Advice 2487-G
(Pacific Gas and Electric Company ID U39G)

Subject: October 2003 Core Procurement Rates

Public Utilities Commission of the State of California

Pacific Gas and Electric Company (PG&E) hereby submits for filing revisions to its gas tariffs. The affected tariff sheets are listed on the enclosed Attachment I.¹

Purpose

The purpose of this filing is to submit changes to core end-use customer gas rates effective **October 7, 2003**. This filing is submitted in compliance with Decision (D.) 97-10-065, which approved monthly price changes for core gas procurement rates and also incorporates changes to core rates pursuant to Gas Accord D. 97-08-055 and Biennial Cost Allocation Proceeding (BCAP) D. 01-11-001. In accordance with D. 97-10-065, core gas procurement rates generally change on the fifth business day of the month.

October 2003 Procurement Rates

PG&E is revising the gas procurement charges shown on core end-use customer Schedules G-1, GM, GS, GT, GL-1, GML, GSL, GTL, G-NR1, G-NR2, G-NGV1, G-NGV2 and G-CP—*Gas Procurement Service to Core End-Use Customers*. The procurement charges shown on Schedule G-CP are for illustrative purposes only and are the same as those shown on the end-use customer schedules. The gas procurement rate varies by rate schedule due to the allocation of capacity charges to the core customer classes.

¹ PG&E reserves all legal rights to challenge the decisions or statutes under which it has been required to make this advice filing, and nothing in this advice filing constitutes a waiver of such rights. Also, PG&E reserves any additional legal rights to challenge the requirement to make this advice filing by reason of its status as a debtor under Chapter 11 of the Bankruptcy Code, and nothing in this advice filing constitutes a waiver of such rights.

Schedule G-CP procurement charges proposed in this filing are shown below:

	Residential (All schedules)	Small Commercial (G-NR1)	Large Commercial (G-NR2)	Natural Gas Vehicles (G-NGV1/2)
Schedule G-CP Procurement Charge (\$/therm)	\$0.62345	\$0.62104	\$0.60247	\$0.61418

The Schedule G-CP rates effective **October 7, 2003**, include:

- a) A monthly weighted average cost of gas (WACOG) of **\$0.42699** per therm, compared to last month's WACOG of **\$0.46497** per therm. The WACOG includes backbone transportation charges to the citygate and excludes El Paso volumetric charges;
- b) An adjustment of \$0.14175 per therm resulting from a one-month amortization of a \$45 million expected overcollection in the core sales subaccount of the Purchased Gas Account (PGA) offset by a one month amortization of \$66 million in expected gas prepayment charges;
- c) An adjustment of (\$0.03275) per therm resulting from a two-month amortization of a \$12 million expected overcollection in the core shrinkage subaccount of the PGA;
- d) An adjustment to interstate and backbone capacity charges to account for the monthly election of backbone and interstate capacity by gas Energy Service Providers (ESPs);
- e) A core storage rate component, adjusted to account for elections of core firm storage capacity by gas ESPs. Preliminary Statement, Part B--*Default Tariff Rate Components*, reflects changes to the core procurement components. Workpapers showing the derivation of rates and components of this advice filing can be obtained by writing to the address shown in the Notice section, below.

The prices in this filing shall remain in effect until PG&E's next such filing with the Commission. The current core procurement rates may be obtained at PG&E's internet site at:
