

Small Business Program CEO Support Letter

October 1, 2025

Patti Poppe
CEO, PG&E Corporation

Small businesses bring life and prosperity to our communities, and PG&E is proud to work with them as suppliers in helping us serve our customers.

As we build California's energy future, we will continue our efforts to ensure that small and diverse businesses have an equitable opportunity to compete for PG&E's business. This is part of our Triple Bottom Line commitment—to serve People, the Planet, and California's Prosperity in all that we do.

Our efforts to support small business suppliers include but are not limited to:

- Participating in small business outreach events to identify vendors for contract and procurement opportunities.
- Ensuring policies and procedures include small business language and promote small business utilization.
- Encouraging prime contractors to consider small businesses as subcontractors for PG&E projects.

In providing opportunities to small and diverse suppliers, we're able to help these businesses grow and thrive—contributing to the vibrancy of our local economies. In turn, these businesses are part of the fabric of PG&E's work to fulfill our Purpose: Delivering for our hometowns, serving our planet, and leading with love.

A handwritten signature in black ink that reads "Patti Poppe". The signature is fluid and cursive, with a long horizontal line extending from the start of the name.
