Advice 4055-E

(Pacific Gas and Electric Company ID U 39 E)

Public Utilities Commission of the State of California

Subject: Establish the Virtual Net Energy Metering Site Assessment Fee Memorandum Account**Purpose**

In compliance with Ordering Paragraph (OP) 2 of Resolution E-4481, PG&E proposes to establish the Electric Preliminary Statement, Part FZ - Virtual Net Energy Metering Site Assessment Fee Memorandum Account. The affected tariff sheet is listed on the enclosed Attachment 1.

Background

On April 19, 2012, the Commission issued Resolution E-4481, *Tariffs Compliant with CPUC Decision 11-07-031, O.P. 2, Relating to Expansion of Virtual Net Energy Metering (VNM) to Apply to All Multi-tenant and Multi-meter Properties*. Decision (D.) 11-07-031, OP 2 ordered PG&E, SCE, and SDG&E - known collectively, as the investor-owned utilities (IOUs) to each file Tier 2 advice letters (AL) containing modifications to the Net Energy Metering (NEM) tariffs to allow VNM to apply to all multi-tenant and multi-meter properties, with the limitation that sharing of bill credits can only occur for accounts served by a single service delivery point. In compliance with D-11-07-031,¹ OP 2, PG&E filed AL 3902-E on September 12, 2011². In AL 3902-E, PG&E proposed a \$550 Service Delivery Point and NEMV Arrangement Assessment Charge. PG&E and the other IOU's proposed site assessment fees were protested by the Joint Solar Parties and DRA. In Resolution E-4481, OP 2, the Commission stated:

"We reject the proposed site assessment fees. Utilities shall modify their application forms to collect the necessary technical details from VNM interconnection applications. If after review of the application the IOUs determine a site assessment is essential, the utilities may conduct a site assessment and track the expenses associated with such on-site VNM site assessments for the "complex service configurations" and one year

¹ http://docs.cpuc.ca.gov/word_pdf/FINAL_DECISION/139683.pdf

² PG&E also made two revisions to NEMV in AL 3902-A filed October 11, 2011 and 3902-B on December 20, 2011, but these did not modify the site assessment language contained in AL 3902-E.

from the effective date of this resolution may request recovery of those expenses and/or address the need for and criteria that would trigger a VNM site assessment going forward.”

PG&E believes a site assessment will be required for most NEMV interconnections. Therefore, in compliance with OP 2 of Resolution E-4481, PG&E requests to establish the Virtual Net Energy Metering Site Assessment Fee Memorandum Account. The memorandum account will track expenses associated with conducting an on-site VNM assessment for “complex service configurations” at sites where an assessment is deemed essential. These costs will be recorded and tracked in the memorandum account through April 19, 2013, or as otherwise directed by the Commission.³
