<sup>1</sup> On January 1, 2011, PG&E proposes to use generation energy and demand charge revisions to achieve the Schedule AG-ICE 1.5 percent annual escalation. PG&E first used

---

<sup>1</sup> Advice 2738-E and 2738-E-A were approved by the Commission to establish the 1.5 percent annual increase to total Schedule AG-ICE rates on January 1, 2006. Advice 2933-E and 2933-E-A were approved effective January 1, 2007. Advice 3155-E and 3155-E-A were approved effective January 1, 2008. Advice 3361-E and 3361-E-A were approved effective January 1, 2009. Advice 3556-E and 3556-E-A were approved effective January 1, 2010.

generation demand charge revisions on January 1, 2009, and proposes to again focus on increasing generation demand charges on January 1, 2011. This will gradually increase Schedule AG-ICE demand charges toward the levels in otherwise applicable agricultural rates, to help avoid demand charge sticker shock when Schedule AG-ICE expires December 31, 2015.

For dates other than January 1, PG&E will continue to exclusively use only generation energy charge revisions to maintain constant total Schedule AG-ICE rates throughout the calendar year. Consistent with current practice, PG&E will revise all Schedule AG-ICE non-generation and non-distribution component rates to match corresponding levels and mid-year rate changes on Schedule AG-5B, simultaneously revising only the Schedule AG-ICE generation energy charges to maintain constant total rates.

On January 1 of each subsequent year, PG&E wishes to preserve the flexibility to achieve the 1.5 percent annual increase through either distribution or generation demand charge or energy charge component revisions, or through some combination thereof, as appropriate after non-generation and non-distribution revisions are considered.

### **Tariff Revisions**

Attachment I reflects the illustrative draft proposed January 1, 2011, revisions to Electric Schedule AG-ICE rate components. Schedule AG-ICE non-generation and non-distribution rate components reflect those filed for Schedule AG-5B in Table 4 on September 1, 2010 in PG&E's Annual Electric True-Up (AET) Advice 3727-E for rates effective January 1, 2011. Schedule AG-ICE distribution rate components remain at current levels, generation demand charges are set at proposed levels, and generation energy charges are revised on a residual basis as needed to achieve the mandated 1.5 percent escalation in the total annual average rate for Schedule AG-ICE.

The attached Schedule AG-ICE rate changes are not the final result, and therefore are provided in draft form. PG&E will supplement this Schedule AG-ICE advice letter to reflect the update of the AET advice letter scheduled to be filed before the end of the year. Specifically, this advice letter will be supplemented to reflect final AET Schedule AG-5B non-generation and non-distribution energy charge revisions, and to finalize the offsetting revisions to the unbundled generation demand and energy charges necessary to yield the mandated 1.5 percent Schedule AG-ICE total average rate increase.

### **Protests**

Anyone wishing to protest this filing may do so by sending a letter by Thursday **December 2, 2010**, which is 20 days from the date of this filing. The protest must state the grounds upon which it is based, including such items as financial and

service impact, and should be submitted expeditiously. Protests should be mailed to:
