Advice 2865-G

(Pacific Gas and Electric Company ID U39G)

Subject: September 10, 2007 Gas Core Procurement Rate Changes

Public Utilities Commission of the State of California

Pacific Gas and Electric Company (PG&E) hereby submits for filing revisions to its gas tariffs. The affected tariff sheets are included in Attachment I to this filing.

Purpose

The purpose of this filing is to submit changes to PG&E's core end-use customer gas rates effective **September 10, 2007**. This filing is submitted in compliance with Decision (D.) 97-10-065, which approved monthly changes for gas procurement rates for core customers. In accordance with D.97-10-065, core gas procurement rates generally change on the fifth business day of the month. However, D.98-07-025 allows PG&E to change its core procurement rates on the first day of the month when core transportation rates change on the first of the month.

In this filing, PG&E is revising the way pipeline and storage capacity costs are recovered in procurement rates in order to more closely match revenue recovery each month with the monthly cost of capacity. Until now, PG&E's pipeline and storage capacity rates have been set on an annual average basis resulting in over collections of capacity costs in the winter and under collections in the summer. In general, this change will result in lower capacity rates during winter months when customer gas use is typically high, with higher capacity rates during summer months when gas usage is typically low. This change will also reduce the current seasonal variation in PG&E's capacity and storage balancing account balances.

Procurement Rate Changes

PG&E is revising the gas procurement charges shown on core end-use customer Schedules G-1, G1-NGV, GM, GS, GT, GL-1, GL1-NGV, GML, GSL, GTL, G-NR1, G-NR2, G-NGV1, G-NGV2 and G-CP—*Gas Procurement Service to Core End-Use Customers*. The procurement charges shown on Schedule G-CP are for illustrative purposes only and are the same as those shown on the end-use customer schedules. The gas procurement rate varies by rate schedule due to the allocation of capacity charges and winter gas savings program costs to the core customer classes.

Schedule G-CP procurement charges proposed in this filing are shown below:

	Residential (G-1, GM, GS, GT, GL-1, GML, GSL, GTL)	Residential (G1-NGV, GL1-NGV)	Small Commercial (G-NR1)	Large Commercial (G-NR2)	Natural Gas Vehicles (G-NGV1/2)
Schedule G-CP Procurement Charge (\$/therm)	\$0.82900	\$0.74810	\$0.75342	\$0.65536	\$0.63667

The Schedule G-CP rates effective **September 10, 2007**, include:

- a) A monthly weighted average cost of gas (WACOG) of **\$0.49092** per therm, compared to last month's WACOG of \$0.57919 per therm;
- b) A charge of \$0.01798 per therm to amortize over one month an expected \$2.3 million undercollection in the Core Subaccount of the Purchased Gas Account.
- c) A charge of \$0.05374 per therm to amortize over two months a \$15.5 million undercollection in the Core Pipeline Demand Charge Account.
- d) A charge of \$0.00632 per therm to amortize over two months a \$1.8 million undercollection in the Core Firm Storage Account.

Effective Date

In accordance with D.97-10-065 and D.98-07-025, PG&E requests that this advice filing be approved effective **September 10, 2007**.
