Advice Letter 2863-G/3111-E

Brian K. Cherry
Vice President, Regulatory Relations
Pacific Gas and Electric Company
77 Beale Street, Mail Code B10C
P.O. Box 770000
San Francisco, CA 94177

Subject: Request to Modify Forms 62-0683, 62-0684, 62-0685,
62-0686, 62-0687

Dear Mr. Cherry:

Advice Letter 2863-G/3111-E is effective October 5, 2007.

Sincerely,

A handwritten signature in black ink, appearing to read "Sean H. Gallagher".

Sean H. Gallagher, Director
Energy Division

Brian K. Cherry
Vice President
Regulatory Relations

August 29, 2007

Advice 2863-G/3111-E
(Pacific Gas and Electric Company U 39 M)

Public Utilities Commission of the State of California

**Subject: Request to Modify Forms 62-0683, 62-0684, 62-0685, 62-0686,
62-0687**

Pacific Gas and Electric Company (PG&E) hereby requests approval to modify the following Applications for Service

- 62-0683 Residential Single Family Dwelling
- 62-0684 Residential Subdivision/Development
- 62-0685 Commercial/Industrial Development
- 62-0686 Agricultural Service
- 62-0687 Relocation/Rearrangement

Purpose

The purpose of this filing is to simplify and improve PG&E's process for serving its customers by enabling PG&E to collect more customer information upon initial contact with the customer. The additional information will accelerate the processing of the customer's request, reduce the number of future contacts required to obtain customer information, and facilitate a timely follow-up with the customer.

The revised Applications also update contact information, and add definitions and explanations to clarify and reinforce important information and encourage contact with PG&E, as needed. Additional details have been added to the Applications to inform applicants of environmental regulatory requirements and the need to include this information with the submission of the Application to facilitate timely completion of the project. The Applications have also been renamed and reformatted to better serve customer needs.

Proposed Revisions

Please see Attachment 1 for a detailed matrix of the proposed revisions.

Protests

Anyone wishing to protest this filing may do so by letter sent via U.S. mail, by facsimile or electronically, any of which must be received no later than **September 18, 2007**, which is 20 days after the date of this filing. Protests should be mailed to:

CPUC Energy Division
Tariff Files, Room 4005
DMS Branch
505 Van Ness Avenue
San Francisco, California 94102

Facsimile: (415) 703-2200
E-mail: jj@cpuc.ca.gov and mas@cpuc.ca.gov

Copies of protests also should be mailed to the attention of the Director, Energy Division, Room 4004, at the address shown above.

The protest also should be sent via U.S. mail (and by facsimile and electronically, if possible) to PG&E at the address shown below on the same date it is mailed or delivered to the Commission:

Brian K. Cherry
Vice President, Regulatory Relations
Pacific Gas and Electric Company
77 Beale Street, Mail Code B10C
P.O. Box 770000
San Francisco, California 94177

Facsimile: (415) 973-7226
E-mail: PGETariffs@pge.com

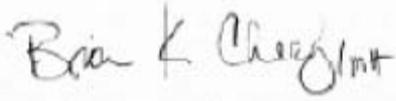

Effective Date

PG&E requests that this filing be approved effective **October 5, 2007**, to allow PG&E time to modify its on-line applications, update its training materials and roll out the revised forms in an orderly manner to PG&E's field personnel and customers.

Notice

In accordance with General Order 96-B, Section IV, a copy of this advice letter is being sent electronically and via U.S. mail to parties shown on the attached list. Address changes should be directed to Rose de la Torre at (415) 973-4716. Advice letter filings can also be accessed electronically at:

<http://www.pge.com/tariffs>

A handwritten signature in black ink, appearing to read "Brian K. Cheryl". The signature is written in a cursive style and is contained within a light gray rectangular box.

Vice President, Regulatory Relations

If you want additional information on rate options or want to request a free rate analysis, visit http://www.pge.com/rates_regulations/rate_info/rate_options or call 1-877-PGE-SRVC. If a rate schedule is not selected, PG&E will select an applicable rate schedule.

Applicant Design and Installation Options

As an applicant for new gas or electric service, you can choose either PG&E or a qualified contractor to design new gas/electric distribution and/or service facilities. You can also choose either PG&E or a qualified contractor to construct all or a portion of new gas/electric distribution and/or service facilities. PG&E will provide you with a bid for the design and the construction work, to assist you in making a selection. You will then have the opportunity to choose either a qualified contractor to perform the design/or construction work.

In accordance with PG&E's filed tariffs, electric trenching, conduits, substructures and gas service trenching are the applicant's responsibility. Once you make a decision about who will perform the work, if you subsequently change your selection, you will be responsible for any re-engineering charges incurred as a result of that change.

You should become familiar with the applicant design installation requirements, including PG&E's Applicant Design Guide and General Terms and Conditions, before you make your selection. For copies of these documents and/or for addition information, visit www.pge.com/applicantsdesignandinstall or request information by call 1-877-PGE-SRVC.

Construction Information

**Please note if you have selected "Electric Overhead Service" without "Gas Service" all trench related questions become optional fields.

Joint trench drawing to be prepared by: Applicant PG&E Not required

*Total Gas Load _____

Attachments – 2 copies required

- A. Assessors parcel map showing all easements, rights-of-way, property lines, etc.
- B. Detailed site plan showing roads, sidewalks, driveways, location of fire hydrants and other structures, proposed location of gas and electric meters, building elevations, and proposed future improvements. (Meter locations are subject to PG&E approval.)
- C. One copy of the county or city approved plot plan with assigned address is required to establish the PG&E account.
- D. Title 24 Utility Report or building permit.
- E. Copies of all environmental permits and/or conditions of approval.
Applicant is responsible to identify all environmental requirements within said permits, approvals and/or conditions. For additional information visit http://www.pge.com/customer_service/new_construction_services/

Agreement to Pay and Signature

I understand that service will be engineered and installed based upon the information provided here. I agree to pay PG&E, on demand, for all work PG&E performs and all costs PG&E incurs for this application for service. PG&E may cancel this Application for Service if I do not proceed with the project and it becomes inactive for a period of 12 months. If the project is postponed or cancelled, by either party, I will pay PG&E for all such work and costs incurred by PG&E prior to the postponement or cancellation. PG&E's costs may include, for example, labor, material and supplies, (including long lead time materials), transportation, and other direct costs which PG&E allocates to such work. Incomplete information or any changes made at my request during the engineering, or after it is completed, will subject me to additional charges and may delay the establishment of service. I further agree to pay for any damage to new or existing PG&E facilities caused by my contractors or me. Service shall be subject to all of PG&E's applicable tariff schedules on file with and authorized by the California Public Utilities Commission (CPUC) and shall at all times be subject to such changes or modifications as the CPUC may direct from time to time in the exercise of its jurisdiction.

I understand that PG&E may require an engineering advance to cover some or all of its costs for project review, design work and cost development in connection with this application for service. I understand that any advance will be based upon current costs and the amount of work anticipated by PG&E based upon the information submitted in this application. I understand that any advance will be credited against the amount I owe, applied to the amount I may owe on the resulting line extension agreement, or refunded to me without interest when PG&E has completed its engineering work or if the project has been cancelled or postponed.

I have read the above information. I understand and agree with the provisions and my responsibilities.

Electric Load Information

Main Switch Size (Service Termination Enclosure) _____ amps

Voltage: (select one) 120/240 Volt, 3-wire, 1Ø 120/208 Volt, 3-wire, 1Ø 240/120 Volt, 4-wire, 3Ø

208/120 Volt, 4-wire, 3Ø 480/277 Volt, 4-wire, 3Ø

Check all that apply:

Standard residential loads (Lighting, Electric Oven, Electric Range, Refrigerator, Freezer, Dish Washer, Laundry Dryer, Electric Water Heater)

Air Conditioner (____ tons) Domestic Water Pump (____ hp) Pool / Spa (____ kW)

Other electric heat (____ kW) Heat Pump (____ tons) Electric Vehicle (____ kW)

On-Demand Water Heating (____ kW) NGV Compressor (____ hp)

Other electric load (specify) _____ Number of meters needed _____

Common Usage Area Electric Load Information

Lift Station Club House Park Site Sprinkler / Irrigation Controls (must be metered)

Street Lighting Area Lighting Other (Specify) _____

* Street Light Load Information

Number of street lights to be added in development _____ Watts per lamp _____ Number of existing street lights to be removed _____

Bulb type: High Pressure Sodium Vapor Low Pressure Sodium Vapor Mercury Vapor Metal Halide Incandescent Other _____

What rate schedule will the lights be placed on? LS1 LS2 OL1 LS3 Other _____ (additional forms may be required)

Who is responsible for the street light billing? _____

Billing address for streetlights _____ City _____ State _____ Zip _____

Important Note: For city or county owned street lighting, a letter will be required from the city/county accepting ownership of the lighting, which includes the date of acceptance and states they will be responsible for the billing. Until the letter is received and dated with the city/county acceptance, the billing will be placed in the applicant's name and billed according to the rate schedule requested once the lights have been energized.

Natural Gas Load Information

Natural gas standard service delivery pressure is provided at 1/4 psig (7" water column). Requests for elevated service delivery pressure require PG&E's review and approval. If granted, elevated service delivery pressure may be reduced at any time due to PG&E operational needs. Special Facilities and cost-of-ownership charges may apply for elevated service delivery pressure. For further information, contact your local PG&E office and refer to Gas Rule 2. (MBtu/h = 1,000 Btu/h)

Gas Service Delivery Pressure requested: 1/4 psig Other (____ psig)

Check all that apply:

Gas Range (____ MBtu/h) Laundry Dryer (____ MBtu/h) On-Demand Water Heater (____ MBtu/h)

Gas Oven (____ MBtu/h) Water Heater (____ MBtu/h) Furnace (____ MBtu/h) Pool / Spa (____ MBtu/h)

Other gas load (specify) _____ Number of meters needed _____

IMPORTANT NOTE: Do NOT install your electric main switch or gas house line until the meter location is approved by PG&E.

Self-Generation and Net Metering Options

If you are planning to install any self generation equipment, photovoltaic, or wind generation, additional applications for interconnection to PG&E's electric system must be submitted and approved by PG&E prior to engineering for your new construction project. The information you provide on your generation interconnection application may affect the final PG&E design for your project.

For information on PG&E's net metering programs, including eligibility guidelines, generation interconnection program application forms, links to the California Public Utilities Commission, Energy Commission and the US Department of Energy, visit www.pge.com/gen or contact PG&E's Generation Interconnection Services at (415) 972-5676.

Are you planning on installing any self generation equipment? Yes _____ No _____

If yes, please provide us with an estimate of the Generation proposed for this project.

*Total # of generation units _____ * Total output of all generation _____ *kW Generation Type _____

Attachments – 2 copies required

- A. Complete set of subdivision improvement plans, including grading plans. Plans should include location of water, sewer, and storm drains. (Include 3 ½" high-density disk with AutoCAD 2000i.dwg file of the site plan.)
- B. Tract map showing all easements, rights-of-way, property lines, etc.
- C. Detailed site plan showing roads, sidewalks, driveways, location of fire hydrants and other structures, and proposed future improvements.
- D. Landscaping plans including sprinkler controller meter location.
- E. Streetlight and traffic signal plans.
- F. Title 24 Utility Report or building permit.
- G. Copies of all environmental permits and/or conditions of approval.
Applicant is responsible to identify all environmental requirements within said permits, approvals and/or conditions. For additional information visit http://www.pge.com/customer_service/new_construction_services/

Agreement to Pay and Signature

I understand that service will be engineered and installed based upon the information provided here. I agree to pay PG&E, on demand, for all work PG&E performs and all costs PG&E incurs for this application for service. PG&E may cancel this Application for Service if I do not proceed with the project and it becomes inactive for a period of 12 months. If the project is postponed or cancelled, by either party, I will pay PG&E for all such work and costs incurred by PG&E prior to the postponement or cancellation. PG&E's costs may include, for example, labor, material and supplies, (including long lead time materials), transportation, and other direct costs which PG&E allocates to such work. Incomplete information or any changes made at my request during the engineering, or after it is completed, will subject me to additional charges and may delay the establishment of service. I further agree to pay for any damage to new or existing PG&E facilities caused by my contractors or me. Service shall be subject to all of PG&E's applicable tariff schedules on file with and authorized by the California Public Utilities Commission (CPUC) and shall at all times be subject to such changes or modifications as the CPUC may direct from time to time in the exercise of its jurisdiction.

I understand that PG&E may require an engineering advance to cover some or all of its costs for project review, design work and cost development in connection with this application for service. I understand that any advance will be based upon current costs and the amount of work anticipated by PG&E based upon the information submitted in this application. I understand that any advance will be credited against the amount I owe, applied to the amount I may owe on the resulting line extension agreement, or refunded to me without interest when PG&E has completed its engineering work or if the project has been cancelled or postponed.

I have read the above information. I understand and agree with the provisions and my responsibilities.

If you want additional information on rate options or want to request a free rate analysis, visit http://www.pge.com/rates_regulations/rate_info/rate_options or call 1-877-PGE-SRVC. If a rate schedule is not selected, PG&E will select an applicable rate schedule.

Applicant Design and Installation Options

As an applicant for new gas or electric service, you can choose either PG&E or a qualified contractor to design new gas/electric distribution and/or service facilities. You can also choose either PG&E or a qualified contractor to construct all or a portion of new gas/electric distribution and/or service facilities. PG&E will provide you with a bid for the design and the construction work, to assist you in making a selection. You will then have the opportunity to choose either a qualified contractor to perform the design/or construction work. In accordance with PG&E's filed tariffs, electric trenching, conduits, substructures and gas service trenching are the applicant's responsibility. Once you make a decision about who will perform the work, if you subsequently change your selection, you will be responsible for any re-engineering charges incurred as a result of that change. You should become familiar with the applicant design installation requirements, including PG&E's Applicant Design Guide and General Terms and Conditions, before you make your selection. For copies of these documents and/or for addition information, visit www.pge.com/applicantsdesignandinstall or request information by call 1-877-PGE-SRVC.

Construction Information

**Please note if you have selected "Electric Overhead Service" without "Gas Service" all trench related questions become optional fields.

IMPORTANT NOTE: Do NOT install your electric main switch or gas service delivery point until the meter location is approved by PG&E.

Self-Generation and Net Metering Options

If you are planning to install any self generation equipment, photovoltaic, or wind generation, additional applications for interconnection to PG&E's electric system must be submitted and approved by PG&E prior to engineering for your new construction project. The information you provide on your generation interconnection application may affect the final PG&E design for your project.

For information on PG&E's net metering programs, including eligibility guidelines, generation interconnection program application forms, links to the California Public Utilities Commission, Energy Commission and the US Department of Energy, visit www.pge.com/gen or contact PG&E's Generation Interconnection Services at (415) 972-5676.

Are you planning on installing any self generation equipment? Yes _____ No _____
If yes, please provide us with an estimate of the Generation proposed for this project.

*Total # of generation units _____ *Total output of all generation _____ * kW * Generation Type _____

Attachments - 2 copies required

- A. Detailed site plan showing roads, driveways, easements, right-of-ways, property lines, building and structure.
- B. Copies of all environmental permits and/or conditions of approval.
Applicant is responsible to identify all environmental requirements within said permits, approvals and/or conditions. For additional information visit http://www.pge.com/customer_service/new_construction_services

Agreement to Pay and Signature

I understand that service will be engineered and installed based upon the information provided here. I agree to pay PG&E, on demand, for all work PG&E performs and all costs PG&E incurs for this application for service. PG&E may cancel this Application for Service if I do not proceed with the project and it becomes inactive for a period of 12 months. If the project is postponed or cancelled, by either party, I will pay PG&E for all such work and costs incurred by PG&E prior to the postponement or cancellation. PG&E's costs may include, for example, labor, material and supplies, (including long lead time materials), transportation, and other direct costs which PG&E allocates to such work. Incomplete information or any changes made at my request during the engineering, or after it is completed, will subject me to additional charges and may delay the establishment of service. I further agree to pay for any damage to new or existing PG&E facilities caused by my contractors or me. Service shall be subject to all of PG&E's applicable tariff schedules on file with and authorized by the California Public Utilities Commission (CPUC) and shall at all times be subject to such changes or modifications as the CPUC may direct from time to time in the exercise of its jurisdiction.

I understand that PG&E may require an engineering advance to cover some or all of its costs for project review, design work and cost development in connection with this application for service. I understand that any advance will be based upon current costs and the amount of work anticipated by PG&E based upon the information submitted in this application. I understand that any advance will be credited against the amount I owe, applied to the amount I may owe on the resulting line extension agreement, or refunded to me without interest when PG&E has completed its engineering work or if the project has been cancelled or postponed.

I have read the above information. I understand and agree with the provisions and my responsibilities.

PG&E may relocate or rearrange service in accordance with Gas and/or Electric Rules 2, 13, 15, 16, 20, 21 and LS schedules as applicable. There may be circumstances where application of PG&E's distribution/service extension rules would place an undue financial burden on PG&E. In these cases, PG&E may apply the exceptional case provisions of its Rules 15 and 16.

Applicant Design and Installation Options

As an applicant for new gas or electric service, you can choose either PG&E or a qualified contractor to design new gas/electric distribution and/or service facilities. You can also choose either PG&E or a qualified contractor to construct all or a portion of new gas/electric distribution and/or service facilities. PG&E will provide you with a bid for the design and the construction work, to assist you in making a selection. You will then have the opportunity to choose either a qualified contractor to perform the design/or construction work.

In accordance with PG&E's filed tariffs, electric trenching, conduits, substructures and gas service trenching are the applicant's responsibility. Once you make a decision about who will perform the work, if you subsequently change your selection, you will be responsible for any re-engineering charges incurred as a result of that change.

You should become familiar with the applicant design installation requirements, including PG&E's Applicant Design Guide and General Terms and Conditions, before you make your selection. For copies of these documents and/or for addition information, visit Document, Preliminary Statement Part A www.pge.com/applicantsdesignandinstall or request information by call 1-877-PGE-SRVC.

Construction Information

You are permitted to select either PG&E or your own contractor to construct all or a portion of any new gas/electric distribution and / or service facilities. However, only PG&E may work on energized or pressurized facilities. More details regarding the installation option requirements are available through your local PG&E office. You should become familiar with the requirements before you make your selection (Please see the following pages under installation options for specific formation)

*If trenching is required, who will trench, backfill, and provide and install conduit?

Applicant PG&E

*Proposed trench occupants: (please check all that apply)

Electric Gas Phone CATV Other _____

Water, sanitary sewer, storm drain, LPG, oil or other fluid carrying piping or facilities are not permitted in a joint trench.

IMPORTANT NOTE: Do NOT install your electric main switch or gas house line until the location is approved by PG&E.

Load Information

Electric Load Information

Main Switch Size (Service Termination Can) (_____ amps) Number of meters at each service location _____

Voltage: (select one)

120/240, 3-wire, 1Ø 240/120, 4-wire, 3Ø 480/277, 4-wire, 3Ø 208/120, 4-wire, 3Ø
 120/208, 3-wire, 1Ø Primary voltage (> 2,400Volts) Other (specify) _____

*If required, who will install the electric service wire?

Applicant PG&E

Natural Gas Load Information

Natural gas standard service delivery pressure is provided at ¼ psig (7" water column). Requests for elevated service delivery pressure require PG&E review and approval. If granted, elevated service delivery pressure may be reduced at any time due to PG&E operational needs. Special facilities & cost-of-ownership charges may apply for elevated service delivery pressure. For further information, contact your local PG&E office and refer to Gas Rule 2.

Number of meters at each service location _____

*If required, who will install the gas pipe?

Applicant PG&E

General Construction

*Will temporary electric service be required?

No Yes Date needed _____

*Will temporary gas service be required?

No Yes Date needed _____

PG&E gas or electric facilities require removal? No Yes Not sure Date Needed _____

Self-Generation and Net Metering Options

If you are planning to install any self generation equipment, photovoltaic, or wind generation, additional applications for interconnection to PG&E's electric system must be submitted and approved by PG&E prior to engineering for your new construction project. The information you provide on your generation interconnection application may affect the final PG&E design for your project.

For information on PG&E's net metering programs, including eligibility guidelines, generation interconnection program application forms, links to the California Public Utilities Commission, Energy Commission and the US Department of Energy, visit www.pge.com/gen or contact PG&E's Generation Interconnection Services at (415) 972-5676.

Are you planning on installing any self generation equipment? Yes _____ No _____
If yes, please provide us with an estimate of the Generation proposed for this project.

*Total # of generation units _____ * Total output of all generation (_____ kW) *Generation Type _____

Attachments – 2 copies required

- A. Complete set of site improvement plans, including grading plans. (Include 3 1/2" high-density disk with AutoCAD 2000i.dwg file of the site plan.)
- B. Building floor plan and exterior elevations.
- C. Electric drawings and schedules with complete breakdown of equipment; include single line drawing if available.
- D. Electric switchboard drawings. (Must be approved by PG&E prior to manufacturing the main panel.)
- E. Plumbing plans.
- F. Assessors parcel map showing all easements, rights-of-way, property lines, etc.
- G. Detailed site plan showing roads, sidewalk, driveways, location of fire hydrants and other structures, proposed location of gas and electric meters, building elevations, and proposed future improvements. (Meter locations are subject to PG&E approval).
- H. Landscaping plans including sprinkler controller meter location.
- I. Streetlight and traffic signal plans.
- J. Title 24 Utility Report or building permit.
- K. Copies of all environmental permits and/or conditions of approval.
- L. Applicant is responsible to identify all environmental requirements within said permits, approvals and/or conditions. For additional information visit www.pge.com/customer_service/new_construction_services/

Air Conditioner (____ tons) Domestic Water Pump (____ hp) Pool / Spa (____ kW)

Other electric heat (____ kW) Heat Pump (____ tons) Electric Vehicle (____ kW)

On-Demand Water Heating (____ kW) NGV Compressor (____ hp)

Other electric load (specify) _____ Number of meters needed _____

Common Usage Area Electric Load Information

Lift Station Club House Park Site Sprinkler / Irrigation Controls (must be metered)

Street Lighting Area Lighting Other (Specify) _____

* Street Light Load Information

Number of street lights to be added in development _____ Watts per lamp _____ Number of existing street lights to be removed _____

Bulb type: High Pressure Sodium Vapor Low Pressure Sodium Vapor Mercury Vapor Metal Halide Incandescent Other _____

What rate schedule will the lights be placed on? LS1 LS2 OL1 LS3 Other _____ (additional forms may be required)

Who is responsible for the street light billing? _____

Billing address for streetlights _____ City _____ State _____ Zip _____

Important Note: For city or county owned street lighting, a letter will be required from the city/county accepting ownership of the lighting, which includes the date of acceptance and states they will be responsible for the billing. Until the letter is received and dated with the city/county acceptance, the billing will be placed in the applicant's name and billed according to the rate schedule requested once the lights have been energized.

Natural Gas Load Information

Natural gas standard service delivery pressure is provided at 1/4 psig (7" water column). Requests for elevated service delivery pressure require PG&E's review and approval. If granted, elevated service delivery pressure may be reduced at any time due to PG&E operational needs. Special Facilities and cost-of-ownership charges may apply for elevated service delivery pressure. For further information, contact your local PG&E office and refer to Gas Rule 2. (MBtu/h = 1,000 Btu/h)

Gas Service Delivery Pressure requested: 1/4 psig Other (____ psig)

Check all that apply:

Gas Range (____ MBtu/h) Laundry Dryer (____ MBtu/h) On-Demand Water Heater (____ MBtu/h)

Gas Oven (____ MBtu/h) Water Heater (____ MBtu/h) Furnace (____ MBtu/h) Pool / Spa (____ MBtu/h)

Other gas load (specify) _____ Number of meters needed _____

IMPORTANT NOTE: Do NOT install your electric main switch or gas house line until the meter location is approved by PG&E.

Self-Generation and Net Metering Options

If you are planning to install any self generation equipment, photovoltaic, or wind generation, additional applications for interconnection to PG&E's electric system must be submitted and approved by PG&E prior to engineering for your new construction project. The information you provide on your generation interconnection application may affect the final PG&E design for your project.

For information on PG&E's net metering programs, including eligibility guidelines, generation interconnection program application forms, links to the California Public Utilities Commission, Energy Commission and the US Department of Energy, visit www.pge.com/gen or contact PG&E's Generation Interconnection Services at (415) 972-5676.

Are you planning on installing any self generation equipment? Yes _____ No _____

If yes, please provide us with an estimate of the Generation proposed for this project.

*Total # of generation units _____ * Total output of all generation _____ *kW Generation Type _____

Attachments – 2 copies required

- A. Complete set of subdivision improvement plans, including grading plans. Plans should include location of water, sewer, and storm drains. (Include 3 ½” high-density disk with AutoCAD 2000i.dwg file of the site plan.)
- B. Tract map showing all easements, rights-of-way, property lines, etc.
- C. Detailed site plan showing roads, sidewalks, driveways, location of fire hydrants and other structures, and proposed future improvements.
- D. Landscaping plans including sprinkler controller meter location.
- E. Streetlight and traffic signal plans.
- F. Title 24 Utility Report or building permit.
- G. Copies of all environmental permits and/or conditions of approval.
Applicant is responsible to identify all environmental requirements within said permits, approvals and/or conditions. For additional information visit http://www.pge.com/customer_service/new_construction_services/

Agreement to Pay and Signature

I understand that service will be engineered and installed based upon the information provided here. I agree to pay PG&E, on demand, for all work PG&E performs and all costs PG&E incurs for this application for service. PG&E may cancel this Application for Service if I do not proceed with the project and it becomes inactive for a period of 12 months. If the project is postponed or cancelled, by either party, I will pay PG&E for all such work and costs incurred by PG&E prior to the postponement or cancellation. PG&E’s costs may include, for example, labor, material and supplies, (including long lead time materials), transportation, and other direct costs which PG&E allocates to such work. Incomplete information or any changes made at my request during the engineering, or after it is completed, will subject me to additional charges and may delay the establishment of service. I further agree to pay for any damage to new or existing PG&E facilities caused by my contractors or me. Service shall be subject to all of PG&E’s applicable tariff schedules on file with and authorized by the California Public Utilities Commission (CPUC) and shall at all times be subject to such changes or modifications as the CPUC may direct from time to time in the exercise of its jurisdiction.

I understand that PG&E may require an engineering advance to cover some or all of its costs for project review, design work and cost development in connection with this application for service. I understand that any advance will be based upon current costs and the amount of work anticipated by PG&E based upon the information submitted in this application. I understand that any advance will be credited against the amount I owe, applied to the amount I may owe on the resulting line extension agreement, or refunded to me without interest when PG&E has completed its engineering work or if the project has been cancelled or postponed.

I have read the above information. I understand and agree with the provisions and my responsibilities.

If you want additional information on rate options or want to request a free rate analysis, visit http://www.pge.com/rates_regulations/rate_info/rate_options or call 1-877-PGE-SRVC. If a rate schedule is not selected, PG&E will select an applicable rate schedule.

Applicant Design and Installation Options

As an applicant for new gas or electric service, you can choose either PG&E or a qualified contractor to design new gas/electric distribution and/or service facilities. You can also choose either PG&E or a qualified contractor to construct all or a portion of new gas/electric distribution and/or service facilities. PG&E will provide you with a bid for the design and the construction work, to assist you in making a selection. You will then have the opportunity to choose either a qualified contractor to perform the design/or construction work. In accordance with PG&E's filed tariffs, electric trenching, conduits, substructures and gas service trenching are the applicant's responsibility. Once you make a decision about who will perform the work, if you subsequently change your selection, you will be responsible for any re-engineering charges incurred as a result of that change. You should become familiar with the applicant design installation requirements, including PG&E's Applicant Design Guide and General Terms and Conditions, before you make your selection. For copies of these documents and/or for addition information, visit www.pge.com/applicantsdesignandinstall or request information by call 1-877-PGE-SRVC.

Construction Information

**Please note if you have selected "Electric Overhead Service" without "Gas Service" all trench related questions become optional fields.

Joint trench drawing to be prepared by: Applicant PG&E Not Required

Applicant Design and Installation Options

As an applicant for new gas or electric service, you can choose either PG&E or a qualified contractor to design new gas/electric distribution and/or service facilities. You can also choose either PG&E or a qualified contractor to construct all or a portion of new gas/electric distribution and/or service facilities. PG&E will provide you with a bid for the design and the construction work, to assist you in making a selection. You will then have the opportunity to choose either a qualified contractor to perform the design/or construction work.

In accordance with PG&E's filed tariffs, electric trenching, conduits, substructures and gas service trenching are the applicant's responsibility. Once you make a decision about who will perform the work, if you subsequently change your selection, you will be responsible for any re-engineering charges incurred as a result of that change.

You should become familiar with the applicant design installation requirements, including PG&E's Applicant Design Guide and General Terms and Conditions, before you make your selection. For copies of these documents and/or for addition information, visit Document, Preliminary Statement Part A www.pge.com/applicantsdesignandinstall or request information by call 1-877-PGE-SRVC.

Construction Information

You are permitted to select either PG&E or your own contractor to construct all or a portion of any new gas/electric distribution and / or service facilities. However, only PG&E may work on energized or pressurized facilities. More details regarding the installation option requirements are available through your local PG&E office. You should become familiar with the requirements before you make your selection (Please see the following pages under installation options for specific formation)

*If trenching is required, who will trench, backfill, and provide and install conduit?

Applicant PG&E

*Proposed trench occupants: (please check all that apply)

Electric Gas Phone CATV Other _____

Water, sanitary sewer, storm drain, LPG, oil or other fluid carrying piping or facilities are not permitted in a joint trench.

IMPORTANT NOTE: Do NOT install your electric main switch or gas house line until the location is approved by PG&E.

Load Information

Electric Load Information

Main Switch Size (Service Termination Can) (_____ amps) Number of meters at each service location _____

Voltage: (select one)

120/240, 3-wire, 1Ø 240/120, 4-wire, 3Ø 480/277, 4-wire, 3Ø 208/120, 4-wire, 3Ø
 120/208, 3-wire, 1Ø Primary voltage (> 2,400Volts) Other (specify) _____

*If required, who will install the electric service wire?

Applicant PG&E

Natural Gas Load Information

Natural gas standard service delivery pressure is provided at 1/4 psig (7" water column). Requests for elevated service delivery pressure require PG&E review and approval. If granted, elevated service delivery pressure may be reduced at any time due to PG&E operational needs. Special facilities & cost-of-ownership charges may apply for elevated service delivery pressure. For further information, contact your local PG&E office and refer to Gas Rule 2.

Number of meters at each service location _____

*If required, who will install the gas pipe?

Applicant PG&E

General Construction

*Will temporary electric service be required?

No Yes Date needed _____

*Will temporary gas service be required?

No Yes Date needed _____

If, yes please complete the following:

*Will Temporary Service power be operated for less than one year?

___ No ___ Yes

*Have you ever completed a temporary power project with us before? ___ No ___ Yes ___

*Who will trench and backfill for Temporary Service?

___ Applicant/Gas ___ PG&E/Gas
___ Applicant/Electric ___ PG&E/Electric

Electric Temporary Services

*Panel, Main Breaker Size _____ amps

*Will Applicant or Contractor Install Pole ? ___ No ___ Yes

Gas Temporary Services

*Gas Service Delivery Pressure Requested: ___ 1/4 psig ___ other

*Number of Meters at each service location? _____

*Total Gas Load _____

*I request PG&E to provide a construction bid for:

Gas Facilities Electric Facilities

PG&E gas or electric facilities require removal? No Yes Not sure Date Needed _____

Self-Generation and Net Metering Options

If you are planning to install any self generation equipment, photovoltaic, or wind generation, additional applications for interconnection to PG&E's electric system must be submitted and approved by PG&E prior to engineering for your new construction project. The information you provide on your generation interconnection application may affect the final PG&E design for your project.

For information on PG&E's net metering programs, including eligibility guidelines, generation interconnection program application forms, links to the California Public Utilities Commission, Energy Commission and the US Department of Energy, visit www.pge.com/gen or contact PG&E's Generation Interconnection Services at (415) 972-5676.

Are you planning on installing any self generation equipment? Yes _____ No _____
If yes, please provide us with an estimate of the Generation proposed for this project.

*Total # of generation units _____ * Total output of all generation (_____ kW) *Generation Type _____

Attachments – 2 copies required

- A. Complete set of site improvement plans, including grading plans. (Include 3 1/2" high-density disk with AutoCAD 2000i.dwg file of the site plan.)
- B. Building floor plan and exterior elevations.
- C. Electric drawings and schedules with complete breakdown of equipment; include single line drawing if available.
- D. Electric switchboard drawings. (Must be approved by PG&E prior to manufacturing the main panel.)
- E. Plumbing plans.
- F. Assessors parcel map showing all easements, rights-of-way, property lines, etc.
- G. Detailed site plan showing roads, sidewalk, driveways, location of fire hydrants and other structures, proposed location of gas and electric meters, building elevations, and proposed future improvements. (Meter locations are subject to PG&E approval).
- H. Landscaping plans including sprinkler controller meter location.
- I. Streetlight and traffic signal plans.
- J. Title 24 Utility Report or building permit.
- K. Copies of all environmental permits and/or conditions of approval.
- L. Applicant is responsible to identify all environmental requirements within said permits, approvals and/or conditions. For additional information visit www.pge.com/customer_service/new_construction_services/

Agreement to Pay and Signature

I understand that service will be engineered and installed based upon the information provided here. I agree to pay PG&E, on demand, for all work PG&E performs and all costs PG&E incurs for this application for service. PG&E may cancel this Application for Service if I do not proceed with the project and it becomes inactive for a period of 12 months. If the project is postponed or cancelled, by either party, I will pay PG&E for all such work and costs incurred by PG&E prior to the postponement or cancellation. PG&E's costs may include, for example, labor, material and supplies, (including long lead time materials), transportation, and other direct costs which PG&E allocates to such work. Incomplete information or any changes made at my request during the engineering, or after it is completed, will subject me to additional charges and may delay the establishment of service. I further agree to pay for any damage to new or existing PG&E facilities caused by my contractors or me. Service shall be subject to all of PG&E's applicable tariff schedules on file with and authorized by the California Public Utilities Commission (CPUC) and shall at all times be subject to such changes or modifications as the CPUC may direct from time to time in the exercise of its jurisdiction.

I understand that PG&E may require an engineering advance to cover some or all of its costs for project review, design work and cost development in connection with this application for service. I understand that any advance will be based upon current costs and the amount of work anticipated by PG&E based upon the information submitted in this application. I understand that any advance will be credited against the amount I owe, applied to the amount I may owe on the resulting line extension agreement, or refunded to me without interest when PG&E has completed its engineering work or if the project has been cancelled or postponed.

I have read the above information. I understand and agree with the provisions and my responsibilities.
