**QUESTION 02**

Re. PG&E Excel Attachment 01, Table 2, for each of the metrics 3a (fatalities), 5a (structures), and 6a (acreage): Please provide an Excel version of the “PG&E Fire Incident Data 2014-2019” report (i.e. the ignition database as provided to the CPUC) that also includes columns for each of these three metrics for each reportable ignition. Please highlight or otherwise demarcate those “fire incidents” in the database that were included in PG&E’s compilation for its Table 2, but please provide data for all reportable ignitions where available.

**ANSWER 02**

Please see the requested information in the attachment “WildfireMitigationPlans\_DR\_TURN-015-Q02Atch01”.

Please note, the information will only include ignitions that are consistent with the “wildfire” definition discussed in PG&E’s response to TURN\_015-Q1 (i.e., greater than 10 acres in size).
