Advice 2696-G

(Pacific Gas and Electric Company ID U39G)

Subject: February 7, 2006 Gas Core Procurement Rate Changes

Public Utilities Commission of the State of California

Pacific Gas and Electric Company (PG&E) hereby submits for filing revisions to its gas tariffs. The affected tariff sheets are included in Attachment I to this filing.

Purpose

The purpose of this filing is to submit changes to PG&E's core end-use customer gas rates effective **February 7, 2006**. This filing is submitted in compliance with Decision (D.) 97-10-065, which approved monthly changes for gas procurement rates for core customers. In accordance with D. 97-10-065, core gas procurement rates generally change on the fifth business day of the month. However, D 98-07-205 allows PG&E to change its core procurement rates on the first day of the month when core transportation rates change on the first of the month.

Procurement Rate Changes

PG&E is revising the gas procurement charges shown on core end-use customer Schedules G-1, GM, GS, GT, GL-1, GML, GSL, GTL, G-NR1, G-NR2, G-NGV1, G-NGV2 and G-CP—*Gas Procurement Service to Core End-Use Customers*. PG&E is also incorporating approved Schedules G1-NGV and GL1-NGV as further discussed below. The procurement charges shown on Schedule G-CP are for illustrative purposes only and are the same as those shown on the end-use customer schedules. The gas procurement rate varies by rate schedule due to the allocation of capacity charges to the core customer classes.

Schedule G-CP procurement charges proposed in this filing are shown below:

	Residential (G-1, GM, GS, GT, GL-1, GML, GSL, GTL)	Residential (G1-NGV, GL1-NGV)	Small Commercial (G-NR1)	Large Commercial (G-NR2)	Natural Gas Vehicles (G-NGV1/2)
Schedule G-CP Procurement Charge (\$/therm)	\$0.89008	\$0.87142	\$0.88494	\$0.85029	\$0.83744

The Schedule G-CP rates effective **February 7, 2006**, include:

- a) A monthly weighted average cost of gas (WACOG) of **\$0.73407** per therm, compared to last month's WACOG of \$1.03241 per therm;
- b) An adjustment in the procurement rates of \$0.03712 per therm to recover the balance in the Emergency Core Gas Hedging Plan Subaccount of the Purchased Gas Account;
- c) Adjustments to core interstate and intrastate backbone capacity and core firm storage charges to account for the election of pipeline and storage capacity by gas Energy Service Providers (ESPs).

Addition of the Schedules G1-NGV and GL1-NGV

PG&E incorporates the residential Natural Gas Vehicle (NGV) refueling tariffs, as filed in draft form in Advice 2679-G/2739-E and with updated transportation rates in Advice 2679-G-A/2739-E-A. In Advice 2679-G/2739-E (filed on November 18, 2005), PG&E proposed new optional residential gas schedules G1-NGV – *Residential Natural Gas Service For Compression On Customers' Premises*, and Schedule GL1-NGV – *Residential CARE Program Natural Gas Service For Compression on Customers' Premises*. These optional rate schedules apply to residential customers with an installed Natural Gas Vehicle (NGV) home refueling appliance (HRA) meeting U.S. certification requirements, and who own or have under lease a natural gas vehicle for personal use. The rate structure for the optional schedules consists of a fixed monthly customer charge, a per therm gas transportation charge, and a per therm gas procurement charge that changes monthly, as indicated in PG&E's core procurement Schedule G-CP – *Gas Procurement Service to Core End-Use Customers*.

Effective Date

In accordance with D. 97-10-065 and D. 98-07-025, PG&E requests that this advice filing be approved effective **February 7, 2006**.

Anyone wishing to protest this filing may do so by sending a letter by **February 20, 2006**, which is 20 days from the date of this filing. SCHEDULE G-1—RESIDENTIAL SERVICE

APPLICABILITY: This rate schedule* applies to natural gas service to Core End-Use Customers on PG&E's Transmission and/or Distribution Systems. APPLICABILITY: This rate schedule* applies to natural gas service to non-residential Core End-Use Customers on PG&E's Transmission and/or Distribution Systems. To qualify, a Customer's average monthly use must have exceeded 20,800 therms during those months in the last twelve (12) months in which gas use exceeded 200 therms, except as specified below in the Energy Efficiency Adjustment Provision. This schedule may be taken in conjunction with Schedule G-EG; however, electric generators permanently classified as Noncore End-Use Customers, per gas Rule 1, must procure gas from a third-party supplier, not from a Core Procurement Group, as defined in gas Rule 1.

TERRITORY: Schedule G-NR2 applies everywhere PG&E provides natural gas service.

Customers that have executed a Request for Reclassification from Noncore Service to Core Service (Form 79-983) will pay the Customer Charge and Transportation Charge shown below. Such Customers will pay the Procurement Charge specified in Schedule G-CPX for any of the first twelve (12) regular monthly billing periods that they are taking core procurement service from PG&E.
