**Subject: Revised Customer Energy Statement (RCES) Formats in Compliance with
Decision 12-03-015**

Dear Mr. Cherry:

PG&E Advice Letter 3304-G/4052-E, and Supplemental Advice Letters 3304-G-A/4052-E-A, and 3304-G-B/4052-E-B are approved and effective August 30, 2012. The Protest of DRA is dismissed on technical grounds in accordance with General Order 96-B, Section 7.6.1.

PG&E filed PG&E Advice Letter 3304-G/4052-E on June 1, 2012. The advice letter was protested by DRA on June 20, 2012. PG&E filed a reply to the protest on June 28, 2012. On June 30, 2012, the Energy Division suspended PG&E Advice Letter 3304-G/4052-E to allow further review. Subsequently, PG&E agreed in writing to extend the suspension period until December 30, 2012. PG&E filed Supplemental Advice Letters 3304-G-A/4052-E-A, and 3304-G-B/4052-E-B on November 30, 2012, and December 14, 2012 respectively.

Energy Division Requested Changes to the RCES

PG&E and the Energy Division met and conferred over email and phone several times during the suspension period to discuss changes to the Revised Customer Energy Statement (RCES) requested by Energy Division. The two supplemental advice letters filed by PG&E address the issues of concern to the Energy Division. Details of the changes made in conformance with Energy Division review are found on pages 2-4 of Supplemental Advice Letter 3304-G-A/4052-E-A and on pages 1-2 of Supplemental Advice Letter 3304-G-B/4052-E-B.

Additional PG&E Proposed Changes to the RCES

PG&E made other changes to the RCES on its own initiative that Energy Division now approves. Details of these changes are found on pages 4-6 of Supplemental Advice Letter 3304-G-A/4052-E-A. The Energy Division approves these changes including:

Revised Energy Statement Format 18 for Direct Access (DA), Community Choice Aggregation (CCA) and gas Core Transport Agent (CTA) customers.

For DA, CCA and CTA Energy Statements, PG&E is proposing to revise the Details of Electric and Gas Delivery Charges to present the bill at the bundled delivery rate and explicitly subtract the electric generation or gas procurement charges (shown as a “generation credit” in the case of the electric bill) to arrive at the total PG&E delivery charges¹. PG&E has affirmed that DA/CCA customers prefer this presentation through quantitative research². PG&E believes this presentation makes clear that the customer is not being double-charged for electric generation or gas procurement by PG&E and his/her third-party supplier as the PG&E generation/gas procurement charge is identified as being subtracted out of the PG&E portion of the bill.

The revised Details of Electric Delivery Charges include the line items in the following sample:

07/01/2012 - 07/09/2012		Your Tier Usage			
		1	2	3	4
Tier 1 Allowance	99.00 kWh	(9 days x 11.0 kWh/day)			
Tier 1 Usage	99.000000 kWh	@	\$ 0.12845		\$ 12.72
Tier 2 Usage	29.700000 kWh	@	\$ 0.14602		4.34
Tier 3 Usage	69.300000 kWh	@	\$ 0.29561		20.49
Tier 4 Usage	213.750000 kWh	@	\$ 0.33561		71.74
Generation Credit				-	29.14
Power Charge Indifference Adjustment					2.71
Cost Responsibility Surcharge Exemption					0.00
Franchise Fee Surcharge					0.21
Total Electric Delivery Charges					\$83.07

2009 Vintaged Power Charge Indifference Adjustment

¹ The originally filed format used a delivery rate unbundled from electric generation or gas procurement. (PG&E Advice 3304-G/4052-E file June 1, 2012)

² See email dated September 27, 2012 from Sid Dietz of PG&E to CPUC Energy Division Director Ed Randolph stating that MEA had agreed to the new proposed bill presentment for CCA customers. See also email dated September 18, 2012 from Sid Dietz of PG&E to CPUC Energy Division Director Ed Randolph in which PG&E shared the quantitative research results comparing customer reaction to the two bill presentments. The research results confirm that CCA/DA customers prefer the bill format that shows the bundled delivery rate followed by a line item generation credit.

Withdrawal of Format 9 for Low Vision Customers

PG&E wishes to withdraw format 9, which presented a Low Vision format that excludes certain information in order to present more information in large font. The Low Vision format would have been available for customers on E1 and/or G1 rate schedules. Only low vision customers on other rate schedules or enrolled in payment programs such as Balanced Payment Plans would have received enlarged copies of their full energy statements³. After discussion with the Center for Accessible Technology, PG&E has agreed that all customers requesting Low Vision format will receive enlarged copies of their full energy statements⁴.

Protest of DRA

In DRA's protest to Advice Letter 3304-G/4052-E, DRA argues that PG&E should display the actual CARE gas and electric rates in the Details of Charges sections of the energy statements sent to CARE customers rather than PG&E's proposal to display the non-CARE gas and electric rates and the CARE discount as line item discounts to bill calculation in the Details of Charges.

DRA asserts that PG&E's proposed presentation of the non-CARE rate in the Details of Charges "makes it significantly more difficult for low-income and price sensitive customers to determine their per-unit charges, and thus use their bills as a meaningful tool to control energy costs." (Protest page 1) DRA argues that PG&E's bill format "will be misleading and unnecessarily alarming for low-income customers." (Protest page 2)

Reply of PG&E

In their reply to DRA's protest PG&E notes that the actual per-unit CARE rates are displayed in the bill message section directly to the right of the Details of Charges making it possible for the customer to compare the CARE and non-CARE rates. In addition the RCES provides customers with a graph of their daily usage during the billing period, and a visual representation of their tier as well as a definition of the Tier 1 (baseline) allowance. Therefore, PG&E believes the combination of the CARE-specific presentment and other general improvements to all RCES formats support the ability of residential CARE customers to control their energy costs. PG&E also cites customer research it conducted on the presentment of CARE energy statements with CARE customers to support its design of the RCES and states that DRA has not offered customer research or survey data to support its position. (Reply page 2)

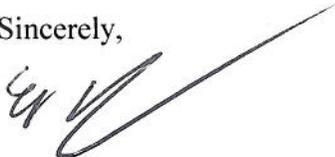

³ See footnote 2 on page 3 of the original Advice Letter.

⁴ PG&E performed customer research on the standard and Low Vision energy statements with low vision customers in January 2012. The research found that both more moderately and extremely impaired respondents prefer the standard prototype bill to the low-vision version.

Energy Division Disposition of the Protest

The Energy Division finds that customers would be better served by the CARE presentment proposed by PG&E rather than the format favored by DRA. The PG&E format better informs CARE customers by enabling them to understand what their actual per-unit CARE rate is, what CARE discount they receive, and what the non-CARE rate would be if they were not in the CARE program. An additional benefit of showing the non-CARE rate is that customers can easily see the consequence of failing to renew their CARE status by the date shown above the bill calculation—both in terms of the discount amount that would be lost and the higher non-CARE rates that would apply. This is particularly true for CARE customers whose electric Tier 4 usage is being billed at a Tier 3 CARE rate. DRA's proposed presentation would not provide CARE customers in Tier 4 with the Tier 4 usage needed to calculate their savings. Therefore, presenting the non-CARE rate is neither "irrelevant" nor misleading as DRA asserts. (Protest page 1, and 2) The protest of DRA is dismissed on technical grounds.

Sincerely,

Edward Randolph
Director, Energy Division

Advice 3304-G-A/4052-E-A

(Pacific Gas and Electric Company ID U 39 /M)

Public Utilities Commission of the State of California

**Subject: Supplemental: Revised Customer Energy Statement (RCES) Formats
in Compliance with Decision 12-03-015**

This supplemental advice letter is being submitted to update the Forms previously submitted in Attachment 1, revise Energy Statement Format 18 for Direct Access (DA), Community Choice Aggregation (CCA) and gas Core Transport Agent (CTA) customers, and withdraw Format 9 for Low Vision customers. For the ease of the reviewers, Pacific Gas and Electric Company (PG&E) is replacing Attachment 1 of Advice 3304-G/4052-E in its entirety. The affected pages of the Revised Attachment 1 are described below. While Attachment 4 is not being replaced, the production of Energy Statements presented in Attachment 4 will conform to the changes described below and presented in Revised Attachment 1 herein.

Purpose

On June 1, 2012, PG&E filed Tier 2 Advice 3304-G/4052-E for approval of its revised customer energy statement forms in accordance with Ordering Paragraph (OP) 5 of Decision (D.) 12-03-015 Phase 3 of General Rate Case (GRC) A.10-03-014. The Advice Letter also followed the guidance provided by the California Public Utilities Commission (CPUC or Commission) in OP 10 of D.07-07-047.

This supplemental advice letter is being submitted to revise the presentation in conformance with the review by the Energy Division of the CPUC. In addition, PG&E is revising the "Details of PG&E [Gas or Electric] Delivery Charges" shown on pages three and four of the energy statements for DA/CCA and CTA customers, Format 18 of Attachment 4. PG&E is withdrawing the Low Vision energy statement, Format 9 of Attachment 4.

Revisions

Attachment 1 Forms: Applies to all Formats

PG&E is revising the standard forms included in Attachment 1 to reflect discussions with Energy Division and minor changes resulting from progress toward implementing the RCES project. Following is a description of the specific changes to the sample forms included in Attachment 1.

Page 1

- 1) Additional Savings Alerts will be provided for both residential and non-residential customers.¹ Savings alerts may include, if applicable:
 - Medical baseline
 - CARE
 - FERA
 - Winter Gas Savings
 - Peak Time Rebate²
 - GHG Dividends³
- 2) PG&E will endeavor to enlarge the font sizes in the graphs to improve readability to the extent possible within the same footprint. See the sample graphs in revised Attachment 1.
- 3) “Special Account Information” is now “Your Enrolled Programs”. This section will include the relevant rate discounts, rate riders and programs from the list below.
 - Life Support
 - CARE Discount
 - Medical Baseline
 - FERA Discount
 - REACH Pledge
 - SmartRate™ Pricing Plan
 - Peak Day Pricing Plan
 - SmartMeter™ Opt-Out
 - On Bill Financing
 - Employee Discount

¹ Non-residential customers may be eligible for CARE discounts, Winter Gas Savings, and/or GHG Dividends.

² The Peak Time Rebate (PTR) proposal, currently before the CPUC in A.10-02-028, provides that eligible residential customers either will default to PTR A or may elect PTR B. If adopted, the savings alert on page 1 will show savings from the customer’s PTR program, PTR A or PTR B, as well as the savings alerts listed on page 2-2 of Attachment 2.

³ The policy determining the distribution of GHG Dividends is currently before the Commission in Rulemaking 11-03-012.

- Opt-in Peak Time Rebate (PTR) B, if adopted.

Rate schedule descriptions such as Multi-family or Time-of-use are indicated on the Details of Charges pages.

- 4) PG&E will include a message on Energy Statements at least annually directing customers to My Energy to learn about savings opportunities.

Page 2

PG&E will provide different versions of the BackofBill for residential and non-residential customers.

- 5) On the residential BackofBill, "As you use more energy, you pay more for each tier of usage" is added to the definition of Tier 1 (baseline) allowance.
- 6) Non-residential Energy Statements include definitions of Time of Use (TOU) and Demand Charge. The definition of Tier 1 (baseline) allowance is on residential energy statements only.
- 7) The definition of Electric Cost Recovery Account is no longer required and is deleted.
- 8) The definition of DWR Bond Charges continues to state that the DWR Bond charges are collected on behalf of DWR and do not belong to PG&E. This information is required for the holders of these outstanding bonds.
- 9) The definition of rotating outage blocks is added to Page 2. Previously, the definition of rotating outage blocks was provided as a bill message.
- 10) The line items in "Your Electric Charges Breakdown" are now in a larger font size.

Page 3

- 11) PG&E will endeavor to enlarge the font sizes in the graphs to improve readability to the extent possible within the same footprint. See the sample graphs in revised Attachment 1.
- 12) For residential customers on Time of Use rate schedules, PG&E will run a message at least annually informing customers of how to save on TOU.
- 13) The Baseline Territory code and Heat Source are added to the Service Information section of the Details of Electric Charges page. PG&E will monitor customer response to this new presentation.

Page 4

- 14) The Baseline Territory code is added to the Service Information section of the Details of Gas Charges page.

The formats presented in Attachment 4 of the original advice letter will follow the changes described above. In addition, PG&E will improve the readability of the messages on Page 3 & 4 of CARE Format 2 by:

- 1) Showing the rate for each tier on a separate line;
- 2) Presenting the rates for each billing period, if applicable;
- 3) Displaying the CARE rates each month.

DA/CCA/CTA Format 18

For DA, CCA and CTA Energy Statements, PG&E is proposing changes to pages 1 and 3. The PG&E service phone number on page one of the Energy Statement is dynamic and the CCA format may provide the number which is routed to CCA specialists at PG&E's call centers. On pages 3 and 4, PG&E proposes to revise the Details of Electric and Gas Delivery Charges to present the bill at the bundled rate and explicitly subtract the electric generation or gas procurement charges to arrive at the total PG&E delivery charges. PG&E has affirmed that DA/CCA customers prefer this presentation through quantitative research. This presentation makes clear that the customer is not being double-charged for electric generation or gas procurement by PG&E and his/her third-party supplier as the PG&E generation/gas procurement charge is clearly identified as being subtracted out of the PG&E portion of the bill.⁴ This presentation is consistent with the existing bill presentation for CTA customers and the billing algorithms PG&E currently has in place for DA/CCA and CTA customers.

The revised Details of Electric Delivery Charges include the line items in the following sample⁵:

⁴ This is consistent with the customer preference to see discounts such as CARE and rebates (e.g. Winter Gas Savings) as separate lines subtracted within the bill calculation.

⁵ The originally filed format used a delivery rate unbundled from electric generation or gas procurement.

⁶ See footnote 2 on page 3 of the original Advice Letter.

07/01/2012 - 07/09/2012		Your Tier Usage			
		1	2	3	4
Tier 1 Allowance	99.00 kWh	(9 days x 11.0 kWh/day)			
Tier 1 Usage	99.000000 kWh	@	\$ 0.12845	\$ 12.72	
Tier 2 Usage	29.700000 kWh	@	\$ 0.14602	4.34	
Tier 3 Usage	69.300000 kWh	@	\$ 0.29561	20.49	
Tier 4 Usage	213.750000 kWh	@	\$ 0.33561	71.74	
Generation Credit				-	29.14
Power Charge Indifference Adjustment					2.71
Cost Responsibility Surcharge Exemption					0.00
Franchise Fee Surcharge					0.21
Total Electric Delivery Charges					\$83.07
2009 Vintaged Power Charge Indifference Adjustment					

Low Vision Format 9

PG&E wishes to withdraw format 9, which presented a Low Vision format that excludes certain information in order to present more information in large font. The Low Vision format would have been available for customers on E1 and/or G1 rate schedules. Only low vision customers on other rate schedules or enrolled in payment programs such as Balanced Payment Plans would have received enlarged copies of their full energy statements.⁶ After discussion with the Center for Accessible Technology, PG&E has agreed that all customers requesting Low Vision format will receive enlarged copies of their full energy statements.⁷

Messages

A list of current recurring bill messages is provided as Attachment 6 to this Supplemental Advice letter. For example, residential TOU customers are reminded annually of how to save money by conserving energy during the summer peak periods by message C14A. In addition to the fixed Messages listed, PG&E will add three new messages:

1. A residential general conservation and money saving message.
2. An annual message reminding SmartRate customers of their event notification options.
3. An annual message directing customers to My Energy to learn about savings opportunities.

⁷ PG&E performed customer research on the standard and Low Vision energy statements with low vision customers in January 2012. The research found that both more moderately and extremely impaired respondents prefer the standard prototype bill to the low-vision version.

Tariff Revisions

This Supplemental Advice Letter revises the following Tariff Sheets:

- Gas BackofBill Form
- Electric BackofBill Form
- Gas Form 01-6630
- Electric Form 01-6630

Previously submitted Tariff Sheets for Gas Rule 5, Electric Rule 5, Gas Form 62-0401, and Electric Form 62-0401 remain as originally submitted. For convenience, PG&E is resubmitting Attachment 1 of the original Advice Letter 3304-G/4052-E in its entirety.

Protests

Pursuant to General Order 96-B, Section 7.5.1, PG&E is requesting a shortened protest period and that any new protest be limited to the substance of this Supplemental Advice Letter. Anyone wishing to protest this advice letter may do so by letter sent via U.S. mail, facsimile or E-mail, no later than **December 5, 2012**, which is 5 days after the date of this submission. Protests must be submitted to:

CPUC Energy Division
E D Tariff Unit
505 Van Ness Avenue, 4th Floor
San Francisco, California 94102

Facsimile: (415) 703-2200
E-mail: EDTariffUnit@cpuc.ca.gov

Copies of protests also should be mailed to the attention of the Director, Energy Division, Room 4004, at the address shown above.

The protest shall also be sent to PG&E either via E-mail or U.S. mail (and by facsimile, if possible) at the address shown below on the same date it is mailed or delivered to the Commission:

Brian K. Cherry
Vice President, Regulatory Relations
Pacific Gas and Electric Company
77 Beale Street, Mail Code B10C
P.O. Box 770000
San Francisco, California 94177

Facsimile: (415) 973-7226
E-mail: PGETariffs@pge.com

Any person (including individuals, groups, or organizations) may protest or respond to an advice letter. (General Order 96-B, Section 7.4.) The protest shall contain the following information: specification of the advice letter protested; grounds for the protest; supporting factual information or legal argument; name, telephone number, postal address, and (where appropriate) e-mail address of the protestant; and statement that the protest was sent to the utility no later than the day on which the protest was submitted to the reviewing Industry Division (General Order 96-B, Section 3.11).

Effective Date

PG&E requests that this supplemental Advice Letter 3304-G-A/4052-E-A be approved concurrent with the approval of the original Advice Letter 3304-G/4052-E, as supplemented herein, effective on **August 30, 2012**.

Notice

In accordance with General Order 96-B, Section IV, a copy of this supplemental advice letter is being sent electronically and via U.S. mail to parties shown on the attached list and the parties on the service list for A.10-03-014 and A.06-06-026. Address changes to the General Order 96-B service list should be directed to PG&E at email address PGETariffs@pge.com. For changes to any other service list, please contact the Commission's Process Office at (415) 703-2021 or at Process_Office@cpuc.ca.gov. Send all electronic approvals to PGETariffs@pge.com. Advice letter filings can also be accessed electronically at: <http://www.pge.com/tariffs>

Advice Letter (AL) #: **3304-G-A/4052-E-A**

Tier: **2**

Subject of AL: **Supplemental: Revised Customer Energy Statement (RCES) Formats in Compliance with Decision 12-03-015**

Keywords (choose from CPUC listing): Compliance, Bilingual, Forms, Rules

AL filing type: Monthly Quarterly Annual One-Time Other _____

If AL filed in compliance with a Commission order, indicate relevant Decision/Resolution #: D.12-03-015

Does AL replace a withdrawn or rejected AL? If so, identify the prior AL: No

Summarize differences between the AL and the prior withdrawn or rejected AL: _____

Is AL requesting confidential treatment? If so, what information is the utility seeking confidential treatment for:

Confidential information will be made available to those who have executed a nondisclosure agreement: Yes No

Name(s) and contact information of the person(s) who will provide the nondisclosure agreement and access to the confidential information: _____

Resolution Required? Yes No

Requested effective date: **August 30, 2012**

No. of tariff sheets: 14

Concurrent with Advice 3304-G/4052-E

Estimated system annual revenue effect (%): N/A

Estimated system average rate effect (%): N/A

When rates are affected by AL, include attachment in AL showing average rate effects on customer classes (residential, small commercial, large C/I, agricultural, lighting).

Tariff schedules affected: Gas Rule 5, Gas BackofBill Form, Gas Form 01-6630, Gas Form 62-0401, Electric Rule 5, Electric BackofBill Form, Electric Form 01-6630, Electric Form 62-0401

Service affected and changes proposed: Revise customer energy statement forms

Pending advice letters that revise the same tariff sheets: N/A

Protests, dispositions, and all other correspondence regarding this AL are due no later than 20 days after the date of this filing, unless otherwise authorized by the Commission, and shall be sent to:

Rules and rates

You may be eligible for a lower rate. Find out about optional rates or view a complete list of rules and rates, visit www.pge.com or call 1-800-743-5000.

If you believe there is an error on your bill, email info@pge.com, or call 1-800-743-5000 to speak with a representative. If you are not satisfied with our response, contact the California Public Utilities Commission (CPUC), Consumer Affairs Branch, 505 Van Ness Avenue, San Francisco, CA 94102, 1-800-649-7570 or 415-703-2032 (TDD/TTY).

To avoid having service turned off while you wait for a CPUC decision, enclose a deposit check (payable to the CPUC) for the disputed amount and a description of the dispute. The CPUC will only accept deposits for matters that relate directly to billing accuracy. If it is not possible for you to pay your deposit, you must advise the CPUC. PG&E can not turn off your service for nonpayment while it is under review by the CPUC, however, you must continue to pay your current charges to keep your service turned on.

If you are not able to pay your bill, call PG&E to discuss how we can help. You may qualify for reduced rates under PG&E's CARE program or other special programs and agencies may be available to assist you. You may qualify for PG&E's Energy Savings Assistance Program which is an energy efficiency program for income-qualified residential customers.

Important definitions

Rotating outage blocks are subject to change without advance notice due to operational conditions.

Tier 1 (Baseline) allowance: All residential customers are given a Tier 1 allowance - a CPUC approved percentage of average customer usage during summer and winter months. Your Tier 1 allowance provides for basic needs at an affordable price and encourages conservation. Your allowance is assigned based on the climate where you live (baseline territory), the season and your heat source. As you use more energy, you pay more for each tier of usage.

Electric Tier	% of Baseline
1	0% - 100%
2	101% - 130%
3	131% - 200%
4	> 200%
Gas Tier	% of Baseline
1	0% - 100%
2	> 100%

DWR bond charge: Recovers the cost of bonds issued by the Department of Water Resources (DWR) to purchase power to serve electric customers during the California energy crisis. DWR bond charges are collected on behalf of DWR and do not belong to PG&E.

DWR power charge: Included in generation charges for energy provided by the Department of Water Resources. DWR receives \$0.0875/kWh.

Power Charge Indifference Adjustment (PCIA): Ensures that customers who purchase electricity (generation) from non-PG&E suppliers pay their share of generation costs acquired to serve them prior to their departure, unless otherwise exempt.

Visit: www.pge.com/billexplanation for more definitions.

Rules and rates

You may be eligible for a lower rate. Find out about optional rates or view a complete list of rules and rates, visit www.pge.com or call 1-800-743-5000.

If you believe there is an error on your bill, email info@pge.com, or call 1-800-743-5000 to speak with a representative. If you are not satisfied with our response, contact the California Public Utilities Commission (CPUC), Consumer Affairs Branch, 505 Van Ness Avenue, San Francisco, CA 94102, 1-800-649-7570 or 415-703-2032 (TDD/TTY).

To avoid having service turned off while you wait for a CPUC decision, enclose a deposit check (payable to the CPUC) for the disputed amount and a description of the dispute. The CPUC will only accept deposits for matters that relate directly to billing accuracy. If it is not possible for you to pay your deposit, you must advise the CPUC. PG&E can not turn off your service for nonpayment while it is under review by the CPUC, however, you must continue to pay your current charges to keep your service turned on.

If you are not able to pay your bill, call PG&E to discuss how we can help. You may qualify for reduced rates under PG&E's CARE program or other special programs and agencies may be available to assist you. You may qualify for PG&E's Energy Savings Assistance Program which is an energy efficiency program for income-qualified residential customers.

Important definitions

Rotating outage blocks are subject to change without advance notice due to operational conditions.

Demand charge: Many non-residential rates include a demand charge. Demand is a measurement of the highest usage of electricity in any single fifteen (or sometimes five) minute period during a monthly billing cycle. Demand is measured in kilowatts (or kW). High demand is usually associated with equipment start-up. By spreading equipment start-ups over a longer period of time, you may be able to lower demand and reduce your demand charges.

Time-of-use electric prices are higher on weekdays afternoons and lower at other times of the day. The price you pay also changes by season. Prices are higher in the summer and lower in the winter.

DWR bond charge: Recovers the cost of bonds issued by the Department of Water Resources (DWR) to purchase power to serve electric customers during the California energy crisis. DWR bond charges are collected on behalf of DWR and do not belong to PG&E.

DWR power charge: Included in generation charges for energy provided by the Department of Water Resources. DWR receives \$0.0875/kWh.

Power Charge Indifference Adjustment (PCIA): Ensures that customers who purchase electricity (generation) from non-PG&E suppliers pay their share of generation costs acquired to serve them prior to their departure, unless otherwise exempt.

Visit: www.pge.com/billexplanation for more definitions.

If you are not able to pay your bill, call PG&E to discuss how we can help. You may qualify for reduced rates under PG&E's CARE program or other special programs and agencies may be available to assist you. You may qualify for PG&E's Energy Savings Assistance Program which is an energy efficiency program for income-qualified residential customers.

Important definitions

Rotating outage blocks are subject to change without advance notice due to operational conditions.

Tier 1 (Baseline) allowance: All residential customers are given a Tier 1 allowance - a CPUC approved percentage of average customer usage during summer and winter months. Your Tier 1 allowance provides for basic needs at an affordable price and encourages conservation. Your allowance is assigned based on the climate where you live (baseline territory), the season and your heat source. As you use more energy, you pay more for each tier of usage.

Electric Tier	% of Baseline
1	0% - 100%
2	101% - 130%
3	131% - 200%
4	> 200%
Gas Tier	% of Baseline
1	0% - 100%
2	> 100%

DWR bond charge: Recovers the cost of bonds issued by the Department of Water Resources (DWR) to purchase power to serve electric customers during the California energy crisis. DWR bond charges are collected on behalf of DWR and do not belong to PG&E.

DWR power charge: Included in generation charges for energy provided by the Department of Water Resources. DWR receives \$0.0875/kWh.

Power Charge Indifference Adjustment (PCIA): Ensures that customers who purchase electricity (generation) from non-PG&E suppliers pay their share of generation costs acquired to serve them prior to their departure, unless otherwise exempt.

You may qualify for reduced rates under PG&E's CARE program or other special programs and agencies may be available to assist you. You may qualify for PG&E's Energy Savings Assistance Program which is an energy efficiency program for income-qualified residential customers.

Important definitions

Rotating outage blocks are subject to change without advance notice due to operational conditions.

Demand charge: Many non-residential rates include a demand charge. Demand is a measurement of the highest usage of electricity in any single fifteen (or sometimes five) minute period during a monthly billing cycle. Demand is measured in kilowatts (or kW). High demand is usually associated with equipment start-up. By spreading equipment start-ups over a longer period of time, you may be able to lower demand and reduce your demand charges.

Time-of-use electric prices are higher on weekdays afternoons and lower at other times of the day. The price you pay also changes by season. Prices are higher in the summer and lower in the winter.

DWR bond charge: Recovers the cost of bonds issued by the Department of Water Resources (DWR) to purchase power to serve electric customers during the California energy crisis. DWR bond charges are collected on behalf of DWR and do not belong to PG&E.

DWR power charge: Included in generation charges for energy provided by the Department of Water Resources. DWR receives \$0.0875/kWh.

Power Charge Indifference Adjustment (PCIA): Ensures that customers who purchase electricity (generation) from non-PG&E suppliers pay their share of generation costs acquired to serve them prior to their departure, unless otherwise exempt.

Visit: www.pge.com/billexplanation for more definitions.

Your Electric Charges Breakdown

Conservation Incentive	\$	x.xx
Generation		x.xx
Transmission		x.xx
Distribution		x.xx
Public Purpose Programs		x.xx
Nuclear Decommissioning		x.xx

Rules and rates

You may be eligible for a lower rate. Find out about optional rates or view a complete list of rules and rates, visit www.pge.com or call 1-800-743-5000.

If you believe there is an error on your bill, email info@pge.com, or call 1-800-743-5000 to speak with a representative. If you are not satisfied with our response, contact the California Public Utilities Commission (CPUC), Consumer Affairs Branch, 505 Van Ness Avenue, San Francisco, CA 94102, 1-800-649-7570 or 415-703-2032 (TDD/TYY).

To avoid having service turned off while you wait for a CPUC decision, enclose a deposit check (payable to the CPUC) for the disputed amount and a description

of the dispute. The CPUC will only accept deposits for matters that relate directly to billing accuracy. If it is not possible for you to pay your deposit, you must advise the CPUC. PG&E can not turn off your service for nonpayment while it is under review by the CPUC, however, you must continue to pay your current charges to keep your service turned on.

If you are not able to pay your bill, call PG&E to discuss how we can help. You may qualify for reduced rates under PG&E's CARE program or other special programs and agencies may be available to assist you. You may qualify for PG&E's Energy Savings Assistance Program which is an energy efficiency program for income-qualified residential customers.

The element codes are:

Code	Category	Priority
F	Fixed	2
M	Mandate	3
E	Estimated Usage	4
C	Charge-Related	5
V	Conservation	6

Messages are prioritized first by the element categories above. The Element Code column in the table below includes the element category and the designation of whether the message appears on the first page of the energy statement (code A) or on the Details of Charges pages (code S). Messages are further prioritized within each element code. The Priority column in the table below provides the priority within each category from highest to lowest. Messages may be displayed monthly, quarterly, annually or as triggered by other conditions. These conditions could be changes in service, special program, seasonal crossover, enrollment in E-Bills, or billing matters such as estimated usage, etc.

V17A	Energy Savings	Res	<p>Be winter-wise and conserve energy. The combination of colder weather, more time indoors and fewer daylight hours can increase your energy costs. Health permitting, reduce your furnace thermostat to 68 degrees and save up to 10% on your bill. For more energy savings tips, visit www.pge.com/saveenergymoney.</p>	40	Annual
V04A	Conservation- April/November	All	<p>Planning a digging project?</p> <p>A common cause of pipeline accidents is damage from excavation. If you plan on doing any digging, such as planting a tree or installing a fence, please call 811 before you dig. With one free call to Underground Service Alert (USA) at least 48 hours in advance, 811 will notify nearby underground utility operators of your planned work. PG&E will then mark our underground gas and electric facilities, helping you to plan a safe project. Call 811 before you dig, and know what's below.</p>	30	Annual
