Advice 2984-G/3392-E
(Pacific Gas and Electric Company ID U 39 E)

Public Utilities Commission of the State of California

Subject: Customer Access To Meter Data in Compliance with Decision 06-07-027

Pacific Gas and Electric Company (PG&E) hereby submits for filing revisions to its gas and electric tariffs. The affected tariff sheets are listed on the enclosed Attachment I.

Purpose

The purpose of this advice letter is to submit for approval new gas rate Schedule G-AMDS – *Access to Meter Data Services*. PG&E also submits revisions to its electric rate Schedule E-AMDS – *Experimental Access to Meter Data Services*, to change its status from experimental to standard.

Proposed Rate Schedule G-AMDS

In compliance with Ordering Paragraph 11 of Decision (D.) 06-07-027 (“Decision”) issued July 20, 2006, approving with modification PG&E’s Advanced Metering Infrastructure (AMI) Application (A.05-06-028 or “Application”), PG&E hereby submits gas Schedule G-AMDS – *Access to Meter Data Services*. The Schedule is shown in Attachment 1. This gas rate is modeled after the corresponding electric rate Schedule E-AMDS – *Experimental Access to Meter Data Services* which the Energy Division approved on July 10, 2008 in response to PG&E’s Advice 3256-E-A.

Under the new service, a customer connected to PG&E’s SmartMeter™ System will be able to view, print, and download their gas usage through “My Account” at www.pge.com. The web presentation of the customer’s gas usage is being offered at no cost to the customer.

Customers on the SmartMeter™ System will have access to the current day’s gas usage on the following day. The customer will have access to each passing day’s

usage. Historical usage will be available so the customer can view, print, and download yesterday's usage to 24 months of past gas usage retrieved from the SmartMeter™ system.

The usage retrieved from the SmartMeter™ system is sent to different systems: the Data Warehouse and the billing system. The Data Warehouse sends data to "My Account" for web presentment of the customer's usage. The billing system produces the monthly bill which contains the most updated and accurate usage information at the time the bill is created. The Data Warehouse and the billing system do not transfer usage data between them. There are rare instances when the gas usage in the billing system may be different from the web presentment of the customer's gas usage. For example, the billing system performed a correction of the meter register constant, performed a rebate and rebill of a customer's bill, or produced a customer bill on a billing deadline. As mentioned earlier, the billing system does not transfer usage data to the Data Warehouse and vice versa. With these instances, the data will not be synchronized between the two systems.

Revisions to Rate Schedule E-AMDS

On July 1, 2008, PG&E filed Advice Letter 3256-E-A seeking approval of electric rate Schedule E-AMDS. This service provided a customer connected to PG&E's SmartMeter™ System to view, print, and download their electric energy usage through "My Account" at www.pge.com. The web presentment of the customer's energy usage was being offered at no cost to the customer.

At the time of the original advice filing, two months of energy usage information was available. PG&E proposes to offer customers access to 24 months of energy usage information in January 2009. This is being offered at no cost to the customer.

Currently, electric rate Schedule E-AMDS is being offered as an experimental schedule and is due to expire on December 31, 2008. PG&E requests the experimental schedule be made a standard schedule and to offer customers access to 24 months of energy usage information retrieved from the SmartSmartMeter™ system.

Similar to what was explained earlier for rate schedule G-AMDS, the monthly electric bill will contain the most updated and accurate usage information at the time the bill is created and the energy usage in the billing system may be different from the web presentment of the customer's energy usage..

Protest Period

Anyone wishing to protest this filing may do so by letter sent via U.S. mail, by facsimile or electronically, any of which must be received no later than **January, 20, 2009**, which is 21 days after the date of this filing.¹ Protests should be mailed to:

CPUC Energy Division
