Advice 3912-E-A

(Pacific Gas and Electric Company ID U 39 E)

Public Utilities Commission of the State of California

**Subject: Supplemental: Rule 18 Revisions in Compliance With Resolution
E-4419**

Purpose

The purpose of this supplemental advice letter is to ensure that Pacific Gas and Electric Company's (PG&E) Electric Rule 18 – *Supply to Separate Premises and Submetering of Electric Energy*, is in compliance with Ordering Paragraph (OP) 4 of the California Public Utilities Commission (CPUC or Commission) Resolution E-4419. PG&E would like to submit the attached Electric Rule 18 revisions for Commission approval.

Background

On November 19, 2011, Southern California Edison (SCE) filed interim tariff changes to implement provisions of Decision (D.) 10-07-044 (Decision in Phase 1 of the Commission's Plug-In Electric Vehicle Rulemaking R.09-08-009).

On September 8, 2011, the Commission issued Resolution E-4419 approving in part and denying in part SCE's proposed tariff changes as filed in Advice Letter 2528-E. The Resolution approved a narrower revision to SCE's existing Rule 18.

In Resolution E-4419, OP 4, the Commission also directed PG&E to file a Tier 1 advice letter "requesting similar revisions to...Rule 18..." within 30 days of the effective date of the Resolution.

On September 26, 2011, PG&E filed Advice 3912-E in compliance with OP 4 of CPUC Resolution E-4419. In Advice 3912-E, PG&E stated:

"PG&E's Electric Rule 18 is dissimilar to SCE's Electric Rule 18 in that it does not currently contain the language found at the beginning of SCE's Electric Rule 18 Section E:

"Use by Others. A customer shall not charge for electricity received from SCE and used by another person, except..."

Because PG&E's tariff is constructed such that there is no express prohibition (with certain exceptions) on a customer charging for electricity received from PG&E and used by another person, PG&E believes that PG&E's existing Rule 18 is in compliance with Resolution E-4419 and therefore no changes are necessary."

On August 29, 2014, PG&E and CPUC staff held a conference call to discuss further revisions to PG&E's Electric Rule 18. Based on the discussion, PG&E proposes to further revise Electric Rule 18 in compliance with Commission Resolution E-4419 and proposes to use Public Utilities Code 216(i) as the basis for the tariff revision.

Tariff Revision

Add Section 6 (Electric Vehicles) to Electric Rule 18.C (Furnishing and Metering of Electricity):

6. Electric Vehicles

As provided by Public Utilities Code Section 216(i), a customer who owns, controls, operates or manages a facility that supplies electricity to the public only for use to charge light duty plug-in electric vehicles is not a public utility and therefore may resell electricity without regard to this Rule. Such resale of electricity for electric vehicle charging does not affect the Commission's authority under Public Utilities Code Sections 454, 740.2, or any other applicable statute.

The filing would not increase any current rate or charge, cause the withdrawal of service, or conflict with any rate schedule or rule.
