Advice 2929-G/3277-E

(Pacific Gas and Electric Company ID U 39 M)

Public Utilities Commission of the State of California

Subject: Cleanup of Electric and Gas Preliminary Statements for Customer Energy Efficiency Adjustment Balancing Account

Pacific Gas and Electric Company (PG&E) hereby submits for filing revisions to its gas and electric tariffs. The affected tariff sheets are listed on the enclosed Attachment I.

Purpose

PG&E submits this advice filing to revise electric Preliminary Statement Part P – *Customer Energy Efficiency Adjustment Balancing Account (CEEA-electric)*, and gas Preliminary Statement Part Y – *Customer Energy Efficiency Adjustment Balancing Account (CEEA-gas)*, for the following changes:

- 1) More clearly delineate the subaccounts contained within the accounts;
- 2) Update the Customer Energy Efficiency Incentive Account (CEEIA) subaccount to reflect the current risk reward incentive mechanism adopted in Decision (D.) 07-09-043 and D. 08-01-006;
- 3) Add entries to allow the transfer of the residual December 31, 2007, balance in the electric CEEIA to Preliminary Statement Part CZ - *Distribution Revenue Adjustment Mechanism (DRAM)*, for recovery in rates as authorized in the 2008 Annual Electric True-up (AL 3115-E/E-A and Resolution E-4121) and transfer the residual December 31, 2007, balance in the gas CEEIA to Preliminary Statement Part F – *Core Fixed Cost Account (CFCA)*, and Preliminary Statement Part J – *Noncore Customer Class Charge Account (NCA)*, for recovery in rates as authorized in the 2008 Annual Gas True-up (AL 2881-G/G-A); and
- 4) Clarify the accounting entries in the various subaccounts for greater transparency.

Tariff Revisions

PG&E is proposing a new format for the gas and electric CEEA account to clearly delineate the four subaccounts contained in each account. The revisions contained within the subaccounts are described below and apply to both the gas and electric accounts, unless otherwise specified.

The “Customer Energy Efficiency Incentive Account” (CEEIA), whose purpose is to record amounts to be reflected in rates for any incentives earned or penalties incurred by PG&E under the Customer Energy Efficiency (CEE) incentive mechanism, has been updated to: 1) reflect the risk reward incentive mechanism adopted in D. 07-09-043 and D. 08-01-006; 2) remove obsolete language; 3) state that no interest shall be accrued in this subaccount pursuant to D.07-09-043; and 4) add generic entries that allow for the transfer of the residual balance to other accounts for recovery in rates as authorized by the Commission, e.g. for the 2008 Annual Electric True-up and Annual Gas True-up as described above; and to record any other amounts authorized by the Commission to be recorded in these subaccounts.

The “Energy Efficiency Balancing Account” (EEBA), whose purpose is to track the pre-1998 Demand Side Management (DSM) unspent funds (including the pre-1998 DSM bidding program obligations) and expenses incurred after January 1, 1998, for pre-1998 DSM programs, has been revised to update the interest entry for consistency with other accounts. Gas and electric subaccount entry 6.c has been revised to refer to the gas and electric portion of expenses incurred, respectively.

The “Public Purpose Program Energy Efficiency Balancing Account” (PPPEEBA), whose purpose is to track PG&E’s Energy Efficiency (EE) program expenditures against the gas EE PPP surcharge and electric Public Goods Charge (PGC) portion of authorized EE funding, has been revised to update the interest entry to be consistent with other accounts. Gas and electric subaccount entry 7.b (formerly 7.c) has been revised to refer to the gas PPP surcharge and electric PGC portion of expenditures incurred, respectively, and to refer to the credit entries in the gas and electric accounts that correspond with these entries. A generic entry has been added to record any other amounts authorized by the Commission to be recorded in these subaccounts.

The “Public Purpose Program Gas Low-Income Balancing Account” (LIBA), whose purpose is to track PG&E’s Low Income Energy Efficiency (LIEE) program expenditures against the gas LIEE PPP surcharge and electric portion of authorized LIEE funding, has been revised to update the interest entry to be consistent with other accounts. Gas and electric subaccount entry 8.b has been revised to refer to the gas PPP surcharge and electric portion of expenditures

incurred, respectively, and to refer to the credit entries in the gas and electric accounts that correspond with these entries. Generic entries have also been added to record a transfer to or from other accounts and to record any other amounts authorized by the Commission to be recorded in these subaccounts.
