Advice 2284-G

(Pacific Gas and Electric Company ID U39G)

Public Utilities Commission of the State of California

Subject: January 2001 Noncore Rate Changes

Pacific Gas and Electric Company (the Company) hereby submits for filing revisions to its gas tariffs. The affected tariff sheets are listed on the enclosed Attachment I.

Purpose

The purpose of this filing is to submit monthly changes to gas Schedules G-CSP and G-SUR rates effective **January 1, 2001**. Decision (D.) 97-08-055 dated August 1, 1997, approved new rules for gas procurement and transportation rates in the Company's Gas Accord Settlement.

Schedule G-CSP--*Core Subscription Gas Procurement Service to Noncore End-Use Customers*, provides for combined natural gas procurement and transportation service by PG&E. In accordance with Resolution (R.) G-3211 and D. 97-08-055, the Schedule G-CSP Commodity Charge is based on the higher of the Company's forecasted Core Portfolio Cost of Flowing Supply, plus applicable fees, or an index-based forecasted price based upon a 50/50 weighting of forecasted California border prices for Southwest and Canadian gas, plus applicable fees. The Commodity Charge is a citygate price that includes usage charges on the Company's Backbone Transmission System.

Rate Changes

The prices used to determine the G-CSP Commodity Charge (non-wholesale) for **November and December 2000 and January 2001** are shown on the following table:

	Nov. 2000 (\$/therm)	Dec. 2000 (\$/therm)	Jan. 2001 (\$/therm)
(A) Forecasted Core Portfolio Cost of Flowing Supply (Projected Citygate WACOG)	0.5088	0.7183	1.1544
• Current Forecasted Index Price • Prior Month Index Price True-Up¹	0.5106 0.0134	0.9021 (0.0056)	1.5692 0.5099
(B) Adjusted Forecasted Index Price (Citygate Index Price)	0.5240	0.8965	2.0791
G-CSP Total Procurement Rate (Higher of (A) or (B) above, including shrinkage)			
Distribution	0.59776	0.87073	2.16548
Transmission	0.59693	0.86956	2.16360

The Company has been educating customers about the rising gas market prices through various communications and will be sending a letter to core subscription customers regarding this rate change.

The G-CSP rates effective **January 1, 2001**, include a credit of **(\$0.022)** per therm for prior period forecast errors.

Pursuant to Public Utilities Code Sections 6350-6354, gas volumes procured by customers from third-party entities and transported by PG&E may be subject to a gas franchise fee surcharge under Schedule G-SUR--*Customer-Procured Gas Franchise Fee Surcharge*. The franchise fee surcharge is calculated based on the Company's core subscription Weighted Average Cost of Gas (WACOG) for the previous month, exclusive of Franchise Fees and including Uncollectibles, and the franchise fee factor adopted in the latest General Rate Case.

Effective **January 1, 2001**, the GSUR franchise fee surcharge is **\$0.01074** per therm.

The prices in this advice filing shall remain in effect until the Company's next such filing with the CPUC. Prices are posted on the Company's internet site at:

http://www.pge.com/customer_services/business/tariffs/

¹ The forecasted index price for the current month is adjusted for differences in the forecast and actual (published) index price for the prior month, except when the G-CSP Commodity Charge for the prior month is based on the forecasted Core Portfolio Cost of Flowing Supply.
