

Spring 2023 Regional Renewable Choice RFO Demonstration of Developer Experience

Mandatory:

- Participants Info.
- Qualified Project Info.
- Additional Resources

Demonstration of Developer Experience

Instructions: Please have the qualified participant and/or the qualified member of a participant's project development team complete the following with their information and demonstration of developer experience.

Developer Experience Defined

The participant and/or a member of the participant's project development team must have completed at least one other project of similar technology and capacity.

Specifically, the Participant and/or a member of participant's project development team must demonstrate having experience managing and/or developing at least one other in-front-of-the-meter solar photovoltaic Project of similar capacity. A project less than one (1) MW will be deemed to be similar capacity to a project with a capacity of up to one (1) MW. A project between one (1) MW to three (3) MW will be deemed to be a similar capacity to a project with a capacity of up to three (3) MW. For projects larger than three (3) MWs, a project with a capacity of 50% of the project will be deemed to be similar capacity.

Qualified participant and/or member must have had direct involvement in management and/or development in engineering, construction, or interconnection on referenced project(s)

Roles such as finance, sales, legal or counsel do not qualify as direct participant involvement and therefore do not satisfy this developer experience requirement.

Qualified Developer Experience includes:

- Detailed experience
- Professional background
- Applicable duties and responsibilities
- Professional credentials/certifications

Experienced Participants Information

Please complete the following with your information.
