QUESTION 02

Please provide the total number of distribution poles a) removed and b) installed in Tiers 2 and 3, similarly segregated by size class.

ANSWER 02 REVISED 01

See “WildfireMitigationPlans_DR_TURN_018-Q01Rev01-Atch01”, the tabs labeled “2019 Delta” and “2020 Delta”.

Please note that we added to the table above a row entitled unavailable. This represents poles for which the size is not reflected in PG&E’s system and thus the requested information is unavailable. This may include, for example, poles that were installed a substantial number of years ago before poles sizes were included in records.

PG&E is updating our prior response to correct for an inadvertent error. Please see the 2020 Delta tab for these revised numbers.
