ADVICE 2208-G

Public Utilities Commission of the State of California

Pacific Gas and Electric Company (PG&E) hereby submits for filing revisions to its gas tariffs. The affected tariff sheets are listed on the enclosed Attachment I.

The purpose of this filing is to submit changes to core end-use customer gas rates effective **February 7, 2000**. This filing is submitted in compliance with Decision (D.) 97-10-065, which approved monthly price changes for core gas procurement rates, and also incorporates changes to core rates pursuant to Gas Accord D. 97-08-055 and Biennial Cost Allocation Proceeding (BCAP) D. 98-06-073. In accordance with D. 97-10-065, core gas procurement rates generally change on the 5th business day of the month. However, D. 98-07-025 allows PG&E to change its core procurement rates on the first day of the month when transportation rates change on the first of the month.

PG&E is revising the gas procurement charges shown on core end-use customer Schedules G-1, GM, GS, GT, GL-1, GML, GSL, GTL, G-NR1, G-NR2, G-NGV1, G-NGV2 and G-CP--*Gas Procurement Service to Core End-Use Customers*. The procurement charges shown on Schedule G-CP are for illustrative purposes only and are the same as those shown on the end-use customer schedules. The gas procurement rate varies by rate schedule due to the allocation of capacity charges to the core customer classes.

The Schedule G-CP procurement charges proposed in this filing are shown below:

	Residential (All schedules)	Small Commercial (G-NR1)	Large Commercial (G-NR2)	Natural Gas Vehicles (G-NGV1 & G-NGV2)
Schedule G-CP Procurement Charge (\$/therm)	\$0.31070	\$0.31330	\$0.30009	\$0.31044

The Schedule G-CP rates effective **February 7, 2000**, include:

- a) A monthly core commodity charge of **\$0.24912** per therm, compared to last month's commodity charge of **\$0.24241** per therm. The commodity charge includes backbone transportation charges to the citygate.

- b) A Canadian Capacity Surcharge of **\$0.00071** per therm, as shown on Preliminary Statement, Part B. This rate amortizes the \$1.0 million balance in the core Canadian demand charge subaccount of the Purchased Gas Account (PGA) over six months, as authorized in D. 97-08-055.
- c) An adjustment of **\$0.01493** per therm, which amortizes a \$6.2 million under-collection in the core subaccount of the PGA over one month.
- d) An adjustment of **(\$0.02003)** per therm, which amortizes a \$15.1 million overcollection in the core shrinkage subaccount of the PGA over two months.
- e) An adjustment to the interstate and backbone capacity charges to account for the monthly election of backbone and interstate capacity by Core Transport Agents.

Preliminary Statement, Part B—*Default Tariff Rate Components*, reflects changes to the core procurement components. Workpapers showing the derivation of rates and components in this advice filing can be obtained by writing to the address shown below.

The prices in this filing shall remain in effect until PG&E's next such filing with the CPUC. The current core procurement rates may be obtained by calling PG&E's Gas Rate Hotline at (415) 973-0461, or toll-free at 1-800-343-4743. Prices are also posted at PG&E's World Wide Web site at:
